Work Placements for All — LS6 4BQ

27 Eastgate Road, Carford CD1 6L2 — 14 October 2026

Dear Ms O'Connor, [Polite greeting]

Application for Digital Communications Work Placement [Subject]

I am writing to apply for a work placement with Work Placements for All, after seeing your recent online advert. At the moment, I work part-time as an administrative assistant at a local community charity while studying towards my Level 2 qualifications in English and Digital Skills; however, my long-term career goal is to move into full-time digital marketing and social media communications. [Current Role :]

I would love to gain practical, hands-on experience in a busy marketing agency across three main areas: [Colon :]

- Social Media Management: Scheduling posts across platforms, replying to messages, and tracking page views.
- Content Writing: Drafting clear articles, customer email updates, and blog posts for diverse readers.
- Website Support: Learning keyword research and website review methods to help attract online visitors. [Placement]

Gaining this workplace experience will allow me to turn my creative writing skills into practical results. [Practical Aims]

I believe I would be a reliable, hardworking placement student. In my current office job, I am well organised, punctual, and always ready to use my initiative; in addition, my line manager often praises my teamwork and careful attention to detail. While I have built a solid foundation through my studies, this placement will provide the real-world mentoring and support I need to get my career started. [Persuasion]

Thank you very much for considering my application; I look forward to hearing from you soon.

Yours sincerely, [Sign-off]

Alex Taylor — Administrative Assistant

EXAMINER ASSESSMENT & MARK ALLOCATION · TASK 1 — 21 / 21 MARKS

Community Forum: Everyday Actions to Protect Our Environment [Web Forum]

Posted by: Alex_Taylor · Date: 14 October 2026

I want to share my thoughts on how small, everyday changes in our daily routines can make a big positive difference to our local environment. [Opening]

In my everyday routine, I focus on three simple habits to cut down on waste: [Colon :]

1. Cutting Single-Use Plastics: I always carry a reusable water bottle and canvas bags, while saying no to disposable coffee cups and plastic cutlery.

2. Composting & Recycling: As well as sorting glass, paper, and tins, I compost fruit and vegetable peelings to use in the garden.

3. Walking and Cycling: For local trips under two miles, I walk or cycle instead of driving, cutting car fumes and staying active. [Current Acts]

However, we can all do more as a local community to protect our area:

· Support Repair Cafes: Visiting local repair cafes helps fix broken clothes, furniture, and small appliances instead of throwing them into landfill.

· Use Refill Shops: Buying rice, pasta, and cereals in reusable containers cuts down on unnecessary plastic packaging.

· Save Energy at Home: Turning room heating down by just one degree and switching to LED light bulbs lowers household energy bills and saves power. [Future Steps]

In the end, protecting our planet does not need us to be perfect straight away; it just needs all of us to take small, steady steps every single day.

[Conclusion]
