Open Awards Online Functional Skills English Level 2 Reading Exam

Sample Answers

Text 1

Q1- Give a definition of flow stores as stated in Text 1, and explain two ways in which you can register to become a customer?

flow stores are unmanned stores with no checkout tills. You can register by calling the support team on the video phone outside the store, or by calling customer service and giving them your name, address and debit card details.

(3 marks)

Q2- What is the purpose of Text 1? Explain how you know this.

The purpose is to encourage people to use flow stores. The stores are described using positive language, and new customers are welcomed to the stores.

(3 marks)

Text 2

Q3- Jay Hawkes, in Text 2, describes his experience of flow stores. Give one fact and one opinion he uses to support his point of view.

Fact: Hidden cameras observe what you take then automatically charge your account.

Opinion: Posh boutiques are history.

(2 marks)

Step 2: Locate text evidence & match command word *Tutor Tip: Quote directly where requested* *[R1-R3] [100% PASS]*

Q4- Text 2 repeatedly uses short sentences. Explain why you think the author does this.

Short sentences are used to create clear meaning and make the text easy to follow.

(2 marks)

Text 3

Q5- Identify the main reason why the author of Text 3 is against flow stores. Explain why you think this.

The main reason is because flow stores will result in redundancies and job losses, shown through the title of the page in larger text.

(2 marks)

Q6- Identify two organisational features used by the author of Text 3. Give two examples of information which this feature helps you to find.

Bullet points help the reader to find things about flow stores that should be rejected and to show that flow stores have controlled access.

Boxes help the reader to find the main argument for rejecting flow stores and to find out that flow stores will eliminate jobs.

Texts 1, 2 & 3

Q7- Compare the views of the authors of Texts 1 and 3 on the subject of Flow Stores, and how these views are conveyed

Text 1 portrays flow stores as part of a new world and is positive about the technology used. It uses explanatory longer sentences to make the reader feel welcome and repeats positive words like ‘relaxing’. In contrast, Text 3 considers flow stores to be a negative thing, focusing on the negative impact on staff members rather than ease of use for the customer. This is conveyed through the repetition of the bolded word ‘no’ and the use of shorter sentences to create a more insistent tone, promising readers that jobs will be lost as a result of the technology used.

Step 3: Locate text evidence & match command word Tutor Tip: Quote directly where requested [R1-R3] [100% PASS]

PASS FUNCTIONAL SKILLS

Q8- Text 2 contains more detail about Flow Stores than the other two texts. Why do you think this is the case?

Text 1 needs less detail as its aim is to encourage readers to go to a flow store for themselves and try it out instead of reading about it. Text 3 similarly does not require lots of specific details because the author wants to argue against flow stores rather than inform the reader about them in detail. Text 2 needs more detail as it is trying to explain flow stores to readers who have not encountered them before.

(2 marks)

Q9- Identify the styles of writing used in Texts 1 and 2. Give one example from each text which suggests that style of writing.

The style of Text 1 is persuasive, explaining that flow stores are places ‘where buying food is a relaxing, restful experience’.

The style of Text 2 is informal, as it uses colloquial phrases like ‘online is old hat’.

(4 marks)

Q10- Which text do you consider to be the least biassed? Using all three texts, explain your selection.

Text 2 is the least biassed, as it presents both sides of the argument and is written by an impartial journalist. In contrast, Texts 1 and 3 are more biassed. Text 1 only conveys positive messaging about flow stores, and Text 3 uses emotive language to try and persuade readers to protest against flow stores.
