Candidate A: Constantin — Presentation Prompt Cue Cards

Pearson Edexcel Functional Skills English Level 2 • Task 1 Exemplar
Topic: Infection Prevention & Control in Community Healthcare

■ CARD 1: INTRODUCTION & PURPOSE

- Welcome assessor & audience (Abdul, Thomas, Amara).
- Define SICPs: Standard Infection Control Precautions.
- Core purpose: Patient dignity, clinical safety, reducing HCAIs.
- Signpost structure: Problem -> Audit Data -> 2 Solutions -> Measurable Impact.

■ CARD 2: THE PROBLEM & UKHSA EVIDENCE

- HCAI cost to NHS: £1bn+ annually, avoidable hospital bed days.
- UKHSA 2024 Audit Data: 82% baseline hand hygiene adherence.
- Winter crisis surge: Compliance drops to 64% due to cognitive fatigue & rush.
- Key issue: Inaccessible dispensers located down long corridors.

■ CARD 3: TWO-PRONGED INTERVENTION

- Intervention 1 (Physical): Point-of-care dispensers at bedside & clip-on caddies (<£10).
- Intervention 2 (Cultural): Monthly peer champion audits (supportive coaching, not blame).
- Behavioural nudge: Immediate positive visual feedback.

■ CARD 4: RESULTS & CONCLUSION

- Measurable Outcomes: 14% compliance surge (up to 96%).
- Incident drop: 33% reduction in clinical contamination incidents over 6 months.
- Conclusion: Compliance is structural + cultural, not just policy writing.
- Open floor: Invite questions from Thomas, Amara, Abdul.

■ CARD 5: ANTICIPATED Q&A DEFENCE

- If asked on cost/space (Thomas): Point-of-care caddies cheaper than 1 HCAI treatment.
- If asked on domestic home visits (Amara): Disposable paper field trays & antimicrobial rubs.
