Functional Skills Level 2 MATHEMATICS

Paper 2 Calculator

Tuesday 25 February 2020 Afternoon Time allowed: 1 hour 30 minutes

Materials

For this paper you must have:
- a calculator
- mathematical instruments.

For Examiner's Use	
Question	Mark
1–5	
6	
7	
8	
9	
TOTAL	

Instructions

- Use black ink or black ball-point pen. Draw diagrams in pencil.
- Answer **all** questions.
- You must answer the questions in the spaces provided. Do not write outside the box around each page or on blank pages.
- If you need extra space for your answer(s), use the lined pages at the end of this book. Write the question number against your answer(s).
- Do all rough work in this book. Cross through any work you do not want to be marked.
- State the units of your answer where appropriate.

Information

- The marks for questions are shown in brackets.
- The maximum mark for this paper is 60.
- You may ask for more answer paper, graph paper and tracing paper. These must be tagged securely to this answer book.
- If your calculator does not have a π button, take the value of π to be 3.142

Advice

In all calculations, show clearly how you work out your answer.

MASTER FUNCTIONAL SKILLS

ONLINE LEARNING PLATFORM & ACCREDITED COURSES

Pearson Edexcel & Open Awards Accredited Suite · Entry 3, Level 1 & Level 2

Pass Your Functional Skills Exams With Confidence

100% Pass Guarantee | Dyslexia-Friendly Learning | 1-to-1 Expert Tutor Support

Master Functional Skills provides an adaptive, dyslexia-friendly online learning platform tailored for adult learners, apprentices, and healthcare & vocational staff. Everything you need to revise, practice, and pass is at your fingertips.

1. Smart Diagnostic Initial Assessment

Calculate your exact working level and pinpoint knowledge gaps instantly

- **Exact Grade Calculation:** Adaptive assessments calculate your exact level across all topics.
- **Personalised Study Pathway:** Skip what you know; focus 100% on the topics needed to pass.
- **Real-Time Exam Readiness:** Predictive tracker confirms when you are 100% ready to book.

2. Comprehensive Video Lessons & Worked Solutions

Bite-sized visual explainers covering every single Maths & English curriculum standard

- **Step-by-Step Video Lessons:** Master percentages, algebra, perimeter, ratio, and reverse fractions.
- **Multi-Ink Handwriting Models:** Visual 3-colour methods showing working, carries, and examiner tips.
- **Tutor Shortcuts & Golden Rules:** Proven non-calculator mental arithmetic hacks and BIDMAS tricks.

3. Full Mock Exams & Real-Time Performance Analytics

Practice in exam conditions and watch your scores and confidence climb

- **Authentic Exam Papers:** Timed Section A & Section B papers formatted exactly like Pearson Edexcel.
- **Instant Topic Breakdown:** View percentage scores across Number, Measure/Shape, and Data.
- **Historical Score Tracking:** Monitor past attempts to ensure continuous improvement before exam day.

Ready to Master Your Functional Skills & Pass First Time?

Join thousands of healthcare staff, apprentices, and adult learners across the UK.

Instant 24/7 access on desktop, tablet, and mobile with no software to install.

Do not write outside the box

Section A

Answer **all** questions in the spaces provided.

1 Which point has the coordinates (–2, 3)?

(x, y)

Circle your answer.

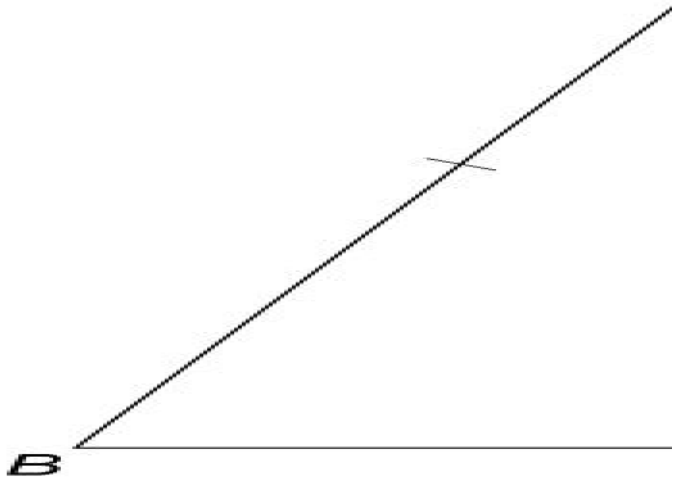

[1 mark]

A B C D

Do not write outside the box

2 Here is an isosceles triangle.

$AB = AC$

Work out the size of angle x.

[3 marks]

ABC = BCA Since isosceles

180 − 36 = 144 144 ÷ 2 = 72

ABC = BCA = 72

Angles in straight line add to 180

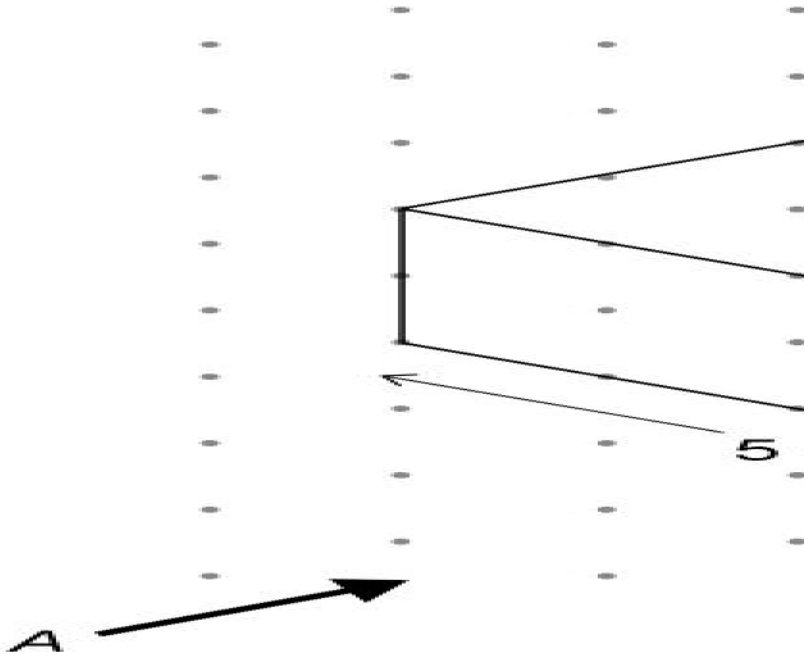

180 − 72 = 108

Answer 108 °

Turn over ►

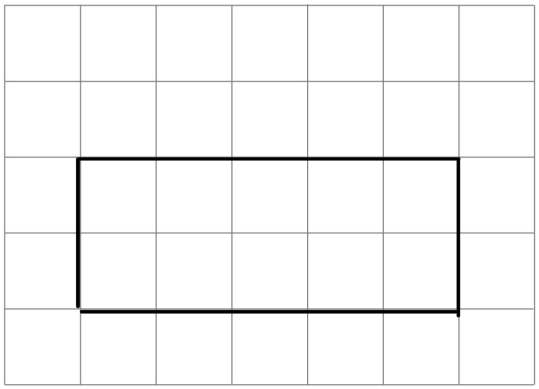

Do not write outside the box

3 A cuboid is shown below.

3 (a) Draw the elevation of the cuboid in the direction of the arrow.

[1 mark]

Do not write outside the box

3 (b) Work out the total surface area of the cuboid.

[3 marks]

$5 \times 4 \times 2 = 40$

$2 \times 4 \times 2 = 16$

$2 \times 5 \times 2 = 20$

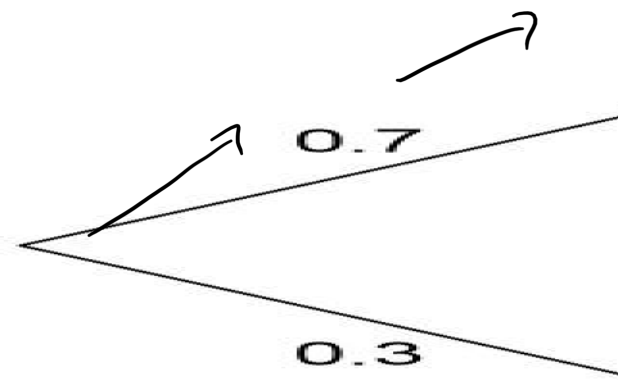

$40 + 16 + 20 = 76$

Answer 76 cm^2

Turn over for the next question

Do not write outside the box

4 Here is a tree diagram.

Work out the probability of Red in Event 1 **and** Red in Event 2

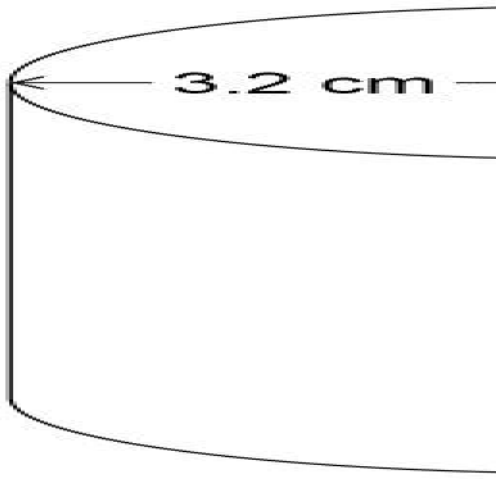

[2 marks]

$0.7 \times 0.7 = 0.49$

Answer 0.49

Do not write outside the box

5 A cylinder has radius 3.2 cm and height 7.5 cm

Work out the volume of the cylinder.

[2 marks]

Area of base:

πr^2 $r = 3.2$ $\pi \times 3.2^2 = 32.17$

$32.17 \times 7.5 = 241.3$

Answer 241.3 cm^3

12

Turn over for Section B

Do not write outside the box

Section B

Answer **all** questions in the spaces provided.

6 **Cycle race**

Paul and Fran want to enter a 60 km cycle race.

6 (a) They look at the reviews of two races, A and B, from last year.
Each review gives a score out of 5 stars to show how good the race was.
Here is some information about the review scores for **Race A**.

Mean	4.1 stars
Median	4 stars
Range	3 stars

The frequency table shows the review scores of **Race B**.

Review Score (stars)	Frequency
1	0
2	1
3	1
4	4
5	6
	12

Score × fq
0
2
3
16
30
51

They enter the race with the higher average review score.

Which race do they enter?
You **must** show your working.

[4 marks]

$51 \div 12 = 4.25$

Race B since $4.25 > 4.1$

Do not write outside the box

6 (b) Fran wants to buy a new bike for the race.

She sees this offer.

Racing bike
£708 including VAT at 20%
SPECIAL OFFER
WE PAY THE VAT

Fran has £600 to spend.

Can she afford the bike?
You **must** show your working.

[3 marks]

708 = 120%
(708 ÷ 120) × 100 = 590
Yes, She has £600
the bike costs £590

Question 6 continues on the next page

Do not write outside the box

6 (c) Paul and Fran start the race at the same time.

Fran cycles the 60 km at an average speed of 15 **miles** per hour.

Fran completes the race and waits for Paul to finish.

Paul finishes the race in 167 minutes.

Does Fran wait for **more than** 10 minutes?

Use 1 mile = 1.6 km

You **must** show your working.

[4 marks]

$15 \times 1.6 = 24$ km/h

$S = \frac{d}{t}$ $t = \frac{d}{S}$ $t = \frac{60}{24} = 2.5$ hours

2.5 hours = 150 mins

167 − 150 = 17 mins waited

Yes, She waits for 17 mins

11

Do not write outside the box

7 Supermarket

Lucas is going shopping at a supermarket.

7 (a) Lucas has a budget of £50 per week for food.
He has already spent £12.50 on takeaway meals.

What fraction of his budget does he have left?

[2 marks]

$50 - 12.50 = 37.50$

$\frac{37.50}{50} = \frac{3}{4}$

Answer $\frac{3}{4}$

Question 7 continues on the next page

Do not write outside the box

7 (b) Lucas buys a 450 g packet of biscuits.

He reads the label.

Sugar content	26.4 g per 100 g
Maximum recommended daily amount (MRDA) of sugar	30 g

Lucas eats 2 biscuits.

Work out the percentage of the MRDA of sugar in the 2 biscuits.

[4 marks]

$450 \div 36 = 12.5\text{g}$ per biscuit

$12.5 \times 2 = 25\text{g}$

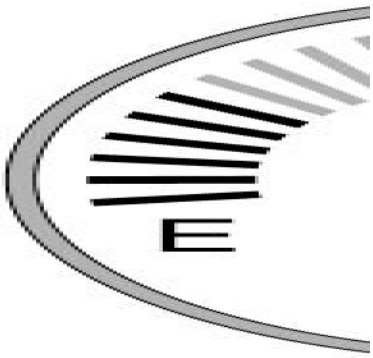

$\frac{25}{100} = \frac{1}{4}$ $\frac{1}{4} \times 26.4 = 6.6\text{g}$

$\frac{6.6}{30} \times 100 = 22$

Answer 22 %

Do not write outside the box

7 (c) Lucas looks at his car's petrol gauge and decides to fill up the petrol tank.

The petrol tank holds 70 litres when full.

Petrol costs 126.8p per litre.

How much does Lucas pay to fill up the tank?

[4 marks]

100 − 24 = 76% empty

0.76 × 70 = 53.2 Litres needed

53.2 × 126.8 = 6745.76p

= £67.46

Answer £ 67.46

10

Turn over ►

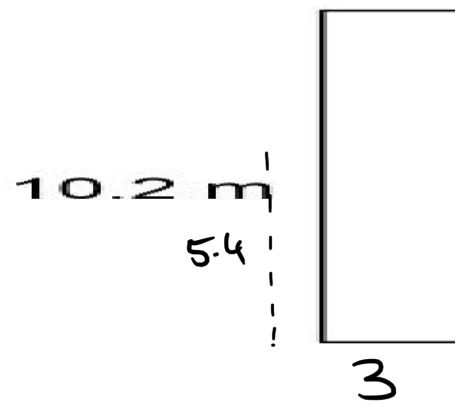

Do not write outside the box

8 Driveway

Meg owns a company that builds concrete driveways.

8 (a) Here is a sketch of a plan of a driveway made from a rectangle and a triangle.

Not drawn accurately

Meg charges £120 per square metre to construct the driveway.

Work out the total amount she charges for the driveway.

[4 marks]

$6.5 - 3.5 = 3$

$10.2 - 4.8 = 5.4$

Rectangle:

$10.2 \times 3.5 = 35.7 m^2$

Triangle:

$\frac{1}{2} \times 5.4 \times 3 = 8.1 m^2$

total: $8.1 + 35.7 = 43.8 m^2$

$43.8 \times 120 = £5256$

Answer £ 5256

Do not write outside the box

8 (b) Meg promises the customer that the driveway will be constructed in 7 days.

Meg has 3 workers.

It would take the 3 workers 11 days to construct the driveway.

Work out the minimum number of **extra** workers Meg needs to employ.
Assume all workers work at the same rate.
You **must** show your working.

[4 marks]

3 × 11 = 33 days of work for one worker

33 ÷ 7 = 4.71 workers needed for 7 days.
Cant have 0.71 of worker, So need 5 total.
She has 3 so 5 − 3 = 2,
She needs 2 more

Answer 2

Question 8 continues on the next page

Do not write outside the box

8 (c) Meg paints a different driveway with a waterproof coating.

The driveway covers an area of 35.75 m^2

The coating is made by mixing sealant and water in the ratio 3 : 8

2 litres of the coating will cover 1 m^2 of driveway.

Sealant is sold in 1.5 litre bottles.

How many bottles of sealant does she need?

[5 marks]

35.75 × 2 = 71.5 Litres needed

3 + 8 = 11

71.5 ÷ 11 = 6.5

3 × 6.5 = 19.5 Litres of sealant needed

19.5 ÷ 1.5 = 13 bottles

Answer 13

13

Do not write outside the box

9 Apartment

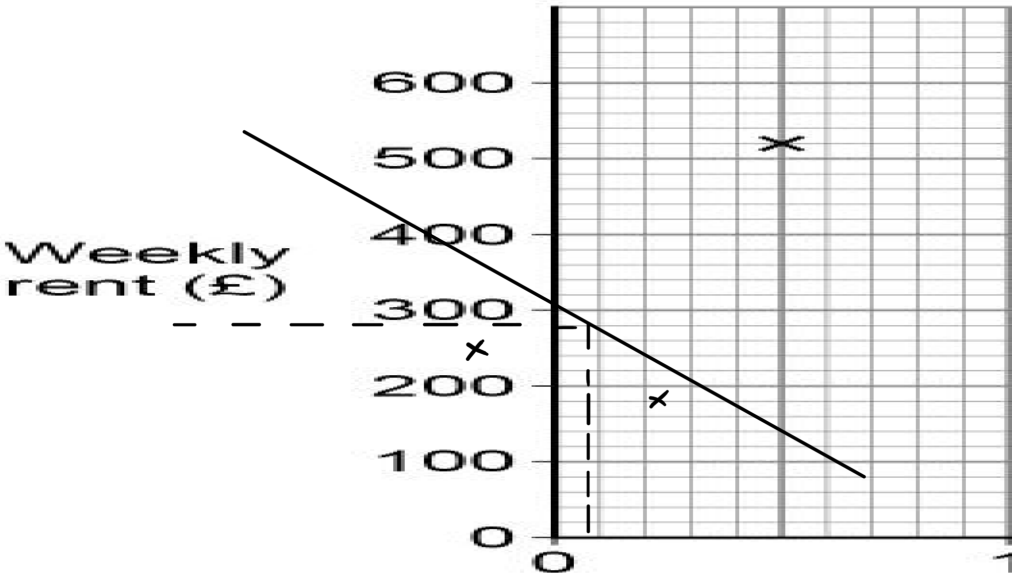

Pete wants to rent an apartment near Norwich city centre.

9 (a) He records information about 10 apartments on a scatter diagram.

The diagram shows

the distance from the city centre in km

the weekly rent in £

The table shows extra data about two other apartments.

Distance from city centre (km)	Weekly rent (£)
2	250
3.2	180

Pete rents an apartment for £280 per week.

Use the scatter diagram **with the extra data** to

estimate the distance from the city centre to the apartment.

You **must** show your working, which should be on the diagram.

[4 marks]

Answer 2.7

Question 9 continues on the next page

Turn over ►

Do not write outside the box

9 (b) Pete has a scale diagram of the living room in the apartment.

Pete wants to cover one wall with wallpaper.

The width of the wall on the scale drawing is 15.9 cm

The scale is 1 : 60

The wallpaper Pete wants

comes in rolls of width 0.53 m and length 10.05 m

costs £13.85 per roll.

The height of the room is 2.65 m

Pete cuts the rolls into lengths of 2.65 m

Work out the total cost of the rolls of wallpaper that Pete needs for the wall.

[6 marks]

$60 \times 15.9 = 954$ cm

$10.05 \div 2.65 = 3.8$ $0.53\text{m} = 53\text{cm}$

3 full lengths per roll

$954 \div 53 = 18$ lengths needed

$18 \div 3 = 6$ rolls needed

$6 \times 13.85 = 83.10$

Answer £ 83.10

Do not write outside the box

9 (c) Pete wants to hide the wires from his TV.

Wires can be hidden in plastic trunking.

Trunking can be cut to any length.

Pete needs three pieces of trunking measuring

$1\frac{1}{2}$ metres

$2\frac{1}{4}$ metres

90 cm

Pete has 15 feet of trunking.

Is this enough?
Use 1 foot = 12 inches
Use 1 inch = 2.5 cm

[4 marks]

15 x12 = 180 inches

180 x2.5 = 450cm

$1\frac{1}{2}$m = 150cm $2\frac{1}{4}$m = 225cm

225 +150 +90 = 465cm

No, he has 450cm but needs 465cm

14
