Mathematics

Level 1

11 – 15 June 2018
Time: 1 hour 30 minutes

Paper Reference
FSM01/01

You must have:
Pen, calculator, HB pencil, eraser, ruler graduated in cm and mm, protractor, compasses.

Total Marks

My signature confirms that I will not discuss the content of the test with anyone until the end of the 5 day test window.

Signature: _____

Instructions

- Use a **black** ball-point pen.
- **Fill in the boxes** at the top of this page with your name, centre number and candidate number.
- Sign the declaration.
- Answer **all** questions.
- Answer the questions in the spaces provided
  – there may be more space than you need.
- **Calculators may be used.**

Information

- The total mark for this paper is 48.
- The marks for each question are shown in brackets
  – use this as a guide to how much time to spend on each question.
- **You must show clearly how you get your answers because marks will be awarded for your working out.**
- **Check your working and your answers at each stage.**
- **This sign shows where marks will be awarded for showing your check.**

Advice

- Read each question carefully before you start to answer it.
- Keep an eye on the time.

SECTION A: New car

Answer all questions in this section.

Write your answers in the spaces provided.

1 Michael wants to buy a new car.

He needs to pay

- a cash deposit of £5875
- £229.20 each month for 24 months.

(a) Work out the total amount Michael will pay.
Show a check of your working. **(4)**

Use the box below to show clearly how you get your answer.

Write your check in the box below.

Michael needs to buy car insurance.
He finds this information.

insurance company	cost each month	excess	legal expenses	breakdown cover
A	£84.99	£350	yes	no
B	£88.90	£300	yes	yes
C	£91.50	£250	no	no
D	£94.33	£250	no	yes
E	£95.99	£250	yes	yes
F	£102.50	£300	yes	yes

Michael wants car insurance that

- has breakdown cover
- has an excess of less than £300
- costs the lowest amount each month.

(b) Which insurance company should Michael use?

(1)

Use the box below to show clearly your answer.

Michael wants to buy winter tyres for the car.

The normal price for the tyres is £400
There is a discount of 15% off the normal price.

Michael thinks 15% of £400 is £50

(c) Is 15% of £400 equal to £50?

(2)

Use the box below to show clearly how you get your answer.

(Total for Question 1 is 7 marks)

2 Michael parks the car in his garage.

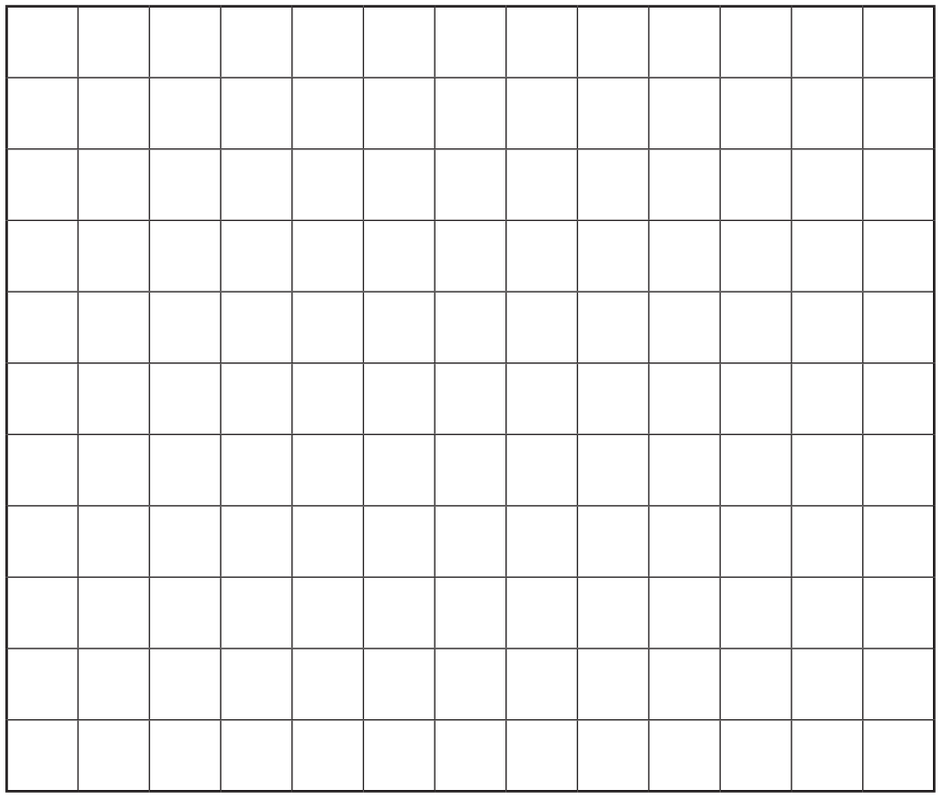

He wants to know if there is also space for a freezer and a workbench in the garage.

Michael makes a scale drawing of the garage floor.

Scale drawing of the garage floor

door

side wall

side wall

back wall

Key 1 square on the grid represents 50 cm by 50 cm on the garage floor

The car takes a rectangular space 4 m by 3 m.

The freezer needs a rectangular space 1.5 m by 1 m.
The workbench needs a rectangular space 3 m by 50 cm.

The longest side of the freezer and the longest side of the workbench must go along a wall.

There must be a gap of at least

- 50 cm between the space for the car and **any** other object
- 1 m between the space for the freezer and the space for the workbench.

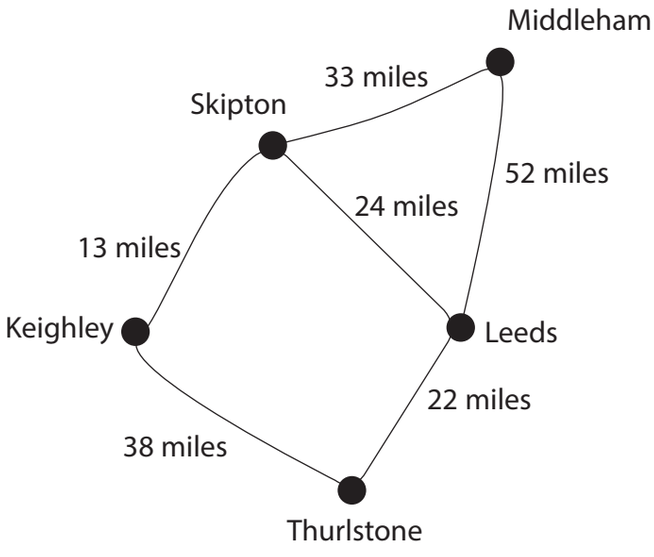

Draw the space for the freezer and the space for the workbench on the grid above. **(4)**

(Total for Question 2 is 4 marks)

3 Michael plans a trip in his new car.
He wants to visit Skipton and Middleham.

Michael will start and end his trip in Thurlstone.
He draws this sketch to show distances between places.

Michael wants to use the sketch to find the shortest route.
He knows the cost of petrol to drive 10 miles is £1

Michael thinks the cost of petrol to drive the shortest route will be less than £16

Is Michael correct?
Show why you think this. **(5)**

SECTION B: The exhibition

Answer all questions in this section.

Write your answers in the spaces provided.

4 Kay is organising an exhibition on health and beauty.
The exhibition will be open from 11 am to 4 pm.

There will be

3 different exhibition rooms with presentations
a lunch break for 45 minutes
a coffee break for 30 minutes.

Lunch and coffee will be served in the restaurant.

Kay wants people to spend an equal amount of time in each exhibition room.
She thinks this means people will spend at least 1 hour 20 minutes in each exhibition room.

(a) Is Kay correct?
Show why you think this. **(4)**

Kay wants to record the ratings from the survey.
She starts to fill in the tally chart below.

rating	tally	number of people
poor		
ok	𝍸	4
good	𝍷	
excellent	𝍸	

Kay still needs to put these ratings into the tally chart and complete the last column of the table.

poor	good	good	excellent	poor
excellent	excellent	good	good	excellent

(b) Complete the tally chart fully for Kay.

SECTION C: Snooker

Answer all questions in this section.

Write your answers in the spaces provided.

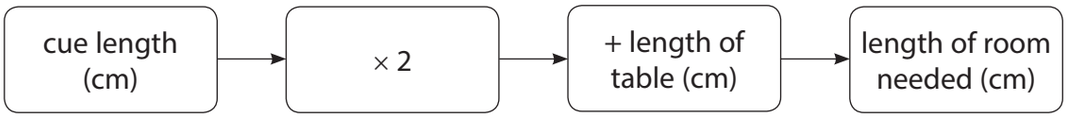

6 Talvin wants to put a snooker table in a room in his house.

The length of

- the snooker table is 270 cm
- the room is 5.5 m
- the cue Talvin uses to play snooker is 145 cm.

Talvin uses this rule to find out if the length of the room is enough to play snooker on this table.

(a) Is the length of this room enough to play snooker on this table?

(4)

Use the box below to show clearly how you get your answer.

7 Talvin is having a snooker competition with his friends.
There are 5 people in the competition

Paul, Ravi, Sam, Talvin and Violet.

Every person must play one game with each of the other people.

There is only one snooker table.
No one can play more than two games in a row.

Talvin plans who plays who in each game in the competition.
Paul and Ravi will play game one.

(a) Plan who plays who in the rest of the games in the competition.

(3)

Use the box below to show your answer clearly.
