Task 1

Information

You read this letter in your local newspaper.

Letter of the week

We are told that playing computer and mobile phone games is anti-social and can cause violent behaviour, but is this actually the case?

Recent research suggests gaming develops problem-solving abilities and creative thinking. Gamers can also develop their team-working skills and there is evidence that playing games improves reading and maths. It's time to bin our outdated views and recognise that gaming is good for us!
