NCFE Level 1 Functional Skills Qualification in Mathematics (603/5055/6)

Paper number:	P001253
Section A:	Non-calculator Test

Assessment window: Monday 14 October 2019 – Friday 18 October 2019
Time allowed: 30 minutes

Learner instructions

- Answer **all** questions.
- Read each question carefully.
- Write your answers in the spaces provided.
- Show your working, as marks may be awarded for working.
- State units in your answers, where appropriate.
- Check your work.

Learner information

- Section A contains **Activity 1** only.
- The maximum mark for this section is **15**.
- The marks available for **each** question are shown in brackets.

To be completed by the examiner		Mark
A	Activity 1	/ 15
B	Activity 2	/ 15
	Activity 3	/ 15
	Activity 4	/ 15
TOTAL MARK		/ 60

Resources

You will need a:

- pen, with black or blue ink
- pencil and eraser
- 30 cm ruler
- protractor.

If extra pages are used, please make sure your name and centre name are on them and they are securely fastened to this booklet.

Please complete the details below clearly and in BLOCK CAPITALS.

Learner name MASTER FUNCTIONAL SKILLS

Centre name MASTER FUNCTIONAL SKILLS (MFS01)

Learner number MFS-NCFE-2026 Centre number MFS01

MASTER FUNCTIONAL SKILLS

ONLINE LEARNING PLATFORM & ACCREDITED COURSES

Pearson Edexcel & Open Awards Accredited Suite · Entry 3, Level 1 & Level 2

Pass Your Functional Skills Exams With Confidence

100% Pass Guarantee | Dyslexia-Friendly Learning | 1-to-1 Expert Tutor Support

Master Functional Skills provides an adaptive, dyslexia-friendly online learning platform tailored for adult learners, apprentices, and healthcare & vocational staff. Everything you need to revise, practice, and pass is at your fingertips.

1. Smart Diagnostic Initial Assessment

Calculate your exact working level and pinpoint knowledge gaps instantly

- **Exact Grade Calculation:** Adaptive assessments calculate your exact level across all topics.
- **Personalised Study Pathway:** Skip what you know; focus 100% on the topics needed to pass.
- **Real-Time Exam Readiness:** Predictive tracker confirms when you are 100% ready to book.

2. Comprehensive Video Lessons & Worked Solutions

Bite-sized visual explainers covering every single Maths & English curriculum standard

- **Step-by-Step Video Lessons:** Master percentages, algebra, perimeter, ratio, and reverse fractions.
- **Multi-Ink Handwriting Models:** Visual 3-colour methods showing working, carries, and examiner tips.
- **Tutor Shortcuts & Golden Rules:** Proven non-calculator mental arithmetic hacks and BIDMAS tricks.

3. Full Mock Exams & Real-Time Performance Analytics

Practice in exam conditions and watch your scores and confidence climb

- **Authentic Exam Papers:** Timed Section A & Section B papers formatted exactly like Pearson Edexcel.
- **Instant Topic Breakdown:** View percentage scores across Number, Measure/Shape, and Data.
- **Historical Score Tracking:** Monitor past attempts to ensure continuous improvement before exam day.

Activity 1: Climbing mountains

1 (a) Don spends his holidays climbing mountains.

The twenty highest mountains in the UK are all in Scotland.

Don began climbing these mountains in 2011.

He climbed 4 of these mountains each year.

In which year did he finish climbing the twenty highest mountains?

[2 marks]

$20 \div 4 = 5$

2011 2012 2013 2014 (2015)

Your answer: 2015

Please turn over

Examiner use only

Pas

1 (b) Don lives in London.

He wants to travel to Fort William in Scotland.

Don finds this information about travel times.

Travel times between London and Fort William

 Night bus	14 hours 11 minutes
 Drive	8 hours 42 minutes
 Fly	6 hours 31 minutes

How much longer does it take to travel by the night bus than to fly?

[1 mark]

Your answer: 7 h 40 m

1 (c) The cost of a return train ticket from London to Fort William is £176

Don sees an offer which gives him a 15% discount.

How much money will Don save if he has the discount?

[2 marks]

£176 × 0.15 = £26.40

Your answer: £ 26.40

Past paper

Examiner use only

Pas

1 (d) Don is going to climb a mountain called Ben Nevis.

To estimate how long this will take he uses this rule:

- 12 minutes for every 1 kilometre (km) of distance forward plus
- 10 minutes for every 100 metres (m) of height gained.

The height of Ben Nevis is 1345 m

The distance forward is 17 km

Estimate how long it will take Don to climb Ben Nevis.

Give your answer to the nearest hour.

[5 marks]

$17 \times 12 = 204$ mins

$1345 \div 100 = 13.45$

$13.45 \times 10 = 134.5$ mins

$204 + 134.5 = 338.5$ mins

$= 5\text{h } 38\text{m } 30\text{s}$

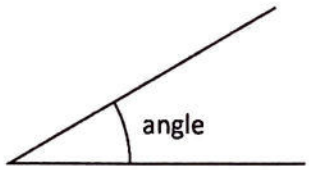

6 hours to nearest hour.

Your answer: 6 **hours**

iner use only

1 (e) The time taken to come down a mountain depends on the angle of the slope.

Estimate the angle of this slope and tick the correct statement.

[1 mark]

- ☐ The angle is less than 5°
- ☐ The angle is between 5° and 12°
- ☑ The angle is more than 12° but less than 90°
- ☐ The angle is more than 90°

1 (f) When Don arrives in Fort William

- the temperature at the bottom of Ben Nevis is 3 °C
- the temperature at the top of Ben Nevis is –6 °C

Calculate the difference in temperature between the top and bottom of Ben Nevis.

[2 marks]

$3 - -6 = 9$

Your answer: 9 **degrees**

Examiner use only

1 (g) The weather forecast says that, at the top of Ben Nevis at 2pm there is

- a 20% chance of snow
- a $\frac{3}{10}$ chance of rain.

Is it more likely to snow or rain?

Show your working.

[2 marks]

$\frac{3}{10} = 30\% > 20\%$

More likely to rain

Your answer: rain

[Total marks: 15]

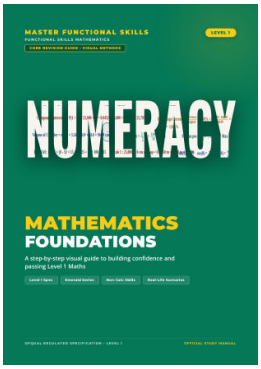

This is the end of Section A.
