OFFICIAL MFS MODEL SOLUTION

60 / 60 Marks (100% Pass)

- Practice Assessment: Set 1 Practice (FSM107P)
- Complete step-by-step worked models
- Mark scheme allocations [M1 / A1 / B1]
- Exam Board: Open Awards (Ofqual Regulated)

Verified by Tutor Abdul · MasterFunctionalSkills.co.uk

MASTER FUNCTIONAL SKILLS

ONLINE LEARNING PLATFORM & ACCREDITED COURSES

Pearson Edexcel & Open Awards Accredited Suite · Entry 3, Level 1 & Level 2

Pass Your Functional Skills Exams With Confidence

100% Pass Guarantee | Dyslexia-Friendly Learning | 1-to-1 Expert Tutor Support

Master Functional Skills provides an adaptive, dyslexia-friendly online learning platform tailored for adult learners, apprentices, and NHS healthcare staff. Everything you need to revise, practice, and pass is at your fingertips.

1. Smart Diagnostic Initial Assessment

Calculate your exact working level and pinpoint knowledge gaps instantly

- **Exact Grade Calculation:** Adaptive assessments calculate your exact level across all topics.
- **Personalised Study Pathway:** Skip what you know; focus 100% on the topics needed to pass.
- **Real-Time Exam Readiness:** Predictive tracker confirms when you are 100% ready to book.

2. Comprehensive Video Lessons & Worked Solutions

Bite-sized visual explainers covering every single Maths & English curriculum standard

- **Step-by-Step Video Lessons:** Master percentages, algebra, perimeter, ratio, and reverse fractions.
- **Multi-Ink Handwriting Models:** Visual 3-colour methods showing working, carries, and examiner tips.
- **Tutor Shortcuts & Golden Rules:** Proven non-calculator mental arithmetic hacks and BIDMAS tricks.

3. Full Mock Exams & Real-Time Performance Analytics

Practice in exam conditions and watch your scores and confidence climb

- **Authentic Exam Papers:** Timed Section A & Section B papers formatted exactly like Pearson Edexcel.
- **Instant Topic Breakdown:** View percentage scores across Number, Measure/Shape, and Data.
- **Historical Score Tracking:** Monitor past attempts to ensure continuous improvement before exam day.

Ready to Master Your Functional Skills & Pass First Time?

Join thousands of healthcare staff, apprentices, and adult learners across the UK.

Instant 24/7 access on desktop, tablet, and mobile with no software to install.

LEVEL 1 FUNCTIONAL SKILLS QUALIFICATION IN MATHEMATICS

SECTION A - QUESTION AND ANSWER PAPER
NON-CALCULATOR – 30 MINUTES
PRACTICE ASSESSMENT 1 (FSM107P)

Do not open this paper until you are told to do so by the invigilator.

Overall assessment marks available: **60**
Overall assessment time limit: **2 HOURS**

There are **TWO** Sections to this assessment:

- **Section A** includes Task 1. You **must not** use a calculator for this section.

  Total marks available: 15. Time limit: 30 minutes
- **Section B** includes Task 2, 3 and 4. You can use a non-scientific calculator for this section

  Total marks available: 45. Time limit: 1 hour and 30 minutes

For Section A you need:

- This question and answer paper
- A pen with black or blue ink
- A pencil
- A ruler and a protractor

INTERNET ACCESS IS NOT PERMITTED AND YOU MUST NOT USE A CALCULATOR

The invigilator will stop the assessment after 30 minutes. You must hand in this question and answer paper at this point.

The invigilator will then hand out **Section B** and a non-scientific calculator. You will then have a further 1 hour and 30 minutes to complete **Section B**.

Instructions

1. Please sign and date below to confirm that your details are correct and that you have understood the instructions.
2. Read each task and question carefully.
3. Remember to show all your workings out clearly.
4. The number of marks available for each question is shown in brackets. Use these marks to guide you on how long to spend on each question.
5. Answer **all** questions using the space provided on this question and answer paper.
6. If you have time, check your work for **Section A** at the end. Once you have handed in this question and answer paper, you will not be able to check this again.
7. If you use extra paper, write your name, learner number and the question number you are answering on it and securely attach it to this question and answer paper.

Learner name:

Today's date:	

Page left intentionally blank

For Markers Use Only

Section A

Question 1

Which calculation would result in the same answer as 20 x 0.5? (1 mark)

40 ÷ 2 | 40 x 2 | 20 x 2 | 20 ÷ 2

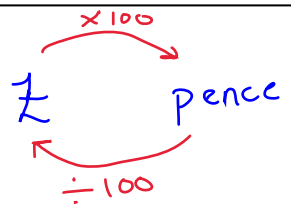

Write your answer in this box:

20 ÷ 2

Question 2

What is 1340 pence written in pounds and pence? (1 mark)

Show your calculations and/or workings out here:

1340 ÷ 100 = £13.40

Write your answer in this box:

£13.40

Question 3

Put the following numbers in order of size: (1 mark)

322419 332491 232149 322491

Write your answer in this box:

232149, 322419, 322491, 332491

Question 4

Calculate 256.4 ÷ 1000 (1 mark)

Show your calculations and/or workings out here:

256.4 ÷ 1000 = 0.2564

Write your answer in this box:

0.2564

Question 5

Which **two** of the following are equivalent to 20%? (2 marks)

$\frac{2}{5}$ 0.02 $\frac{1}{5}$ $\frac{4}{5}$ 0.8 0.2

40% 2% 20% 80% 80% 20%

Show your calculations and/or workings out here:

$\frac{2}{5}$ $5\overline{)2.00}$ $\frac{0.4}{}$ $0.4 \times 100 = 40\%$

0.02 $0.02 \times 100 = 2\%$

$\frac{1}{5}$ $5\overline{)1.0}$ $\frac{0.2}{}$ $0.2 \times 100 = 20\%$

$\frac{4}{5}$ $5\overline{)4.0}$ $\frac{0.8}{}$ $0.8 \times 100 = 80\%$

0.8 $0.8 \times 100 = 80\%$

0.2 $0.2 \times 100 = 20\%$

Write your answers in this box:

$\frac{1}{5}$ and 0.2

For Markers Use Only

Question 6

Omar wants to buy a tablecloth and some napkins.

Tablecloth	£14.99
Napkins	£6.99

He pays with £30.00.

How much change will he receive? Give your answer to the nearest pound.

(2 marks)

Show your calculations and/or workings out here:

$$\begin{array}{r} 14.99 \\ +\ 6.99 \\ \hline 21.98 \end{array} \qquad \begin{array}{r} {}^{2}\cancel{3}{}^{1}\cancel{0}{}^{9}.{}^{1}\cancel{0}{}^{9}0 \\ -\ 21.98 \\ \hline 08.02 \end{array}$$

← £8 to nearest pound

Write your answer in this box:

£8

Question 7

Omar is making cheesecakes. He has this recipe:

1 Cheesecake (serves 4)

240g digestive biscuits
100g butter
600g soft cheese
100g icing sugar
284ml double cream

Omar has 750g of digestive biscuits and enough of all the other ingredients. He thinks he has enough digestive biscuits to make 16 servings.

Is Omar correct? Give a reason for your answer. (4 marks)

Show your calculations and/or workings out here:

4 servings = 240g biscuits (×4)
16 servings = 960g biscuits

240 × 4 = 960

Write your answer and reason in this box:

No – he needs 960g biscuits for 16 servings, and he only has 750g

Question 8

The table below shows the number of visitors to a museum each day in one week.

Mon	Tue	Wed	Thur	Fri	Sat	Sun
32	?	46	48	55	72	61

The mean number of people per day is 50.
How many people visited on Tuesday? (3 marks)

Show your calculations and/or workings out here:

$$\frac{32 + ? + 46 + 48 + 55 + 72 + 61}{7} = 50$$

32
46
48
55
72
61
314
2

$$\frac{314 + ?}{7} = 50$$

$$314 + ? = 50 \times 7$$

$$314 + ? = 350$$

$$? = 36$$

Write your answer in this box:

36

[End of Section A]

Page left intentionally blank

LEVEL 1 FUNCTIONAL SKILLS QUALIFICATION IN MATHEMATICS

SECTION B - QUESTION AND ANSWER PAPER CALCULATOR – 1 HOUR 30 MINUTES PRACTICE ASSESSMENT 1 (FSM107P)

Do not open this paper until you are told to do so by the invigilator.

Overall assessment marks available: **60**
Overall assessment time limit: **2 HOURS**

There are **TWO** Sections to this assessment:

- **Section A** – please ensure you have handed in Section A before beginning Section B
- **Section B** includes Task 2, 3 and 4. You can use a non-scientific calculator for this section.

Total marks available: 45. Time limit: 1 hour and 30 minutes.

For Section B you need:

- This question and answer paper
- A pen with black or blue ink
- A pencil
- A ruler and a protractor
- A non-scientific calculator

INTERNET ACCESS IS NOT PERMITTED

You now have a further 1 hour and 30 minutes to complete **Section B**.

Instructions

1. Please sign and date below to confirm that your details are correct and that you have understood the instructions.
2. Read each task and question carefully.
3. Remember to show all your workings out clearly.
4. The number of marks available for each question is shown in brackets. Use these marks to guide you on how long to spend on each question.
5. Answer **all** questions using the space provided on this question and answer paper.
6. If you have time, check your work for **Section B** at the end.
7. If you use extra paper, write your name, learner number and the question number you are answering on it, and securely attach it to this question and answer paper.
8. At the end of this section (**Section B**), hand in this question and answer paper and all notes to the invigilator.

Learner name:	
Learner number:	
Centre number:	
Signature:	
Today's date:	

Page left intentionally blank

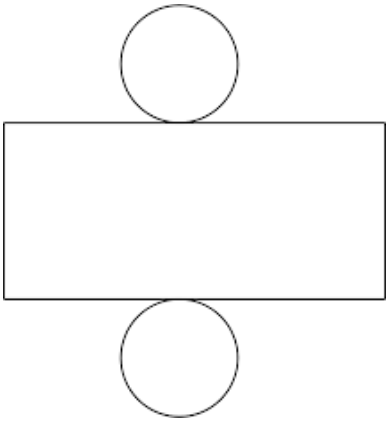

For Markers Use Only

Section B

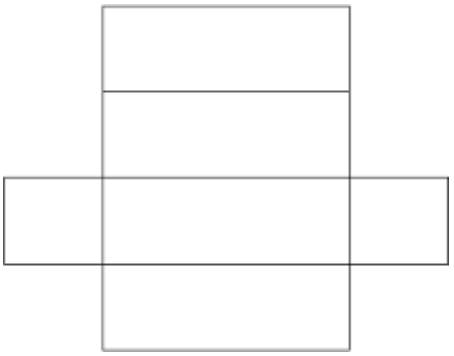

Question 9

Which of the following nets makes a cylinder? (1 mark)

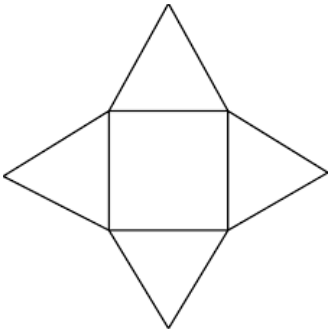

A

B

C

D

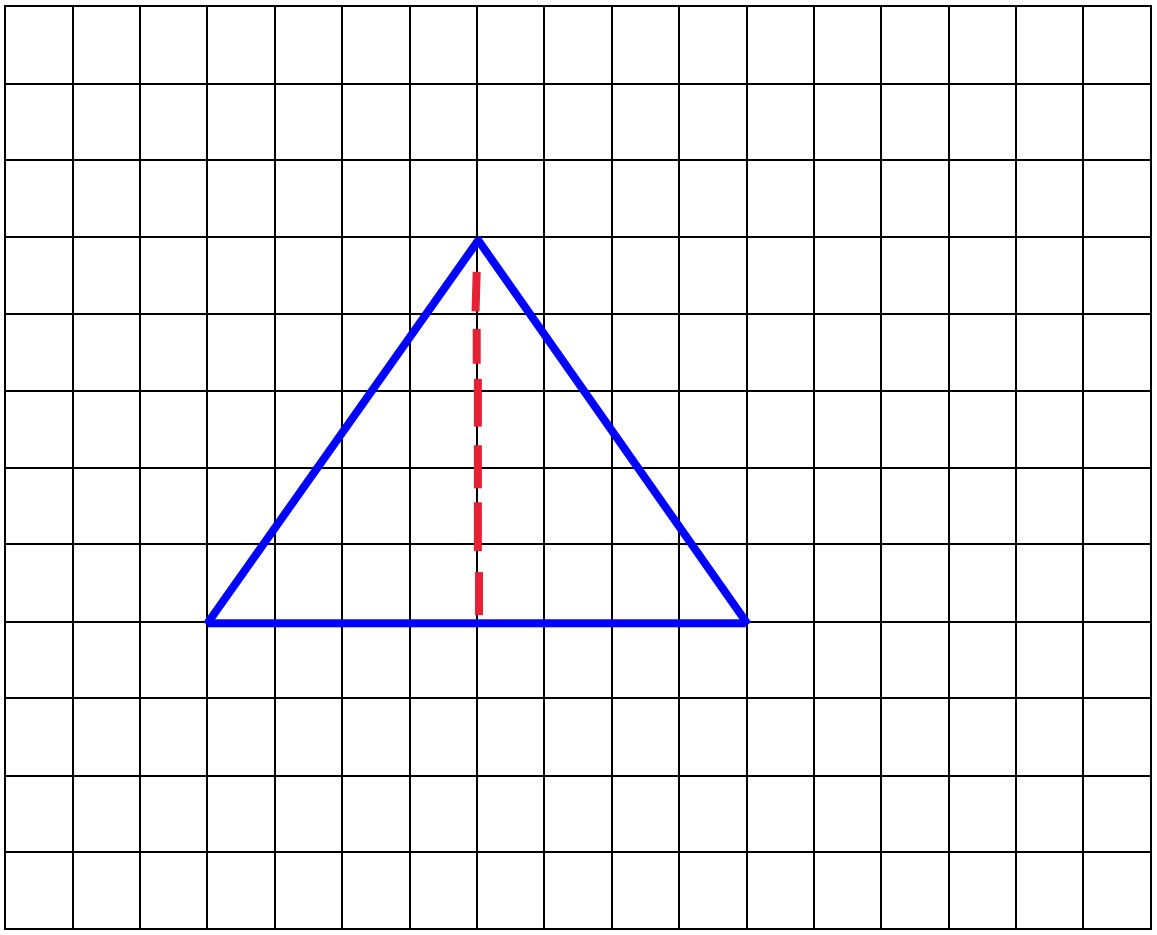

Write your answer in this box:

A

Question 10

Draw a triangle with at least one line of symmetry. Show the line of symmetry on your triangle. (2 marks)

Question 11

Anna works at an animal rescue centre. There were 6160 animals rescued last year.

- ¼ of these were cats
- 20% of these were dogs
- The rest were other animals.

How many other animals were rescued last year? (3 marks)

Show your calculations and/or workings out here:

Cats : $\frac{1}{4}$ of 6160 = 6160 ÷ 4
= 1540

Dogs : 20% of 6160 = 0.2 × 6160
= 1232

Other : 6160 − 1540 − 1232 = 3388

Write your answer in this box:

3388

Question 12

Last year the animal rescue centre rescued 2520 dogs and cats in the ratio of 3:2. ← 2+3 = 5 parts

This year the number of dogs rescued has increased by 15%.

How many dogs have been rescued this year? (5 marks)

Show your calculations and/or workings out here:

5 parts = 2520
1 part = 504
3 parts = 1512 ← so 1512 dogs last year
2 parts = 1008

1512 increased by 15% is 1512 × 1·15 = 1738·8
1739 (nearest whole dog)

Write your answer in this box:

1739

Question 13

Anna needs to put some rabbits in the rabbit run for exercise.

Each rabbit needs 2.5m^2 of space in the rabbit run.

The diagram below shows a plan of the rabbit run.

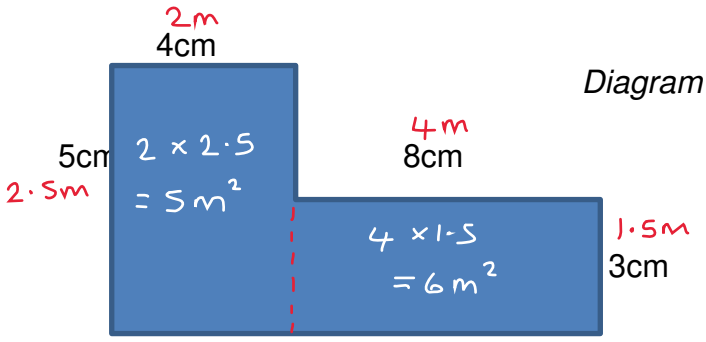

Diagram not drawn accurately

Scale: 2cm on the plan represents 1m on the rabbit run.

What is the maximum number of rabbits that can be put into the rabbit run?

(4 marks)

Show your calculations and/or workings out here:

÷2
2cm → 1m

find lengths in m: 4 ÷ 2 = 2m
5 ÷ 2 = 2·5m
8 ÷ 2 = 4m
3 ÷ 2 = 1·5m

area of pen = 5+6
= 11m²

number of rabbits = 11 ÷ 2·5
= 4·4

So can only fit 4 rabbits

Write your answer in this box:

4

For Markers Use Only

Question 14

Put the following fractions in order of size: (1 mark)

$\frac{1}{2}$ $\frac{1}{4}$ $\frac{3}{4}$ $\frac{7}{12}$

$1 \div 2 = 0.5$ $1 \div 4 = 0.25$ $3 \div 4 = 0.75$ $7 \div 12 = 0.583...$

Show your calculations and/or workings out here:

Write your answer in this box:

$\frac{1}{4}$ $\frac{1}{2}$ $\frac{7}{12}$ $\frac{3}{4}$

For Markers Use Only

Question 15

Calculate 23^2 (1 mark)

Show your calculations and/or workings out here:

$23 \times 23 = 529$

Write your answer in this box:

529

For Markers Use Only

Question 16

There are two blue sweets and seven red sweets in a bag.

What is the probability of picking out a blue sweet at random? Express your answer as a fraction.

(1 mark)

Show your calculations and/or workings out here:

$2 + 7 = 9$ sweets total

So $\frac{2}{9}$ are blue

Write your answer in this box:

$\frac{2}{9}$

Question 17

Leah works as a nurse on a children's ward.

The table below shows the weight of each child on the ward.

Children	Weight
Child A	16.06kg
Child B	16.5kg
Child C	16.51kg heaviest
Child D	16.451kg

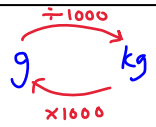

Leah calculates the daily amount of medicine to give a child using this formula:

Amount of medicine in millilitres = Weight of child in grams ÷ 454 x 0.75

How much medicine will she give to the **heaviest** child on the ward? Give your answer to one decimal place.

(4 marks)

Show your calculations and/or workings out here:

16·51 × 1000 = 16510 g

medicine = 16510 ÷ 454 × 0·75

= 27·274... ml

Write your answer in this box:

27·3 ml

For Markers Use Only

Question 18

The following table shows the number of visitors to the children's ward each day for one week.

Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
23	19	26	19	23	15	8

Anna thinks the range of visitors is 18. Is she correct? (2 marks)

Show your calculations and/or workings out here:

Range = 26 − 8
= 18

Write your answer in this box:

Yes

For Markers Use Only

Question 19

The table below shows the time in minutes that 30 patients waited to be seen by a doctor.

5	10	32	45	20	24	17	11	39	9
15	28	36	40	22	7	28	39	27	10
4	45	38	27	35	26	13	8	22	11

Create a suitable frequency table below to show the data. (3 marks)

time (mins)	frequency
0 – 10	7
11 – 20	5
21 – 30	8
31 – 40	7
41 – 50	3

Show your calculations and/or workings out here:

Question 20

Callum is a porter at the hospital. He puts the following 3 items into a box ready to carry them to another room.

Item 1	5.25kg
Item 2	4.02kg
Item 3	3.08kg

The box cannot contain items weighing more than 15kg in total.

Callum wants to add another item weighing 2.68 kg.

Can he put the extra item in the box without it weighing over 15kg?
Give a reason for your answer. (3 marks)

Show your calculations and/or workings out here:

5·25
4·02
+ 3·08
2·68
15·03 ← over 15 kg
1 2

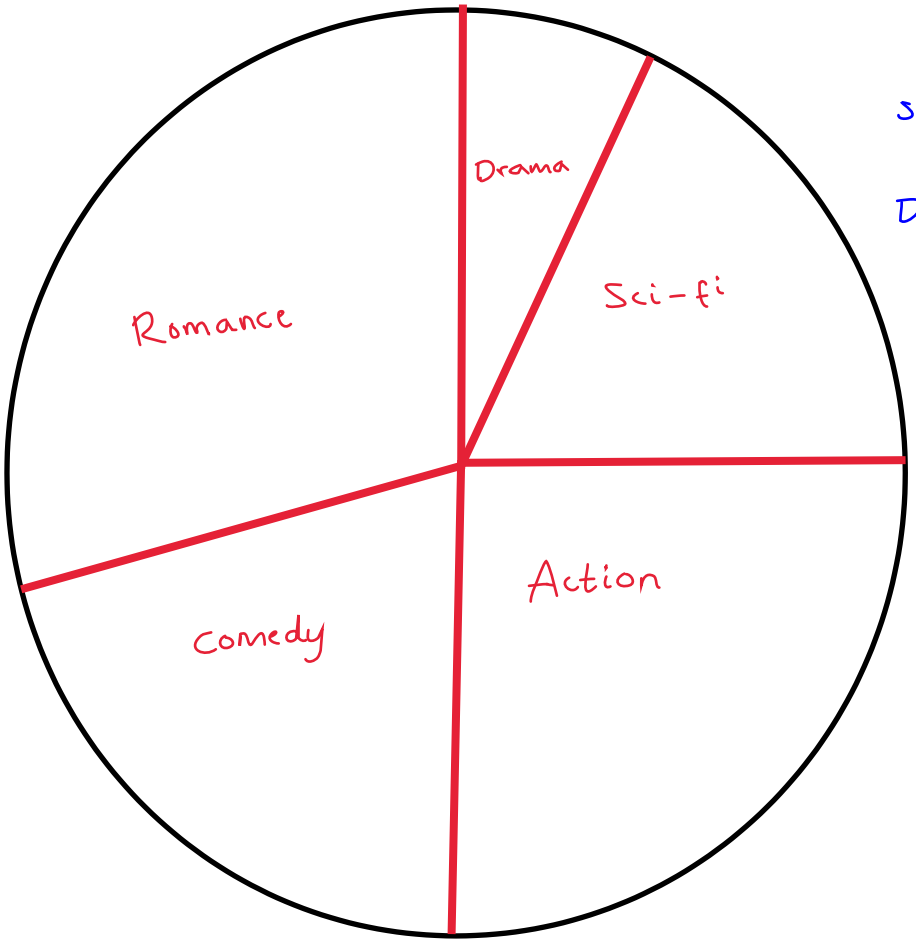

Write your answer and reason in this box:

No, total weight is 15·03 kg, so over limit

Question 21

Favourite Types of Film for 100 People					
Type of Film	Sci Fi	Drama	Romance	Comedy	Action
Number of people	20	5	30	20	25

Draw a pie chart to represent this data. (3 marks)

Sci-fi: $\frac{20}{100} \times 360 = 72^\circ$

Drama: $\frac{5}{100} \times 360 = 18^\circ$

Romance: $\frac{30}{100} \times 360 = 108^\circ$

Comedy: $\frac{20}{100} \times 360 = 72^\circ$

Action: $\frac{25}{100} \times 360 = 90^\circ$

For Markers Use Only

Question 22

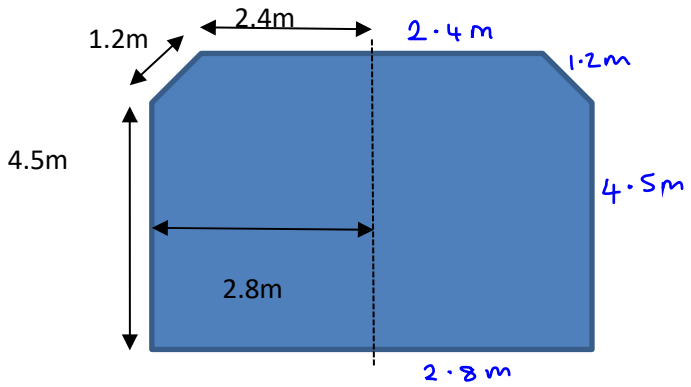

Ali works as a maintenance man. He wants to put fence panels around a children's play area.

The fence panels are 1.5 metres wide. He will need to leave a gap of at least 200cm for a gate.

2m

The outdoor space has one line of symmetry shown by a dotted line on the diagram below.

Diagram not to sale

How many whole fence panels does Ali need to buy? (4 marks)

Show your calculations and/or workings out here:

perimeter = 4·5 + 1·2 + 2·4 + 2·4 + 1·2 + 4·5 + 2·8 + 2·8
= 21·8m

need gap of 2m so need 19·8m of fencing

each panel 1·5m, so need 19·8 ÷ 1·5 = 13·2 panels
so 13 whole panels

Write your answer in this box:

13

Question 23

Samantha works for a delivery company. She needs to make a delivery of 255 boxes.

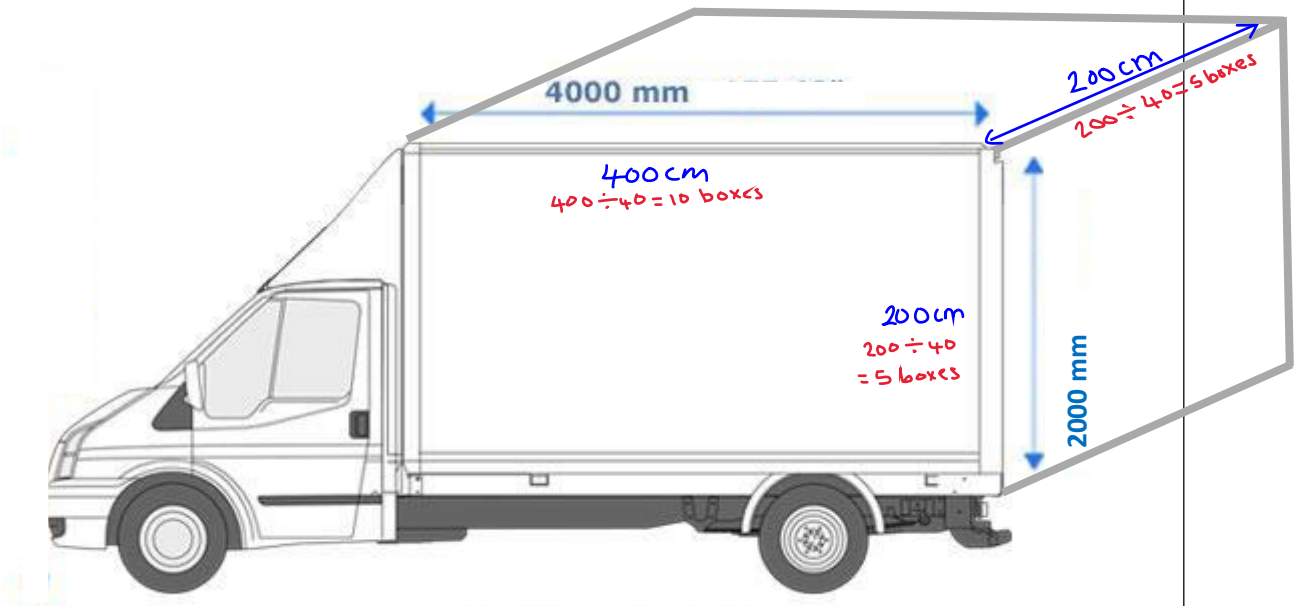

200cm

Her van has a width of 2m.

The boxes that she needs to transport are cubes with lengths of 40cm.

Is Samantha's van large enough to hold the 255 boxes? Give a reason for your answer.

(4 marks)

For Markers Use Only

Show your calculations and/or workings out here:

height: 200 ÷ 40 = 5 boxes
width: 400 ÷ 40 = 10 boxes
depth: 200 ÷ 40 = 5 boxes
So can fit 5 × 10 × 5 = 250 boxes

Write your answer and reason in this box:

No - can only fit 250 boxes in the van

Question 24

Samantha has a delivery round each day. The time taken for each delivery in Samantha's round is shown below.

Delivery 1	75 minutes
Delivery 2	84 minutes
Delivery 3	23 minutes
Delivery 4	53 minutes

Samantha finds a different route which will reduce the time taken to make all her deliveries by $\frac{2}{5}$

How long will it take Samantha to complete all her deliveries using the new route?
Give your answer in hours and minutes. (4 marks)

Show your calculations and/or workings out here:

total time = 75 + 84 + 23 + 53
= 235 mins

$\frac{2}{5}$ of 235 = 94 mins

so reduced time is 235 − 94 = 141 mins
= 2 hrs 21 mins

60 mins = 1 hour
120 mins = 2 hours
180 mins = 3 hours

Write your answer in hours and minutes in this box:

2 hours 21 minutes

[End of assessment]
