NCFE Level 1 Functional Skills Qualification in Mathematics (603/5055/6)

Paper number:	P001254
Section B:	Calculator Test

OFFICIAL MFS MODEL SOLUTION
Full Marks · 100% Pass
Signed: Master Functional Skills
Date: 20/10/2026 · Tutor Abdul

Assessment window: Monday 9 Decem
Time allowed: 1 hour 30 minute

Learner instructions

- Answer **all** questions.
- Read each question carefully.
- Write your answers in the spaces provided.
- Show your working, as marks may be awarded for working.
- State units in your answers, where appropriate.
- Check your work.

Learner information

- Section B contains **Activities 2, 3** and **4**.
- The maximum mark for this section is **45**.
- The marks available for **each** question are shown in brackets.

Resources

You will need a:

- pen, with black or blue ink
- pencil and eraser
- 30 cm ruler
- protractor
- calculator.

If extra pages are used, please make sure your name and centre name are on them and they are securely fastened to this booklet.

Please complete the details below clearly and in BLOCK CAPITALS.

Learner name MASTER FUNCTIONAL SKILLS

Centre name MASTER FUNCTIONAL SKILLS (MFS01)

Learner number MFS-NCFE-2026

Centre number MFS01

Do not turn over until the invigilator tells you to do so.

MASTER FUNCTIONAL SKILLS

ONLINE LEARNING PLATFORM & ACCREDITED COURSES

Pearson Edexcel & Open Awards Accredited Suite · Entry 3, Level 1 & Level 2

Pass Your Functional Skills Exams With Confidence

100% Pass Guarantee | Dyslexia-Friendly Learning | 1-to-1 Expert Tutor Support

Master Functional Skills provides an adaptive, dyslexia-friendly online learning platform tailored for adult learners, apprentices, and healthcare & vocational staff. Everything you need to revise, practice, and pass is at your fingertips.

1. Smart Diagnostic Initial Assessment

Calculate your exact working level and pinpoint knowledge gaps instantly

- **Exact Grade Calculation:** Adaptive assessments calculate your exact level across all topics.
- **Personalised Study Pathway:** Skip what you know; focus 100% on the topics needed to pass.
- **Real-Time Exam Readiness:** Predictive tracker confirms when you are 100% ready to book.

2. Comprehensive Video Lessons & Worked Solutions

Bite-sized visual explainers covering every single Maths & English curriculum standard

- **Step-by-Step Video Lessons:** Master percentages, algebra, perimeter, ratio, and reverse fractions.
- **Multi-Ink Handwriting Models:** Visual 3-colour methods showing working, carries, and examiner tips.
- **Tutor Shortcuts & Golden Rules:** Proven non-calculator mental arithmetic hacks and BIDMAS tricks.

3. Full Mock Exams & Real-Time Performance Analytics

Practice in exam conditions and watch your scores and confidence climb

- **Authentic Exam Papers:** Timed Section A & Section B papers formatted exactly like Pearson Edexcel.
- **Instant Topic Breakdown:** View percentage scores across Number, Measure/Shape, and Data.
- **Historical Score Tracking:** Monitor past attempts to ensure continuous improvement before exam day.

Activity 2: Healthy-eating café

2 (a) John is opening a healthy-eating café.

He looks for a property with a seating area for 20 customers.

This is a scale plan of the seating area in one property he finds.

The drawing has a scale of 1 centimetre (cm): 150 cm

The recommended maximum number of customers in a café is the seating area (m^2) divided by 1.5

Is this property suitable for 20 customers?
Show how you decide.

[5 marks]

$3 \times 150 = 450\text{cm} = 4.5\text{m}$

$4 \times 150 = 600\text{cm} = 6\text{m}$

$4.5 \times 6 = 27\text{m}^2$.

$27 \div 1.5 = 18 < 20$

No.

Your answer: No.

Please turn over

Past Paper

Examiner u

2 (b) Another property has a kitchen that has an area of 7 metres squared.

What is 7^2?

[1 mark]

$7^2 = 49$

Your answer: 49

2 (c) John wants his menu to offer healthy food.

He reads that six hundred and seventeen thousand people went to hospital last year with illnesses caused by a poor diet.

What is six hundred and seventeen thousand in numbers?

[1 mark]

Your answer: 617000

past paper

tiner use only

2 (d) John buys food in preparation for his opening day.

Ingredients	Price per item	Number of items	Total price per ingredient
Cabbage	64p	5	£0.64 × 5 = £3.20
Pack of carrots	30p	20	£0.30 × 20 = £6.00
Pack of tomatoes	£1.25	11	£1.25 × 11 = £13.75
Cucumbers	50p	9	£0.50 × 9 = £4.50
Pack of onions	£1.00	15	£1.00 × 15 = £15.00
		Total (£)	£42.45

Complete the table to show how much has John spent.

[2 marks]

past paper

Examiner use

2 (e) John fills a fruit bowl with 6 apples, 4 plums, 5 oranges and 3 pears.

The first customer chooses a piece of fruit at random.

What is the probability that they choose a pear?

[2 marks]

$6+4+5+3=18$

$\frac{3}{18} = \frac{1}{6}$

Your answer: $\frac{1}{6}$

2 (f) John looks at the bills from all the customers.

The range of amounts spent is £22.46

The largest bill was £24.56

What was the smallest bill?

[2 marks]

£24.56 − £22.46 = £2.10

Your answer: £ 2.10

pastpaper

iner use only

2 (g) John asks his customers to rate the café.

- The customers give four times as many **good** ratings as **excellent** ratings.
- The customers also give three times as many **excellent** ratings as **satisfactory** ratings.

60 customers rated the café as good.

How many customers rated the café as satisfactory?

[2 marks]

Good = 60
Excellent = 60 ÷ 4 = 15
Satisfactory = 15 ÷ 3 = 5

Your answer: 5 **customers**

[Total marks: 15]

Activity 3: Go-karting

3 (a) Hamid organises a go-karting party for himself and five friends.

The cost is £29.95 per person.

He uses rounding to estimate the cost for the whole group.

How much is the estimated cost?

[2 marks]

£29.95 ≃ £30

£30 × 6 = £180

Your answer: £ 180

3 (b) Hamid needs to book transport.

A small minibus will cost £45

He has a voucher for 5% off.

How much will the minibus cost Hamid?

[2 marks]

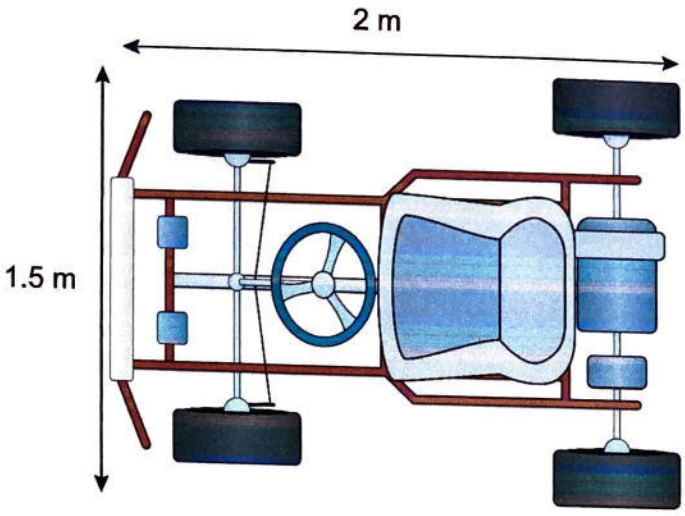

£45 × 0.95 = £42.75

Your answer: £ 42.75

Past Paper

miner use only

3 (c) The safety instructions show a plan view of the go-kart.

Hamid says that the go-kart is 1.5 m high, 2 m long and 0.6 m wide.

Is Hamid correct?

Explain your answer.

[1 mark]

No.
The go-kart is 1.5m wide.

Examiner us

3 (d) This table shows the times Hamid and two of his friends take to complete their first lap.

Person	Time in seconds
Hamid	39.041
Jane	39.3
Ikrah	39.12

Write these times in order of fastest to slowest.

[1 mark]

Fastest 39.041 39.12 39.3 **Slowest**

3 (e) Which person had the fastest lap?

[1 mark]

Your answer: Hamid

past paper

ner use only

3 (f) Hamid looks at the times on the leader board for that day.

The times are in seconds.

Leader board	
1st	26.52
2nd	27.5
3rd	28.9
4th	29.82
5th	30.18
6th	31.2
7th	31.4

Calculate the mean time.

[2 marks]

$$\frac{26.52 + 27.5 + 28.9 + 29.82 + 30.18 + 31.2 + 31.4}{7} =$$

29.36

Your answer: 29.36 **seconds**

Examiner u

3 (g) Here are people's lap times in seconds over the last week:

21 34 27 36 27 38 22 30 40 21

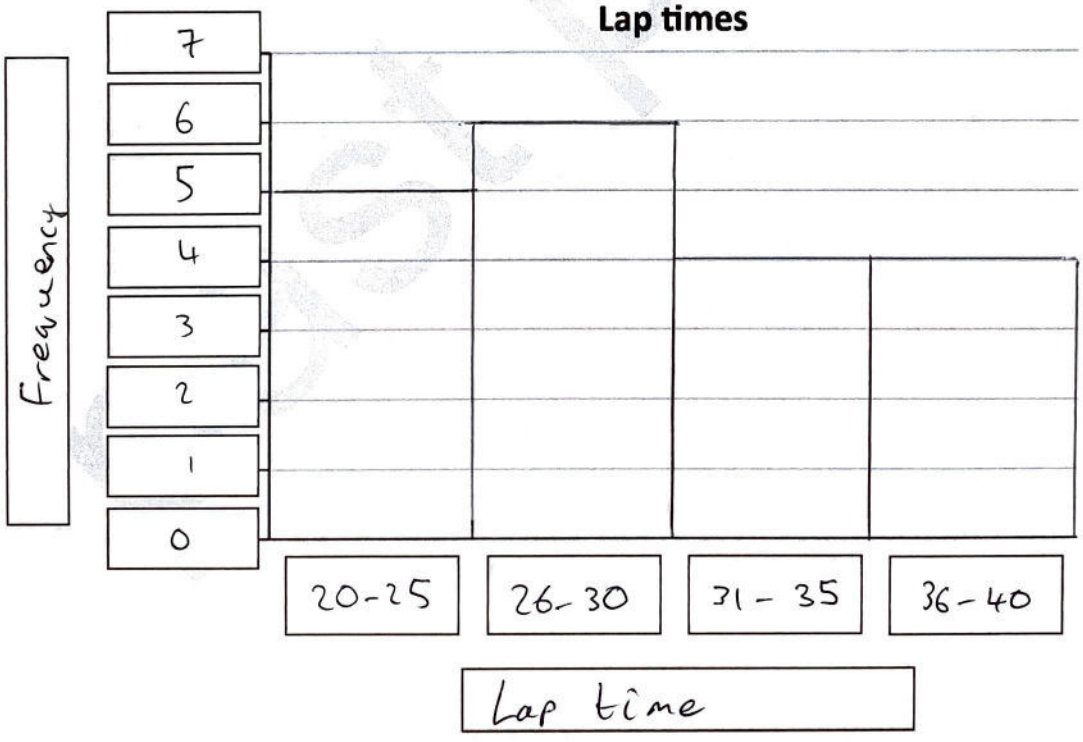

29 32 20 26 37 31 22 33 27

Using the lap times complete this frequency table:

Lap time in seconds	Frequency of people
20 – 25	5
26 – 30	6
31 – 35	4
36 – 40	4

Plot your results on this bar chart.

[4 marks]

iner use only

3 (h) The friends go to lunch after they have raced.

Bethany has a voucher giving her 35% off.

Ikrah has a voucher for $\frac{2}{5}$ off.

Who has the better discount?

Show how you decide.

[2 marks]

$\frac{2}{5} = 40\%$

$35\% < 40\%$

Your answer: Ikrah

[Total marks: 15]

Activity 4: Childcare course

4 (a) Natalie teaches a childcare course.

She is planning a trip with 16 students.

They have volunteered to work for two weeks abroad.

They need to raise £2000 per student to pay for the trip.

They have already raised $\frac{7}{8}$ of the money needed.

How much money have they raised so far?

[3 marks]

£2000 × 16 = £32000

£32000 × $\frac{7}{8}$ = £28000

Your answer: £ 28000

4 (b) They have one eighth left to raise.

Write one eighth in figures.

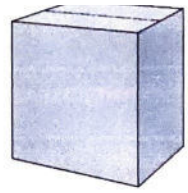

[1 mark]

Your answer: $\frac{1}{8}$

past paper

iner use only

4 (c) Natalie packs children's clothes into boxes.

Each box is a cube with side lengths of 50 cm

The clothes weigh 350 grams (g) per 500 cm^3

Calculate the weight of the clothes in each box when the box is full.

Give your answer in kg

[4 marks]

$50 \times 50 \times 50 = 125000 cm^3$

$125000 \div 500 = 250$

$250 \times 350 = 87500$ g

$87500 \div 1000 = 87.5$ kg

Your answer: 87.5 kg

past paper

Examiner us

4 (d) When the group get on the plane the pilot announces that the temperature is 10 °C at their destination.

It is –2 °C in the UK.

What is the difference in temperature from the UK to their destination?

[1 mark]

$10 - -2 = 10 + 2 = 12$

Your answer: 12 °C

past paper

iiner use only

4 (e) The volunteers are going to help children in a home.

The ratio of boys to girls in the home is 1 : 3

There are 80 children in total.

75% of the boys and 40% of the girls are under 10

How many boys and how many girls are under 10?

[4 marks]

1+3 = 4
80 ÷ 4 = 20
20 boys 3 × 20 = 60 girls

20 × 0.75
= 15 boys

60 × 0.4 =
24 girls

Your answer:

Boys:	15
Girls:	24

past paper

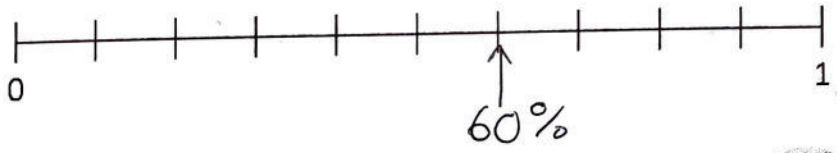

Examiner use

4 (f) Natalie knows that only 60% of the children can write their name.

She chooses one of the children at random to work with.

On the scale, mark the probability that this child can write their name.

[1 mark]

4 (g) Write 60% as a decimal.

[1 mark]

Your answer: 0.6

[Total marks: 15]

This is the end of the assessment.
