NCFE Level 2 Functional Skills Qualification in Mathematics (603/5060/X)

Paper number:	SAM
Section A:	Non-calculator Test

OFFICIAL MFS MODEL SOLUTION
Full Marks · 100% Pass
Signed: Master Functional Skills
Date: 20/10/2026 · Tutor Abdul

Time allowed: 30 minutes

Learner instructions

- Answer **all** questions.
- Read each question carefully.
- Write your answers in the spaces provided.
- Show your working, as marks may be awarded for working.
- State units in your answers, where appropriate.
- Check your work.

Learner information

- Section A contains **Activity 1** only.
- The maximum mark for this section is **15**.
- The marks available for **each** question are shown in brackets.

To be completed by the examiner		Mark
A	Activity 1	/ 15
B	Activity 2	/ 15
	Activity 3	/ 15
	Activity 4	/ 15
TOTAL MARK		/ 60

Resources

You will need a:

- pen, with black or blue ink
- pencil and eraser
- 30 cm ruler
- protractor.

If extra pages are used, please make sure your name and centre name are on them and they are securely fastened to this booklet.

Please complete the details below clearly and in BLOCK CAPITALS.

Learner name MASTER FUNCTIONAL SKILLS

Centre name MASTER FUNCTIONAL SKILLS (MFS01)

Learner number MFS-NCFE-2026 Centre number MFS01

Do not turn over until the invigilator tells you to do so.

MASTER FUNCTIONAL SKILLS

ONLINE LEARNING PLATFORM & ACCREDITED COURSES

Pearson Edexcel & Open Awards Accredited Suite · Entry 3, Level 1 & Level 2

Pass Your Functional Skills Exams With Confidence

100% Pass Guarantee | Dyslexia-Friendly Learning | 1-to-1 Expert Tutor Support

Master Functional Skills provides an adaptive, dyslexia-friendly online learning platform tailored for adult learners, apprentices, and healthcare & vocational staff. Everything you need to revise, practice, and pass is at your fingertips.

1. Smart Diagnostic Initial Assessment

Calculate your exact working level and pinpoint knowledge gaps instantly

- **Exact Grade Calculation:** Adaptive assessments calculate your exact level across all topics.
- **Personalised Study Pathway:** Skip what you know; focus 100% on the topics needed to pass.
- **Real-Time Exam Readiness:** Predictive tracker confirms when you are 100% ready to book.

2. Comprehensive Video Lessons & Worked Solutions

Bite-sized visual explainers covering every single Maths & English curriculum standard

- **Step-by-Step Video Lessons:** Master percentages, algebra, perimeter, ratio, and reverse fractions.
- **Multi-Ink Handwriting Models:** Visual 3-colour methods showing working, carries, and examiner tips.
- **Tutor Shortcuts & Golden Rules:** Proven non-calculator mental arithmetic hacks and BIDMAS tricks.

3. Full Mock Exams & Real-Time Performance Analytics

Practice in exam conditions and watch your scores and confidence climb

- **Authentic Exam Papers:** Timed Section A & Section B papers formatted exactly like Pearson Edexcel.
- **Instant Topic Breakdown:** View percentage scores across Number, Measure/Shape, and Data.
- **Historical Score Tracking:** Monitor past attempts to ensure continuous improvement before exam day.

Ready to Master Your Functional Skills & Pass First Time?

Activity 1: Flat share

1 (a) Alex, Jas and Stef are students. They are looking for a flat to share.

They see these adverts online:

3 bedroom flats in Upton:
£433 per month
£450 per month
£395 per month
£475 per month
£389 per month
£375 per month

3 bedroom flats in Downton:
£368 per month
£425 per month
£412 per month
£330 per month
£447 per month

What percentage of the flats in Downton cost over £420 per month?

[1 mark]

$\frac{2}{5} = 40\%$

Your answer: 40 %

1 (b) They want to know which location is the cheapest.

Use the median monthly rental prices to show which location is the cheapest.
Show your working.

[3 marks]

U: 375, 389, 395, 433, 450, 475 $\frac{395+433}{2} = £414$

D: 330, 368, 412, 425, 447 £412

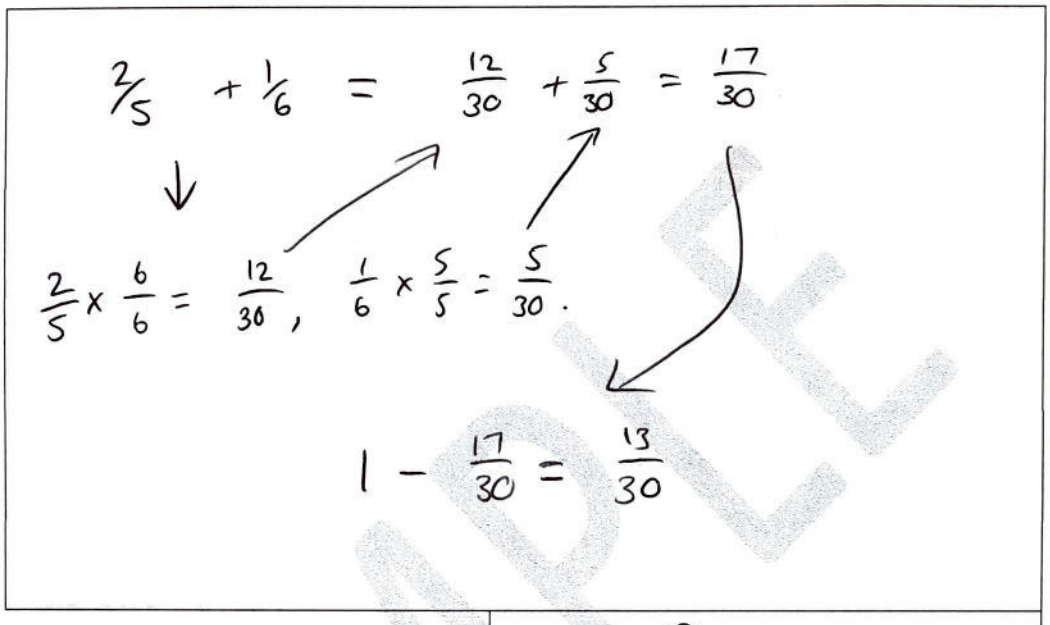

Your answer: Downton £412.

1 (c) Alex, Jas and Stef each get a student loan to help with living expenses.

They decide to allocate two fifths of their loans for food, and one-sixth for travel.

What fraction of their student loan will be left to spend?

[2 marks]

Your answer: $\frac{13}{30}$

SAMPLE

1 (d) The students work out that together they have £5400 each year to spend on rent.

They find a flat to rent that will cost £5200 per year.

If the rent **increases by 2%** next year, will it still be within their budget?
Show your working.

[2 marks]

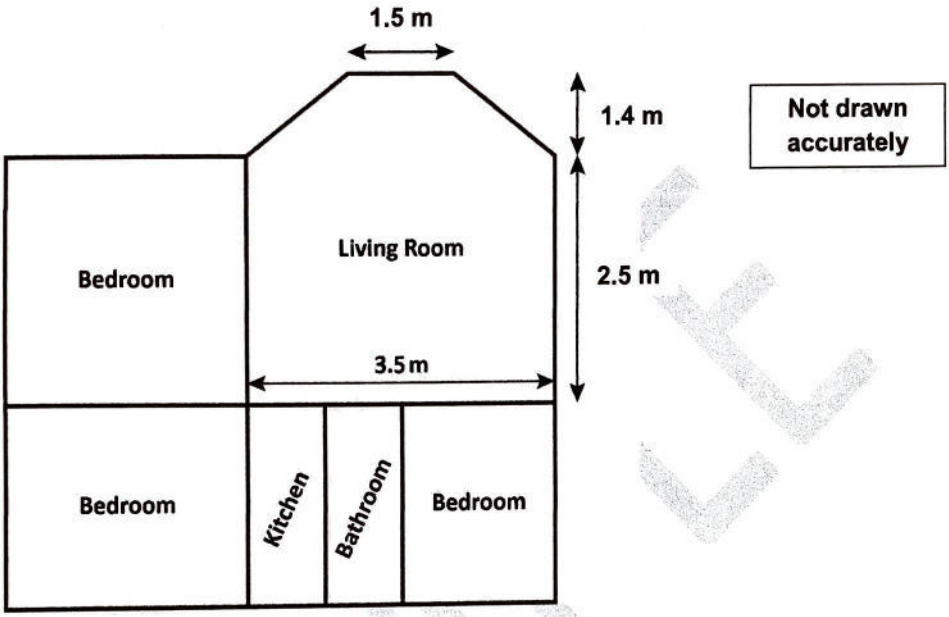

£5200 × 1.02 = £5304.

Your answer: Yes.

SAMPLE

1 (e) The plan shows a flat the students like.

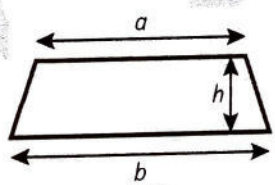

The living room has a trapezium-shaped bay window.

The landlord will replace the carpet in the living room with new flooring, as long as it costs £250 or less.

The new flooring costs £20 per m^2

The formula for finding the area of a trapezium is: $\frac{(a+b)}{2}h$

Will the landlord replace the carpet with the new flooring?
Explain your answer.

[4 marks]

$2.5 \times 3.5 = 8.75\,m^2$ (rectangle).

$\frac{1}{2}(1.5 + 3.5) \times 1.4 = 3.5m^2$ (bay window).

$8.75 + 3.5 = 12.25m^2$ total.

$12.25 \times £20 = £245$

Yes, they will replace the carpet.

SAMPLE

1 (f) Alex, Jas and Stef decide to rent a different 3 bedroomed flat.

They choose their bedrooms.

- Alex's bedroom has an area of 12 m^2
- Jas's bedroom has an area of 18 m^2
- Stef's bedroom has an area of 20 m^2

They decide to share the rent between them:

Option 1 – Share the rent **equally** between them
Option 2 – Share the rent **based on the area** of their bedrooms.

Which option will work out cheapest for Jas?
Show your working.

[3 marks]

$\frac{1}{3}$ (Option 1).

$\frac{18}{12+18+20} = \frac{18}{50} = 36\%$ (Option 2).

Option 1 is cheapest for Jas.

Your answer: **Option** 1.

[Total marks: 15]

This is the end of Section A.
