MASTER FUNCTIONAL SKILLS

ONLINE LEARNING PLATFORM & ACCREDITED COURSES

Pearson Edexcel & Open Awards Accredited Suite · Entry 3, Level 1 & Level 2

Pass Your Functional Skills Exams With Confidence

100% Pass Guarantee | Dyslexia-Friendly Learning | 1-to-1 Expert Tutor Support

Master Functional Skills provides an adaptive, dyslexia-friendly online learning platform tailored for adult learners, apprentices, and healthcare & vocational staff. Everything you need to revise, practice, and pass is at your fingertips.

1. Smart Diagnostic Initial Assessment

Calculate your exact working level and pinpoint knowledge gaps instantly

- **Exact Grade Calculation:** Adaptive assessments calculate your exact level across all topics.
- **Personalised Study Pathway:** Skip what you know; focus 100% on the topics needed to pass.
- **Real-Time Exam Readiness:** Predictive tracker confirms when you are 100% ready to book.

2. Comprehensive Video Lessons & Worked Solutions

Bite-sized visual explainers covering every single Maths & English curriculum standard

- **Step-by-Step Video Lessons:** Master percentages, algebra, perimeter, ratio, and reverse fractions.
- **Multi-Ink Handwriting Models:** Visual 3-colour methods showing working, carries, and examiner tips.
- **Tutor Shortcuts & Golden Rules:** Proven non-calculator mental arithmetic hacks and BIDMAS tricks.

3. Full Mock Exams & Real-Time Performance Analytics

Practice in exam conditions and watch your scores and confidence climb

- **Authentic Exam Papers:** Timed Section A & Section B papers formatted exactly like Pearson Edexcel.
- **Instant Topic Breakdown:** View percentage scores across Number, Measure/Shape, and Data.
- **Historical Score Tracking:** Monitor past attempts to ensure continuous improvement before exam day.

Ready to Master Your Functional Skills & Pass First Time?

FISH IN TANKS? NO THANKS!

Fragile tropical fish were born to dwell in the majestic seas and forage among brilliantly coloured coral reefs. They suffer miserably when they are forced to spend their lives in glass tanks.

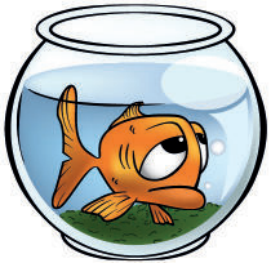

The same is true of river fish. Robbed of their natural habitats and denied the ability to travel freely, they must swim around endlessly in the same few cubic inches of water.

The ornamental fish industry catches and breeds as many fish as possible, with little regard for the creatures themselves. While some coral is protected by international agreements, most fish who end up in aquariums are not. Up to 98% of fish sold in pet stores come from the wild. More than 30 million fish are captured every year to support a worldwide hobby worth almost £150 million.

Many tropical fish destined for tanks and aquariums in homes and businesses are caught illegally using poison. Collectors douse coral reefs with cyanide, which is ingested by the fish who live there. This stuns the fish making them easy to grab by hand or net. Studies have shown that as many as 75% of fish poisoned with cyanide die within hours of capture. The cyanide also kills coral and millions of other fish and microscopic animals.

Freshwater fish suffer a different but equally tragic fate. Most goldfish are bred in giant tubs then sold to zoos and pet stores. Many are doomed to live in plastic bags or bowls, neither of which provides the space or oxygen that goldfish need.

Please don't support the ornamental fish trade by purchasing fish. Fish are beautiful; keeping them in tanks is not. Perhaps if you are considering a fish tank for your home, you should think like a fish and ask if you would prefer a life in the wild or behind glass walls.

Source B

PETS PODCAST

Hello and welcome to our latest podcast about choosing and keeping pets. Let's meet today's guest – Dr Jane French – who describes herself as an ichthyologist.

Interviewer: Dr French, I doubt many of our listeners know what an ichthyologist is!

Dr French: An ichthyologist studies fish. I'm also an aquarist – someone who keeps fish as pets.

Interviewer: Right. I've never really understood the attraction of a pet that you can't cuddle or take for a walk. It's common knowledge that they help humans to relax and I suppose you always know where they are! What else makes them good pets?

Dr French: Many reasons. They are space-saving, in that they have a fixed area of the room and they never make any noise! They generally come without the big food costs and vet bills associated with other pets. Fish are fairly low maintenance, although you must allocate time to clean the tank. Keep the water in good condition by maintaining a constant temperature and cleaning or changing the filter regularly.

Interviewer: What other care requirements do fish have?

Dr French: Fish need copious space. One general guideline is that you should provide three gallons of water for every one inch of fish. Chlorine in tap water can be lethal to fish so treat water properly before putting it into the aquarium. A properly working air pump is necessary to provide oxygen.

Interviewer: What about feeding?

Dr French: Overfeeding is a major cause of problems for fish. Uneaten food and waste material are broken down into ammonia and nitrites, which are toxic. One expert recommends providing only as much food as your fish can eat in 30 seconds.

Interviewer: Thank you, Dr French. After the break, we will be discussing the equipment you need if any of you fancy becoming an aquarist!

Source C

Included in every visit is a chance to dive in and explore the all-new Underwater 4-D experience. Read on to find out about the other wonderful experiences and projects available as part of our mission to bring the wonders of the sea right up close.

Sea Life Centre's Penguin Ice Adventure offers you the unmissable opportunity to feed a penguin and learn all about their diet, habitat and different cheeky personalities. Our Gentoo Penguin Breeding Programme welcomed a fluffy chick when a rare baby Gentoo penguin was born at Sea Life Birmingham.

Get ready for a journey alongside darting sharks, gliding rays and a gargantuan rescued turtle in our 360-degree Ocean Tunnel. Take a journey into our underwater world and meet our incredible creatures. Marvel at the sharks swimming overhead and underneath as you walk through the sea in this truly unique experience.

Visit the Jelly Invaders Zone and prepare yourself as the mysterious lives of jellyfish are revealed in a totally new light! Be mesmerised by enchanting jellyfish as they dance around magical tanks, where multi-coloured spotlights emphasise their beauty. Despite having no brains or bones, these dazzling creatures are resilient survivors, even outliving dinosaurs!

And of course, no visit to Sea Life Birmingham would be complete without a hands-on session in the Interactive Rockpool.

Do not write outside the box

Section A

Read **Source A** and answer **Questions 1** to **6**.

---

0 1 According to **Source A,** what is the **name** of the poison that collectors use to help catch tropical fish?

Answer _____

[1 mark]

0 2 You are advised to use a dictionary for this question.

Source A states: '…with little regard for the creatures themselves.'

What does the word 'regard' mean in this quotation?

A room
B care *[Correct: B – 1 mark]*
C money
D time

Write the correct letter in the box.

Answer ☐

[1 mark]

0 3 The text implies that those who cause **most** of the suffering of ornamental fish are

A the businesses that install aquariums.
B the pet store owners who sell the fish.
C the breeders and collectors who work in the industry.
D the people who keep fish in tanks in their homes.

Level of response mark schemes are broken down into levels, each of which has a descriptor. The

Write the correct letter in the box.

descriptor for the level shows the average performance for the level. There are marks in each level.
Before you apply the mark scheme to a learner's answer, read through the answer and annotate it (as

Answer ☐

instructed) to show the qualities that are being looked for. You can then apply the mark scheme.
Step 1 Determine a level
Start by reading the whole of the learner's response and then, using the mark scheme level descriptors and the standardisation scripts, place the response in the level which it matches or best fits.
[1 mark]

[1 mark]

Do not write outside the box

0 4 Use the information in **Source A** to decide whether each statement is **true** or **false**. Put a tick (✓) in the correct box.

	True	False
All coral is protected by international agreements.		
Using poison to catch fish is against the law.		
Goldfish are bred in giant tubs in zoos.		
Goldfish bowls and plastic bags provide insufficient oxygen for goldfish.		

[2 marks]

0 5 The writer of **Source A** presents both facts and opinions.

0 5 . 1 Identify **two** facts about the way the collectors catch **tropical** fish.

Fact 1 _____

Section A
0 1 According to Source A, what is the name of the poison that collectors use to help catch tropical fish?
Accept

Fact 2 _____

Do not accept
· Cyanide
· Misspellings / miscopyings
[1 mark]

[1 mark]

0 5 . 2 Identify **two** opinions about fish **from the last two paragraphs**.

Opinion 1 _____

Opinion 2 _____

[1 mark]

Do not write outside the box

0 6 Explain how the writer of **Source A** uses words and language techniques to **describe** the suffering of the fish.

You should provide examples from **Source A** in your answer.

[3 marks]

10

Do not write outside the box

Section B

Read **Source B** and answer **Questions 7** to **11**.

0 7 You are advised to use a dictionary for this question.

Source B states: 'Fish need copious space.'

What does the word 'copious' mean in this quotation?

A plentiful
0 6 **B** limited
C clear
D organised

Write the correct letter in the box.

Explain how the writer of Source A uses words and language techniques to describe the

Answer

[1 mark]

suffering of the fish.

0 8 According to **Source B**,

A untreated tap water is fine for fish.
B fish like a variable water temperature.
C each fish needs three gallons of water.
D fish are cheaper to keep than other pets.

The writer says the fish "suffer miserably" are "denied the ability to travel freely" and

Write the correct letter in the box.

"doomed to live in a plastic bag". 1 mark – several relevant quotations but identification only

Answer

[1 mark]

The writer uses emotive language when he calls the fish "fragile" because it shows they are weak and makes you feel sorry for them. 2 marks – weak attempt to comment on effects of the word "fragile"
The writer shows the difference between their life in the wild and in a tank when he
