HOW TO FOLLOW WORKPLACE FIRE EVACUATION PROCEDURES

If you are new to our workplace, knowing how to evacuate safely during an emergency is essential. Follow these clear steps whenever the fire alarm sounds:

1. Stop Work Immediately: Remain calm and stop whatever task you are doing. Do not waste time collecting personal bags or coats.

2. Leave via the Nearest Fire Exit: Follow the illuminated green exit signs. Never use the lifts, as power may fail.

3. Close Doors Behind You: If you are the last person leaving a room, close the door firmly (without locking it) to slow the spread of smoke.

4. Walk Briskly to the Assembly Point: Proceed directly to the designated Assembly Point in the rear car park.

5. Report to Your Fire Marshal: Stand in your department line so the Fire Marshal can take a roll call. Do not re-enter the building until the all-clear is given.

Task 2 Model Response

To: jfreeman@bth.co.uk

Subject: Urgent Health and Safety Hazards Reported Today

Dear James,

I am writing to report four serious health and safety hazards I noticed during my shift today so they can be resolved urgently.

Firstly, the wall-mounted fire extinguisher outside the main kitchen is missing, which leaves staff unable to tackle small grease fires. Secondly, the corridor fire door near Room 4 has been propped open with a wooden wedge, allowing smoke to spread rapidly in an emergency. Thirdly, stacked delivery boxes are blocking the rear fire exit in the warehouse, preventing a safe escape route. Finally, two people were smoking beside the gas canisters near the loading bay, creating a severe explosion risk.

I recommend replacing the missing extinguisher immediately, removing the door wedge, clearing the warehouse exit, and displaying clear no-smoking signs outside.

Yours sincerely,

Jordan Taylor
