MASTER FUNCTIONAL SKILLS

ONLINE LEARNING PLATFORM & ACCREDITED COURSES

Pearson Edexcel & Open Awards Accredited Suite · Entry 3, Level 1 & Level 2

Pass Your Functional Skills Exams With Confidence

100% Pass Guarantee | Dyslexia-Friendly Learning | 1-to-1 Expert Tutor Support

Master Functional Skills provides an adaptive, dyslexia-friendly online learning platform tailored for adult learners, apprentices, and healthcare & vocational staff. Everything you need to revise, practice, and pass is at your fingertips.

1. Smart Diagnostic Initial Assessment

Calculate your exact working level and pinpoint knowledge gaps instantly

- **Exact Grade Calculation:** Adaptive assessments calculate your exact level across all topics.
- **Personalised Study Pathway:** Skip what you know; focus 100% on the topics needed to pass.
- **Real-Time Exam Readiness:** Predictive tracker confirms when you are 100% ready to book.

2. Comprehensive Video Lessons & Worked Solutions

Bite-sized visual explainers covering every single Maths & English curriculum standard

- **Step-by-Step Video Lessons:** Master percentages, algebra, perimeter, ratio, and reverse fractions.
- **Multi-Ink Handwriting Models:** Visual 3-colour methods showing working, carries, and examiner tips.
- **Tutor Shortcuts & Golden Rules:** Proven non-calculator mental arithmetic hacks and BIDMAS tricks.

3. Full Mock Exams & Real-Time Performance Analytics

Practice in exam conditions and watch your scores and confidence climb

- **Authentic Exam Papers:** Timed Section A & Section B papers formatted exactly like Pearson Edexcel.
- **Instant Topic Breakdown:** View percentage scores across Number, Measure/Shape, and Data.
- **Historical Score Tracking:** Monitor past attempts to ensure continuous improvement before exam day.

Activity 2: Films

2 (a) Liam downloads films from the internet.

The table shows the number of films he downloaded last month.

	Action	Comedy	Sci-Fi	Total
Less than 1 hour long	5	2	4	11
Exactly 1 hour long	2	4	6	12
More than 1 hour long	1	1	3	5
Total	8	7	13	28

Q2(a) Worked Solution:
3
28

He chooses one of these films at random.

What is the probability that the film he chooses is an action film that is at least 1 hour long?

[2 marks]

Award 2 marks if correct answer given
1
28 (as denominator)
Award if 0.108 seen
H26

2 (b) Liam thinks he might watch either Rainbow Prism or The Infinity Zone.

He looks at the scores given by different newspapers.
The scores are out of 100

	Rainbow Prism	The Infinity Zone
Daily Times	75	75
London Post	63	68
City Observer	52	not scored
Newcastle Daily	38	50
Entertainment	70	74
Britain Today	83	65
This Week	60	79
Northern Gazette	41	40
Sunday Extra	52	63

Which of the two films would you suggest Liam watches next?
Use **two** appropriate statistical measures to explain your answer.

[3 marks]

2 (c) Screen images are made up of units of light called pixels.

Pixels per square inch (PPI^2) is a measure of image quality.
The higher the pixels per square inch, the better the image quality.

$$PPI^2 = \frac{N}{A}$$

Where: N is the number of pixels
A is the area of the screen in square inches

Liam's old screen has a PPI^2 value of 9800
He wants to buy a new screen with a better image quality.

Liam sees a rectangular screen that has:

- a width of 101.6 cm
- width : height ratio of 16 : 9
- 8.28 million pixels

Q2(c) Worked Solution:

He works out that this will have a better image quality than his old screen.

Is Liam correct? Show your working.

See below

1 Use the conversion: 1 inch = 2.54 cm

[4 marks]

101.6 ÷ 2.54 or 40
Converts width to inches
1
their (40) ÷ 16 × 9 or 22.5
Calculates screen height in inches
1
8280000
seen or implied

2 (f) This is the graph from **2 (d)**.

Q2(f) Worked Solution:

See below

1

58.3(3...) (Mb/s) or 58.8(2...) (Mb/s) from use of 7000 ÷ 119) seconds)

Accept rounding to 1dp or more

1

59.5 (Mb/s) (from trial and improvement)

Or 68.6 (Mb/s) (from reverse percentage calculation)

[3 marks]

The actual speed of a broadband service depends on how far the customer's house is from the nearest connection box.

Distance from house to connection box (to the nearest m)	Percentage of advertised speed
0-100 m	100%
101-500 m	85%
501-1000 m	70%

Examiner use only

Liam's house is 350 m from the connection box.

Liam wants to be able to download a 7000 Mb film in less than 2 minutes.

What is the cheapest broadband service he can choose?
Show your working.

Activity 3: Building a pond

3 (a) Aria is involved in a community project group.

The group are planning to build a pond in the garden of the local hospital.
The pond has a path around it.

On a scale plan, the width of the path is 6.7 cm

The scale used on the plan is 1 : 25

Calculate the actual width of the path.

[1 mark]

Q3(a) Worked Solution:

167.5 (cm)

[1 mark]

Your answer: **cm**

past paper

Examiner use only

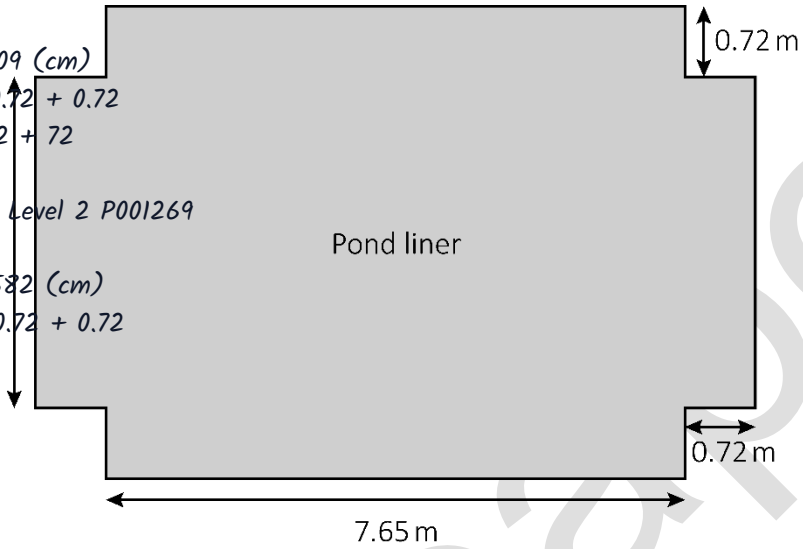

3 (b) The pond will be a cuboid. It will be lined with a sheet of plastic pond liner. The pond liner covers the bottom and sides of the pond.

The pond liner needs to be cut to this shape to exactly fit in to the pond without any overlaps.

Q3(b) Worked Solution:

The dimensions of the pond liner are shown in this diagram:

See below
1
9.09 (m) or 909 (cm)
From 7.65 + 0.72 + 0.72
From 765 + 72 + 72
9
Paper number: Level 2 P001269
1
5.82 (m) or 582 (cm)
From 4.38 + 0.72 + 0.72
[3 marks]

Sheets of pond liner are available in these sizes:

Pond liner	Width	Length	Price
A	4.85 m	8.3 m	£76
B	5.45 m	8.7 m	£96
C	5.85 m	9.1 m	£130
D	6.25 m	9.5 m	£151
E	6.65 m	9.9 m	£172

past paper

Examiner use only

Aria needs to buy the cheapest pond liner that is big enough to fit the pond.

Which pond liner should she buy?
Show your working.

3 (d) Aria needs to work out how many fish can be put in the pond.
She wants to have both Koi fish and Goldfish.

The number of fish is based on the **surface area** of the water in the pond.

Koi fish need 1.2 m^2 each.
Goldfish need 0.6 m^2 each.

Aria wants to have a mixture of Koi fish and Goldfish in the ratio 1 : 4

What is the maximum number of Koi fish **and** Goldfish that Aria can put in the pond, if she keeps the ratio 1 : 4?

[3 marks]

Q3(d) Worked Solution:

9 Koi fish and 36 Goldfish
Award 3 marks if correct answer given
1
33.507 (m2)
Surface area of water from 4.38 × 7.65
1
1.2 + 4 × 0.6
or 3.6 (m2)
Correct use of 1 : 4 ratio
1
[3 marks]

Your answer:

Koi fish

Goldfish

Activity 4: Saving energy costs

4 (a) Eli needs to complete a project on energy costs for his college course.

Eli's family currently use Xpower for gas and electricity.
They pay monthly by direct debit.

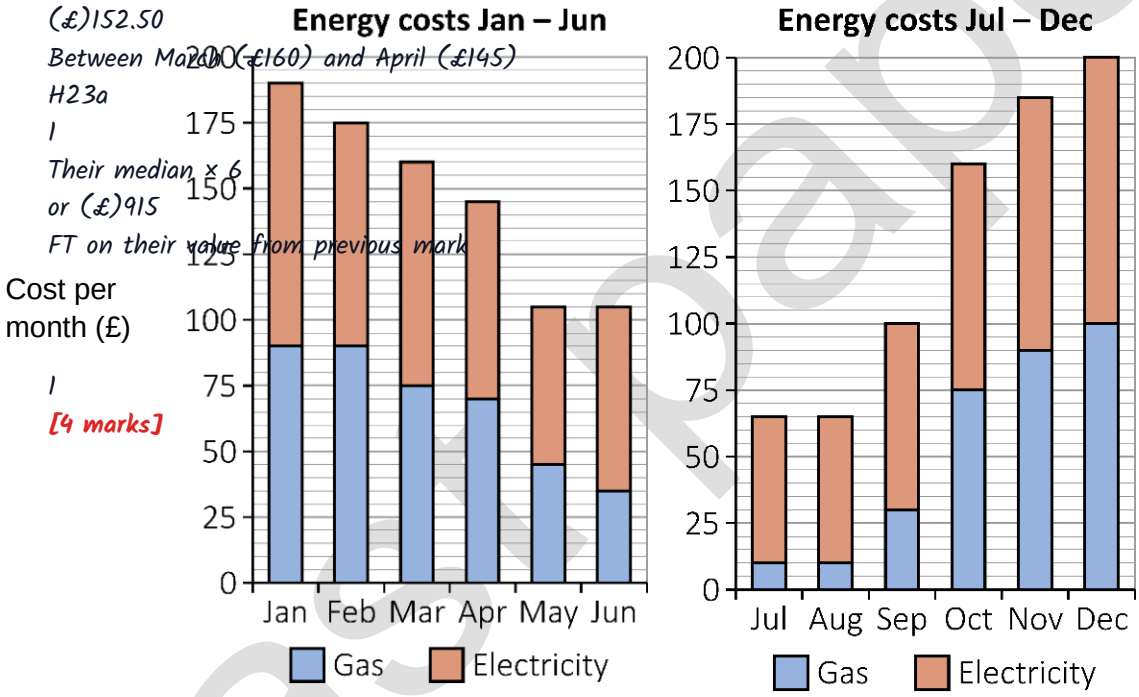

Xpower uses the **median** monthly cost for January to June to set the amount of their monthly direct debit payments for July to December.

The graphs show their energy costs for last year.

Q4(a) Worked Solution:

See below
1
(£)152.50
Between March (£160) and April (£145)
H23a
1
Their median x 6
or (£)915
FT on their value from previous mark

1
[4 marks]

4 (b) This is Eli's electricity bill for the first quarter of this year:

Total electricity used	£211.90
Dual fuel discount	–£14.90
VAT	£9.85
Total including VAT	£206.85

Q4(b) Worked Solution:

5(%)

Award 3 marks if correct answer given

1

211.9(0) – 14.9(0) or 197

1

VAT is calculated after discount.

What percentage has been used to calculate the VAT?

[3 marks]

9.85 ÷ their 197

Accept 9.85 ÷ 211.9

1

5(%)

[3 marks]

Your answer: **%**

past paper

Examiner use only

4 (c) Xpower offer a Loyalty Plan.
The formula Xpower use to work out the cost for the Loyalty Plan is:

$$(D \times 365) + (P \times G)$$

Where:

D is daily charge (in £)
P is price per kWh (in £)
G is gas used per year (in kWh)

For this plan the charges are:

- Daily charge: 32p
- Price per kWh: 3.10p

Last year Eli's family used 17563kWh of gas.
This cost £719.38

Should Eli's family choose the Loyalty Plan for their gas?
Show your working.

Examiner use only

4 (e) Eli looks for information on the cost of leaving gadgets on standby when they are not being used.

Eli's gadgets are a TV, computer, printer, phone charger and two games consoles.

Q4(e) Worked Solution:

He finds several reports stating how much electricity a gadget uses when left on standby, but they do not agree.

(£)64.98 or (£)65(.00)

Annual saving per gadget	Number of reports
£0 - £4.99	1
£5 - £9.99	4
£10 - £14.99	5
£15 - £19.99	2

Award 4 marks if correct answer given

1 Use an estimate of the mean to find how much money Eli could save if he switched off his gadgets, instead of leaving them on standby.

[4 marks]

(2.50 × 1) + (7.50 × 4) + (12.50 × 5) + (17.50 × 2)
or 2.50 + 30 + 62.50 + 35
or 130
Accept alternatives to writing the calculation out, e.g. writing parts next to the table
[4 marks]

Your answer: **£**

[Total marks: 15]

This is the end of the assessment.
