MASTER FUNCTIONAL SKILLS

ONLINE LEARNING PLATFORM & ACCREDITED COURSES

Pearson Edexcel & Open Awards Accredited Suite · Entry 3, Level 1 & Level 2

Pass Your Functional Skills Exams With Confidence

100% Pass Guarantee | Dyslexia-Friendly Learning | 1-to-1 Expert Tutor Support

Master Functional Skills provides an adaptive, dyslexia-friendly online learning platform tailored for adult learners, apprentices, and healthcare & vocational staff. Everything you need to revise, practice, and pass is at your fingertips.

1. Smart Diagnostic Initial Assessment

Calculate your exact working level and pinpoint knowledge gaps instantly

- **Exact Grade Calculation:** Adaptive assessments calculate your exact level across all topics.
- **Personalised Study Pathway:** Skip what you know; focus 100% on the topics needed to pass.
- **Real-Time Exam Readiness:** Predictive tracker confirms when you are 100% ready to book.

2. Comprehensive Video Lessons & Worked Solutions

Bite-sized visual explainers covering every single Maths & English curriculum standard

- **Step-by-Step Video Lessons:** Master percentages, algebra, perimeter, ratio, and reverse fractions.
- **Multi-Ink Handwriting Models:** Visual 3-colour methods showing working, carries, and examiner tips.
- **Tutor Shortcuts & Golden Rules:** Proven non-calculator mental arithmetic hacks and BIDMAS tricks.

3. Full Mock Exams & Real-Time Performance Analytics

Practice in exam conditions and watch your scores and confidence climb

- **Authentic Exam Papers:** Timed Section A & Section B papers formatted exactly like Pearson Edexcel.
- **Instant Topic Breakdown:** View percentage scores across Number, Measure/Shape, and Data.
- **Historical Score Tracking:** Monitor past attempts to ensure continuous improvement before exam day.

QUICK BUY

Welcome to our new FLOW STORES

[Q1 Definition]

Quick Buy
is delighted to announce the arrival of our first ever
Flow Store[1].

[Q2 Purpose/Tone]

As soon as you register[2] and enter a Flow Store, a bright new world opens u[illegible]ld where shopping is no longer a chore, where buying food is a relaxing, restful experience – avoiding queues, checkouts and hassle. Just put your shopping straight into your bag!

[Q1 Register]

Our new Flow Stores will open 24 hours a day and, although there will be no staff on the premises, you will be able to contact our support team[3] using our onsite video phone. The team will be able to view everything that happens in the shop, so you can relax in the knowledge that you are not alone.

Quick Buy is opening 100 Flow Stores nationwide this year and another 900 over the next three years. We look forward to seeing you, even if you won't see us!

---

[1] Unmanned stores with no checkout tills. Payment will be automatically taken off your credit or debit card as you leave.
[2] Customers can register at the start of their first visit. Just call our support team using the video phone outside your local store and give them your name, address & credit or debit card details. That's all it takes to start your shopping experience.
[3] Our customer service department, like our stores, will be open 24 hours a day.

Text 2

The perfect future…

…or the perfect nightmare?

Article written by Jay Hawkes

I've just been shown the future of shopping. Posh boutiques are history. Online is old hat. Old-fashioned high street shops are back!

Old-fashioned high street shops … with one big difference. No trolley. No checkout. No staff. Walk in. Grab what you need. Leave. Your account is charged automatically. 'Walk In, Walk Out'. I had to try this! So off I went.

At the shop my details were taken and a machine gave me a store card. Essential – you can't get into the shop without waving it. And it ***so*** worked. The door whooshed open and in I went.

Testing the system, I kept my store card in my pocket and filled my shopping bag. No basket. No trolley. No scanning. The technology 'sees' what you take and adds it to your bill. Cunningly hidden cameras observe what you take and charge your account. If you put something back again, it sees that too – you won't be charged.

Then it was time to leave. I … I just walked out! That was the oddest bit of all. I felt like a shoplifter.

But I also felt like the shop had suddenly become my kitchen cupboard. In a weird way it was 'my' shop.

[Q3 Opinion]

A minute later, I got a message on my phone with my bill. I checked for mistakes, but it was spot on.

Consider the advantages. No more moving purchases from shelves to trolley. No more race to the cash tills, searching for [Q3 Fact] shortest queue. No more glaring [Q4 Short Sentences] time-waster in front. No more unloading purchases onto a conveyor belt which moves forward, or not, to suit itself. No more competition, trying to fill your bags more quickly than the cashier can scan – like two competitors racing to see who can move groceries around fastest.

Will this change the world? Maybe. Improve our lives? Maybe. In any case, we may soon not have a choice. A shop without staff is easier and cheaper to manage. Service, however impersonal, is guaranteed. I will certainly get used to it. But will I miss the personal touch? I'm not so sure.

Text 3

People's Campaign for Shopping Justice

March to Defend Jobs

[Q6 Headings/Box]

NO to Flow Shops

- **NO** to a world where you enter your local shop through a controlled-access door.
- **NO** to a world where your shopping is supervised by computer-controlled cameras.
- **NO** to a world of complete silence.
- **NO** to seeing nobody.
- **NO** to shopping without as much as a 'hello' or 'goodbye'.

NO to the hellish vision of the future which supermarket chains want to put on every high street.

Why? So they can get rid of our jobs. That's why!

Flow shops will destroy the livelihoods of tens of thousands of families – many barely above the breadline now – all across Britain. Is that what you want, just so you can save an extra penny off a pint of milk?

People matter. We don't want a Britain run and controlled by machines.

If we don't all stand up and say **NO** now, who will be next?

Help us fight for our jobs before they come for yours!

March with us now. Show that enough is enough.

2.00pm on Saturday 17th in the Market Square

We're not anti-technology – we're pro-people!

These questions relate to Text 1 (6 marks)

Question 1 (3 marks)

Give a definition of Flow Stores as stated in Text 1, and explain two ways in which you can register to become a customer?

Definition: Flow Stores are unmanned stores with no checkout tills where payment is taken automatically from your card as you leave.
Registration: 1) Register on your first visit using the video phone to call the support team. 2) Give customer service your name, address & card details.
[1 mark definition + 2 marks for 2 registration steps = 3/3]

Question 2 (3 marks)

What is the purpose of Text 1? Explain how you know this.

Purpose: To advertise Flow Stores, announce their arrival, and encourage customers to visit and use them.
Explanation: The opening announces their arrival positively, the whole text promotes the benefits without criticism, and the ending welcomes new shoppers.
[1 mark purpose + 2 marks thorough explanation = 3/3]

These questions relate to Text 2 (4 marks)

Question 3 (2 marks)

Jay Hawkes, in Text 2, describes his experience of Flow Stores. Give one fact and one opinion he uses to support his point of view.

Fact: Your account is charged automatically (or no moving items to trolley).....
Opinion: 'posh boutiques are history' (or 'the shop had become my kitchen cupboard').....
[1 mark fact + 1 mark opinion = 2/2]

.....

.....

.....

.....

Question 4 (2 marks)

Text 2 repeatedly uses short sentences. Explain why you think the author does this.

1. Creates a feeling of speed and excitement matching the fast checkout.....
2. Makes detailed factual information clear and easy for the reader to follow.
[1 mark per valid reason = 2/2].....

.....

.....

.....

.....

These questions relate to Text 3 (6 marks)

Question 5 (2 marks)

Identify the main reason why the author of Text 3 is against Flow Stores. Explain why you think this.

Main reason: Flow Stores will result in redundancies and job losses.
Explanation: This is highlighted in the title, boxed phrase, and the second half of the text which links every issue back to lost jobs.
[1 mark reason + 1 mark explanation = 2/2]

Question 6 (4 marks)

Identify two organisational features used by the author of Text 3. Give two examples of information which this feature helps you to find.

1. Bullet points: help locate things about Flow Stores you should reject (controlled access, camera supervision, silence).
2. Bold capitals / Headings: help locate where and when the march takes place.
[2 marks features + 2 marks examples of info = 4/4]

These questions relate to more than one of the three Texts (14 marks)

Question 7 (4 marks)

Compare the views of the authors of Texts 1 and 3 on the subject of Flow Stores, and how these views are conveyed.

Views: Text 1 is wholly positive, presenting camera tracking and automated totals as a bright, relaxing future, whereas Text 3 is wholly negative, hating the lack of human contact and warning of job losses.
How conveyed: T1 uses friendly, welcoming language in long explanatory sentences; T3 uses short, sharp commands and repetition to urge protest.
[2 marks views comparison + 2 marks methods comparison = 4/4]

Question 8 (2 marks)

Text 2 contains more detail about Flow Stores than the other two texts. Why do you think this is the case?

Readers of Text 2 have not seen a Flow Store before so need specific detail to understand how it works, whereas T1 wants them to try it and T3 wants protest.
[2 marks = 2/2]

Question 9 (4 marks)

Identify the styles of writing used in Texts 1 and 2. Give one example from each text which suggests that style of writing.

Text 1: Formal & persuasive, e.g. 'Quick Buy are delighted to announce...'
Text 2: Informal & humorous, e.g. 'posh boutiques are history' / 'Cunningly hidden cameras observe what you take'.

[1 mark T1 style + 1 mark T1 quote + 1 mark T2 style + 1 mark T2 quote = 4/4]

Question 10 (4 marks)

Which text do you consider to be the least biased? Using all three texts, explain your selection.

Least biased: Text 2.
Justification across all 3 texts: Text 2 is written by an impartial journalist who examines how the store works objectively. In contrast, Text 1 is a company advert showing only positives, and Text 3 is a protest leaflet using emotive language to persuade readers to march against Flow Stores.

[1 mark selection + 3 marks justification across all 3 texts = 4/4]

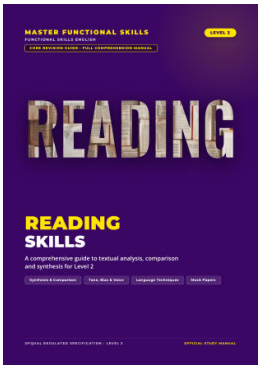

[End of test]
