28. Simple Spreadsheets & Totals (=SUM) (DFSQ E3.8)
29. Email Attachments, Reply vs Reply All (DFSQ E3.10)
30. Online Safety: Passwords & Scams (DFSQ E3.12)

💡 **Tutor Golden Tip (Abdul):** Do not flip the card immediately! Attempt the Quick Challenge on the back using a dry-wipe pen or scratchpad first. Verify with the step-by-step model steps only after completing your working.

Hundreds • Tens • Ones (H-T-O)

Every digit in a 3-digit number has a value based on its column: Hundreds (×100), Tens (×10), and Ones (×1). Zero (0) holds an empty column in place.

★ **Golden Rule: Read 3-digit numbers from left to right: 407 is Four hundred and seven!**

⚠️ **Watch Out: Never drop the middle zero: 'Six hundred and five' is 605, NOT 65!**

Challenge: Place Value up to 1,000

NUMBER SYSTEM

🎯 QUICK EXAM CHALLENGE

DfE E3.N1

What is the value of the digit 8 in the number 842, and how do you write 'seven hundred and nine' in digits?

✏️ Learner Scratchpad & Calculations

Formula Working Area

✓ STEP-BY-STEP OFFICIAL MODEL ANSWER

FULL MARKS

Value of 8 = 800 (8 hundreds). 'Seven hundred and nine' = 709.

Align Right • Start at Ones • Regroup

Always line up Hundreds, Tens, and Ones on the right. Start at the Ones column. In addition, carry 10 to the next column; in subtraction, borrow from the left if the top digit is smaller.

ADDITION (CARRYING)

```
  3 6 7
+ 1 5 8
-------
  5 2 5
```

Carry: 1 hundred, 1 ten

SUBTRACTION (BORROW)

```
  5 4 2
- 2 1 7
-------
  3 2 5
```

4 tens → 3 tens, 12 - 7 = 5

★ **Golden Rule: Always start adding or subtracting from the ONES column on the far right!**

⚠️ **Watch Out: In 342 - 158, do NOT do 8 - 2 = 6! You must borrow 1 ten from the 4 so 12 - 8 = 4.**

🎯 QUICK EXAM CHALLENGE DfE E3.N2

Calculate: (a) 468 + 275 (b) 604 - 238

✏️ Learner Scratchpad & Calculations Formula Working Area

✓ STEP-BY-STEP OFFICIAL MODEL ANSWER FULL MARKS

(a) 468 + 275 = 743 (carry 1 ten and 1 hundred). (b) 604 - 238 = 366.

Partition into Tens & Ones (Grid Method)

To multiply a 2-digit number by a single digit (e.g. 24 × 6), split 24 into 20 and 4. Multiply each part by 6 (20×6 = 120, 4×6 = 24), then add the answers together.

GRID METHOD: 24 × 6 = 144

×	20	4
6	120	24

120 + 24

= 144

★ **Golden Rule: When multiplying by 10, move digits one place left and place a 0 at the end!**

⚠️ **Watch Out: Don't forget the zero when multiplying the Tens part: 30 × 4 = 120, NOT 12!**

🎯 QUICK EXAM CHALLENGE DfE E3.N3

A crate holds 36 bottles of water. How many bottles are in 4 crates?

✏️ Learner Scratchpad & Calculations Formula Working Area

✓ STEP-BY-STEP OFFICIAL MODEL ANSWER FULL MARKS

Partition 36 into 30 + 6. (30 × 4 = 120) + (6 × 4 = 24) = 144 bottles.

Bus Stop Division • Round Up or Down in Context

Divide from left to right. Any leftover amount is the remainder (r). In real-life problems, decide whether to round UP (e.g. minibuses/boxes needed) or round DOWN (what you can afford).

REAL-LIFE REMAINDER: 50 ÷ 8 = 6 r 2

6 × 8 = 48 people

2 people left over (r 2)

Boxes / Buses Needed?

ROUND UP → 7 Buses!

★ **Golden Rule: Round UP when booking seats or buying tins so nothing is left short!**

⚠️ **Watch Out: If asked for 'full packs', ignore remainder and round DOWN.**

🎯 QUICK EXAM CHALLENGE DfE E3.N4

50 care home residents are going on a trip. Each minibus holds 8 people. How many minibuses are needed?

✏️ Learner Scratchpad & Calculations Formula Working Area

✓ STEP-BY-STEP OFFICIAL MODEL ANSWER FULL MARKS

50 ÷ 8 = 6 remainder 2. Because 2 people cannot be left behind, round UP to 7 minibuses.

5 or More Rounds Up • 4 or Less Stays Same

To round to the nearest 10, look at the Ones digit. To round to the nearest 100, look at the Tens digit. If that neighbour digit is 5, 6, 7, 8, or 9, round UP; if 0–4, stay the same.

ROUNDING RULE: CHECK THE NEIGHBOUR DIGIT

0, 1, 2, 3, 4

ROUND DOWN (Stay)

342 → 340 (nearest 10)

5, 6, 7, 8, 9

ROUND UP (+1)

368 → 400 (nearest 100)

★ **Golden Rule: Use rounded numbers to ESTIMATE and check if your calculator answer is sensible!**

⚠️ **Watch Out: When rounding 674 to the nearest 100, look at the Tens digit (7), NOT the Ones digit (4)!**

🎯 QUICK EXAM CHALLENGE DfE E3.N5

Round 463: (a) to the nearest 10, and (b) to the nearest 100.

✏️ Learner Scratchpad & Calculations Formula Working Area

✓ STEP-BY-STEP OFFICIAL MODEL ANSWER FULL MARKS

(a) Nearest 10: Ones digit is 3 (< 5) → 460. (b) Nearest 100: Tens digit is 6 (≥ 5) → 500.

Divide by the Bottom • Multiply by the Top

A fraction splits a whole into equal parts. To find a fraction of an amount (e.g. 3/4 of £20): Step 1: Divide the amount by the bottom number (20 ÷ 4 = 5). Step 2: Multiply by the top number (5 × 3 = £15).

★ **Golden Rule: Divide by the bottom (denominator), then times by the top (numerator)!**

⚠️ **Watch Out: 1/3 is BIGGER than 1/5 — a smaller bottom number means larger slices!**

🎯 QUICK EXAM CHALLENGE DfE E3.N7

A jacket costs £45. It is reduced by 1/5 in a sale. How much money is taken off?

✏️ Learner Scratchpad & Calculations Formula Working Area

✓ STEP-BY-STEP OFFICIAL MODEL ANSWER FULL MARKS

1/5 of £45 = 45 ÷ 5 = £9 taken off.

Line Up the Decimal Points Vertically

Decimals show tenths (0.1) and hundredths (0.01), just like pounds and pence (£3.45). When adding or subtracting decimals, always line up the decimal points in a straight vertical column.

COMPARING DECIMALS: PAD WITH ZEROES

1.8 m → 1.80 m (Largest)

1.45 m → 1.45 m (Middle)

1.09 m → 1.09 m (Smallest)

★ **Golden Rule: Add a trailing zero (0.5 = 0.50) so both numbers have 2 decimals!**

⚠️ **Watch Out: 0.4 is larger than 0.25 because 0.40 has 4 tenths while 0.25 has 2.**

Challenge: Decimals up to 2 Decimal Places

NUMBER SYSTEM

🎯 QUICK EXAM CHALLENGE

DfE E3.N8

Put these lengths in order from shortest to longest: 1.45 m, 1.8 m, 1.09 m.

✏️ Learner Scratchpad & Calculations

Formula Working Area

✓ STEP-BY-STEP OFFICIAL MODEL ANSWER

FULL MARKS

Write with 2 decimal places: 1.45 m, 1.80 m, 1.09 m. Order: 1.09 m, 1.45 m, 1.8 m.

£1 = 100p • Never Mix £ and p Signs

Convert pence to pounds by dividing by 100 (e.g. 245p = £2.45). Write money with either a £ sign and 2 decimal places (£0.65) OR a p sign (65p), never both (£0.65p is wrong).

MONEY NOTATION & CHANGE

✓ CORRECT	× WRONG
£0.75 or 75p	£0.75p (mixed signs)
£4.50 (2 dec places)	£4.5 (missing zero)

★ **Golden Rule: Always write two digits after the dot for pounds: £4.5 on a calculator must be written as £4.50!**

⚠️ **Watch Out: Before adding 85p and £2.40, convert 85p into £0.85 so both are in pounds!**

🎯 QUICK EXAM CHALLENGE
DfE E3.M10

You buy a sandwich for £3.25 and a tea for 90p. How much change do you get from a £10 note?

✏️ Learner Scratchpad & Calculations
Formula Working Area

✓ STEP-BY-STEP OFFICIAL MODEL ANSWER
FULL MARKS

90p = £0.90. Total cost = £3.25 + £0.90 = £4.15. Change = £10.00 - £4.15 = £5.85.

Add 12 to PM Hours • 1 Hour = 60 Minutes

On clock faces: IV = 4, VI = 6, IX = 9, XII = 12. For 24-hour time, add 12 to afternoon (pm) hours from 1:00 pm onwards (e.g. 3:15 pm → 15:15). Count time intervals across the top of the hour (:00).

★ **Golden Rule: There are 60 minutes in 1 hour — never use column subtraction as if 1 hour had 100 minutes!**

⚠️ **Watch Out: 12:30 pm stays 12:30 in 24-hour time; 12:30 am (midnight) becomes 00:30.**

🎯 QUICK EXAM CHALLENGE DfE E3.M12

A shift starts at 9:40 am and finishes at 2:15 pm (14:15). How long is the shift in hours and minutes?

✏️ Learner Scratchpad & Calculations Formula Working Area

✓ STEP-BY-STEP OFFICIAL MODEL ANSWER FULL MARKS

9:40 am to 10:00 am = 20 mins. 10:00 am to 2:00 pm = 4 hours. 2:00 pm to 2:15 pm = 15 mins. Total = 4 hours 35 minutes.

1 m = 100 cm • 1 kg = 1,000 g • 1 L = 1,000 ml

Length: 1 cm = 10 mm, 1 m = 100 cm, 1 km = 1,000 m. Weight: 1 kg = 1,000 g. Capacity: 1 Litre = 1,000 ml. Always convert to the SAME unit before adding or comparing.

LENGTH	WEIGHT	CAPACITY
1 cm = 10 mm	1 kg = 1,000 g	1 L = 1,000 ml
1 m = 100 cm	½ kg = 500 g	½ L = 500 ml
1 km = 1,000 m		

★ **Golden Rule: 'Kilo' (km, kg) and 'Milli' (ml, mm in a m) mean 1,000; 'Centi' (cm) means 100!**

⚠️ **Watch Out: 1 metre is 100 cm (NOT 1,000 cm!). Half a kilogram (0.5 kg) is 500 g.**

🎯 QUICK EXAM CHALLENGE
DfE E3.M14

A jug holds 2 Litres of juice. You pour out three 250 ml glasses. How many millilitres (ml) are left in the jug?

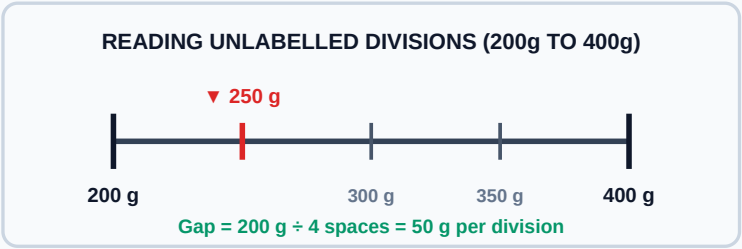

✏️ Learner Scratchpad & Calculations
Formula Working Area

✓ STEP-BY-STEP OFFICIAL MODEL ANSWER
FULL MARKS

2 Litres = 2,000 ml. Poured out: 3 × 250 ml = 750 ml. Left: 2,000 - 750 = 1,250 ml (or 1.25 L).

Find the Gap Divided by the Number of Steps

To read an unlabelled tick mark on a scale, thermometer, or weighing dial: (1) Subtract two neighbouring numbered marks to find the gap, then (2) Divide by the number of spaces between them.

★ **Golden Rule: Count the SPACES (jumps) between numbered marks, not the lines!**

⚠️ **Watch Out: If there are 5 spaces between 0 g and 100 g, each mark is 100 ÷ 5 = 20 g (not 10 g!).**

🎯 QUICK EXAM CHALLENGE
DfE E3.M18

A kitchen scale has 4 equal spaces between 200 g and 400 g. The pointer is 1 mark past 200 g. What is the weight?

✏️ Learner Scratchpad & Calculations
Formula Working Area

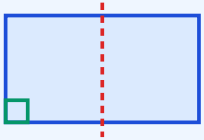

✓ STEP-BY-STEP OFFICIAL MODEL ANSWER
FULL MARKS

Gap = 400 - 200 = 200 g. Step size = 200 ÷ 4 = 50 g per mark. Weight = 200 + 50 = 250 g.

Faces, Edges & Vertices • 90° Right Angles

A right angle (90°) is a square corner like a book edge. A line of symmetry folds a 2D shape into two matching halves. 3D shapes have flat/curved Faces, Edges, and Vertices (corners).

RIGHT ANGLE & SYMMETRY

4 Right Angles (90° corners)

3D SHAPE PROPERTIES

- **Cube/Cuboid: 6 Faces,** 12 Edges, 8 Vertices
- **Cylinder: 3 Faces (2 flat,** 1 curved), 2 Edges, 0 Vertices

★ **Golden Rule: A cuboid (box) has 6 rectangular faces, 12 edges, and 8 vertices (corners)!**

⚠️ **Watch Out: A rectangle has 2 lines of symmetry (vertical & horizontal), NOT 4 — folding diagonally does not match!**

🎯 QUICK EXAM CHALLENGE DfE E3.M19

How many faces, edges, and vertices does a cube have, and how many right angles are inside a rectangle?

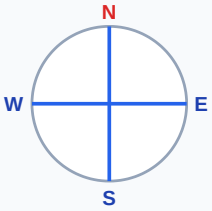

✏️ Learner Scratchpad & Calculations Formula Working Area

✓ STEP-BY-STEP OFFICIAL MODEL ANSWER FULL MARKS

Cube: 6 faces, 12 edges, 8 vertices. A rectangle has 4 right angles (90° corners).

Never Eat Shredded Wheat (N • E • S • W)

The 8 compass points go clockwise: North (N), North-East (NE), East (E), South-East (SE), South (S), South-West (SW), West (W), North-West (NW). A quarter turn is 1 right angle (90°).

8-POINT COMPASS & TURNS

- Quarter turn = 1 right angle (N → E)
- Half turn = Opposite way (N → S)
- Diagonal points: NE, SE, SW, NW

★ **Golden Rule: Clockwise follows clock hands; Anti-clockwise turns the opposite way!**

⚠️ **Watch Out: Check the facing direction before calculating quarter or half turns.**

🎯 QUICK EXAM CHALLENGE DfE E3.M20

You are facing North. You turn a quarter-turn (90°) anti-clockwise. Which direction are you facing now?

✏️ Learner Scratchpad & Calculations Formula Working Area

✓ STEP-BY-STEP OFFICIAL MODEL ANSWER FULL MARKS

Facing West (1 quarter-turn anti-clockwise from North).

Always Check the Pictogram Key First!

In a pictogram, one symbol often stands for 2, 4, or 10 items — always read the Key first! In a bar chart, read across from the top of the bar to the vertical frequency axis.

PICTOGRAM KEY RULE: 1 CIRCLE (●) = 4 ITEMS

Full symbol = 4 | Half symbol = 2 | Quarter symbol = 1

★ **Golden Rule: If 1 circle = 4 items, then half a circle = 2 items and a quarter circle = 1 item!**

⚠️ **Watch Out: Never count pictogram symbols as '1 each' without checking the Key box!**

🎯 QUICK EXAM CHALLENGE DfE E3.HD21

In a pictogram, Key: 1 star = 4 books. Monday shows 3 full stars and a half star. How many books were borrowed on Monday?

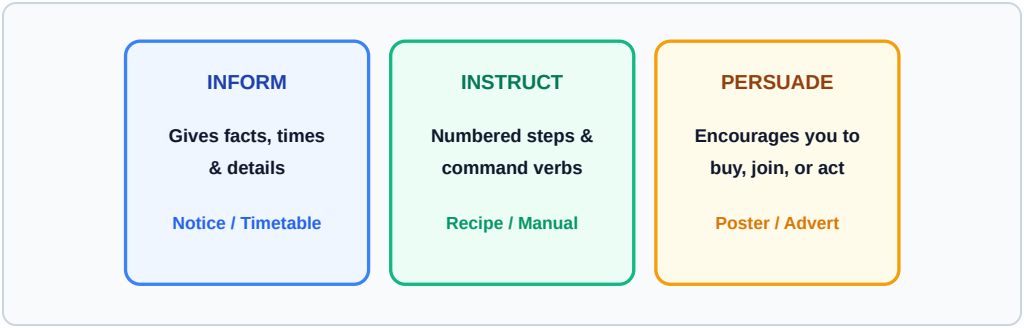

✏️ Learner Scratchpad & Calculations Formula Working Area

✓ STEP-BY-STEP OFFICIAL MODEL ANSWER FULL MARKS

3 full stars = 3 × 4 = 12 books. Half star = 4 ÷ 2 = 2 books. Total = 12 + 2 = 14 books.

To Inform • To Instruct • To Persuade

Every text has a main purpose: To Inform (gives facts, dates, or news), To Instruct (step-by-step recipes or safety rules using command verbs), or To Persuade (adverts encouraging you to buy or join).

★ **Golden Rule: When naming purpose, state both the verb AND topic (e.g. To warn about)!**

⚠️ **Watch Out: Never just write 'To inform' — write 'To inform staff about fire rules'.**

🎯 QUICK EXAM CHALLENGE DfE E3.R8

A leaflet titled '5 Easy Steps to Reset Your Work Password' uses numbered steps. What is its main purpose?

✏️ Learner Scratchpad & Calculations Formula Working Area

✓ STEP-BY-STEP OFFICIAL MODEL ANSWER FULL MARKS

To instruct (or explain to) staff how to reset their work password step by step.

Headings, Subheadings, Bullet Points & Boxes

Writers use organizational features to help readers find information fast: Headings show the main topic, Subheadings divide sections, Bullet points list key facts, and Text boxes highlight warnings or prices.

LAYOUT FEATURES THAT HELP THE READER

- **Main Heading: Grabs attention & states overall topic**
- **Subheadings: Split text into clear, easy-to-scan sections**
- **Bullet Points / Numbered Lists: Make key steps stand out**
- **Bold Text & Captions: Highlight important words & photos**

★ **Golden Rule: Use subheadings like signposts to jump straight to the needed section!**

⚠️ **Watch Out: Name the specific feature (e.g. Subheading, Table, Bullet points).**

🎯 QUICK EXAM CHALLENGE DfE E3.R9

Why does a safety poster use bullet points instead of one long paragraph?

✏️ Learner Scratchpad & Calculations Formula Working Area

✓ STEP-BY-STEP OFFICIAL MODEL ANSWER FULL MARKS

Bullet points break up the text so key safety rules are quick and easy to read at a glance.

Compare the 1st, 2nd, then 3rd Letter

To put words in alphabetical (A–Z) order or look them up in a dictionary/index: compare the first letter. If the first letters are the same, compare the second letter (or third letter).

ALPHABETICAL ORDER: CHECK THE NEXT LETTER

A B C D E F G H I J K L M N O P Q R S T U V W X Y Z

Compare: Paper • Postcode • Printer

Since A → O → R: Paper, then Postcode, then Printer!

★ **Golden Rule: Check the 3rd and 4th letters when words start with the same letters!**

⚠️ **Watch Out: 'Staff' comes before 'Store' because 'a' precedes 'o' in the alphabet.**

🎯 QUICK EXAM CHALLENGE DfE E3.R10

Put these four words in alphabetical order: Printer, Paper, Postcode, Folder.

✏️ Learner Scratchpad & Calculations Formula Working Area

✓ STEP-BY-STEP OFFICIAL MODEL ANSWER FULL MARKS

1. Folder (F), 2. Paper (Pa), 3. Postcode (Po), 4. Printer (Pr).

To • Subject Line • Greeting • Paragraphs • Sign-Off

Every Entry 3 email needs: (1) A clear Subject Line, (2) A polite greeting ('Dear Mr Patel,' or 'Hi Sarah,'), (3) Short paragraphs answering every bullet point in the task, and (4) A polite sign-off ('Kind regards,').

✉️ EMAIL CHECKLIST (ENTRY LEVEL 3)

Subject: Shift Swap Request – Tuesday 14 May

Dear Manager,

I am writing to ask if I can swap my Tuesday morning shift...

Kind regards, Alex Carter

★ **Golden Rule: Tick off each task bullet point to ensure full content marks are won!**

⚠️ **Watch Out: Never leave the email Subject line blank — it costs an easy mark.**

🎯 QUICK EXAM CHALLENGE
DfE E3.W18

Write a clear Subject Line and Greeting for an email to your manager, Mrs Singh, requesting Friday off.

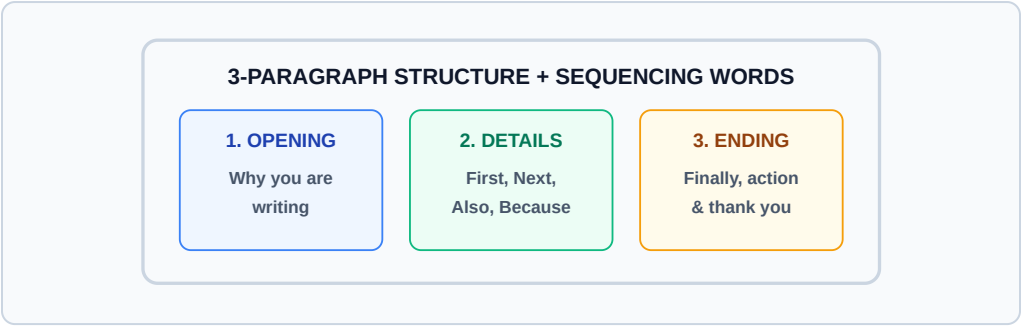

✏️ Learner Scratchpad & Calculations
Formula Working Area

✓ STEP-BY-STEP OFFICIAL MODEL ANSWER
FULL MARKS

Subject: Annual Leave Request – Friday 18 October | Greeting: Dear Mrs Singh,

Start a New Paragraph for Each New Topic

Break your writing into at least 3 clear paragraphs: (1) Opening (why you are writing), (2) Middle (details and examples), and (3) Ending (what happens next). Use time linkers like First, Next, Then, Finally.

★ **Golden Rule: Leave a clear blank line between paragraphs to show structure clearly!**

⚠️ **Watch Out: Writing one giant block of text without breaks loses layout marks.**

🎯 QUICK EXAM CHALLENGE
DfE E3.W19

Give three sequencing words you can use to order instructions for a new colleague.

✏️ Learner Scratchpad & Calculations
Formula Working Area

✓ STEP-BY-STEP OFFICIAL MODEL ANSWER
FULL MARKS

First (or Firstly), Next (or Then / After that), and Finally.

M.I.N.T.S. Capitals • Full Stops • Question Marks

Start every sentence with a Capital Letter and end with a Full Stop (.), Question Mark (?), or Exclamation Mark (!). Always capitalise Months/Days, the word 'I', Names of people, and Places (Oxford, Tuesday).

M.I.N.T.S. CAPITAL LETTER CHECKLIST

M — Months & Days: Friday, November

I — The word 'I': I work at the clinic.

N — Names & Places: Abdul, Oxford, High Street

S — Start of Every Sentence (+ end with . ? !)

★ **Golden Rule: Every question must end with a question mark (?), not a full stop!**

⚠️ **Watch Out: Don't join two complete sentences with a comma — use a full stop.**

🎯 QUICK EXAM CHALLENGE DfE E3.W13

Fix the 4 errors in this sentence: 'on monday i am going to london, when does the train leave.'

✏️ Learner Scratchpad & Calculations Formula Working Area

✓ STEP-BY-STEP OFFICIAL MODEL ANSWER FULL MARKS

'On Monday I am going to London. When does the train leave?' (Capitals for On, Monday, I, London + Full Stop + Question Mark).

Commas Separate List Items • Apostrophes for Missing Letters

Use commas to separate items in a list ('We need pens, paper, folders and tape'). Use an apostrophe (') to show where letters are missing in contractions (don't = do not, can't = cannot, I'm = I am).

COMMAS IN A LIST

"Bring a pen, a notepad, your ID badge and water."

Separates 3 or more items

APOSTROPHE (OMISSION)

do not → don't

it is → it's

you are → you're

★ **Golden Rule: Put the apostrophe in the exact spot where the missing letter was taken out!**

⚠️ **Watch Out: Never put an apostrophe in simple plural words: 'Three coffees and two cakes' has NO apostrophe!**

🎯 QUICK EXAM CHALLENGE DfE E3.W14

Add commas and an apostrophe to fix this sentence: 'Weve packed sandwiches apples crisps and water.'

✏️ Learner Scratchpad & Calculations Formula Working Area

✓ STEP-BY-STEP OFFICIAL MODEL ANSWER FULL MARKS

'We've packed sandwiches, apples, crisps and water.'

Singular Takes 'Is/Was' • Plural Takes 'Are/Were'

Match the verb to the subject: One person/thing (I, he, she, it, the bus) takes 'is' or 'was'. More than one (we, they, the buses) and 'you' ALWAYS take 'are' or 'were' ('We were happy', NEVER 'We was').

SINGULAR (ONE)

- I was / He was / She was
- The train is / was late
- There is one seat left

PLURAL (2+ OR 'YOU')

- We were / They were
- You were (NEVER 'you was')
- There are many options

★ **Golden Rule: Always write 'We were', 'They were', and 'You were' (never 'We was')!**

⚠️ **Watch Out: 'There is' is for one item; 'There are' is for multiple items.**

🎯 QUICK EXAM CHALLENGE DfE E3.W15

Choose the correct verbs: 'We (was / were) waiting at the stop because the buses (was / were) delayed.'

✏️ Learner Scratchpad & Calculations Formula Working Area

✓ STEP-BY-STEP OFFICIAL MODEL ANSWER FULL MARKS

'We were waiting at the stop because the buses were delayed.'

Ch/Sh/S/X Add -es • Consonant + Y Changes to -ies

Most nouns add -s for plurals. Words ending in -ch, -sh, -s, -x, or -z add -es (box → boxes, bus → buses). Words ending in a consonant + y drop the y and add -ies (baby → babies, city → cities).

THE 3 PLURAL SPELLING RULES

1. Ends in -s, -sh, -ch, -x → Add -ES: box → boxes, watch → watches
2. Consonant + Y → Drop Y, add -IES: city → cities, lorry → lorries
3. Vowel + Y → Keep Y, add -S: day → days, trolley → trolleys

★ **Golden Rule: Consonant + y becomes -ies (party → parties); vowel + y adds -s!**

⚠️ **Watch Out: Irregular plurals change completely: child → children, person → people.**

🎯 QUICK EXAM CHALLENGE DfE E3.W17

Write the plural of these three words: (a) box (b) family (c) key

✏️ Learner Scratchpad & Calculations Formula Working Area

✓ STEP-BY-STEP OFFICIAL MODEL ANSWER FULL MARKS

(a) boxes (add -es) (b) families (consonant + y → -ies) (c) keys (vowel + y → add -s).

Listen Actively • Ask Relevant Questions • Take Turns

In your Entry 3 Speaking & Listening discussion: (1) Listen carefully without interrupting, (2) State your views clearly with a reason ('I think... because...'), and (3) Ask at least two relevant questions to others.

ENTRY 3 SPEAKING & LISTENING SUCCESS

- ✓ **Speak Clearly: "I think we should... because..."**
- ✓ **Ask Questions: "What do you think is the best day for...?"**
- ✓ **Respect Turns: Nod, keep eye contact, and don't interrupt**

★ **Golden Rule: Always add 'because...' to explain your reasons during discussions!**

⚠️ **Watch Out: Don't stay silent after speaking — invite others to share views.**

🎯 QUICK EXAM CHALLENGE
DfE E3.SLC1

Give one polite question you could ask a classmate during a discussion about local recycling.

✏️ Learner Scratchpad & Calculations
Formula Working Area

✓ STEP-BY-STEP OFFICIAL MODEL ANSWER
FULL MARKS

"How easy do you find it to use the recycling bins on your street?" (or "What could the council do to help people recycle more?").

Wi-Fi Padlock • Display Zoom • Volume & Contrast

Use your device Settings app to connect to secure Wi-Fi (look for the padlock icon), adjust screen brightness/text size for readability, and install system updates to fix security bugs.

ESSENTIAL DEVICE SETTINGS (ENTRY 3)

🔒 **Secure Wi-Fi: Look for the padlock icon & enter password**

🔍 **Accessibility: Increase Text Size, Zoom, or High Contrast**

🔄 **Software Updates: Install updates to patch security risks**

⋆ Golden Rule: Only connect to Wi-Fi networks that show a padlock icon and require a password!

⚠️ Watch Out: Never log into online banking on an open, unlocked public Wi-Fi network!

🎯 QUICK EXAM CHALLENGE DFSQ E3.1

A colleague finds the text on their tablet screen too small to read. Which device setting should they adjust?

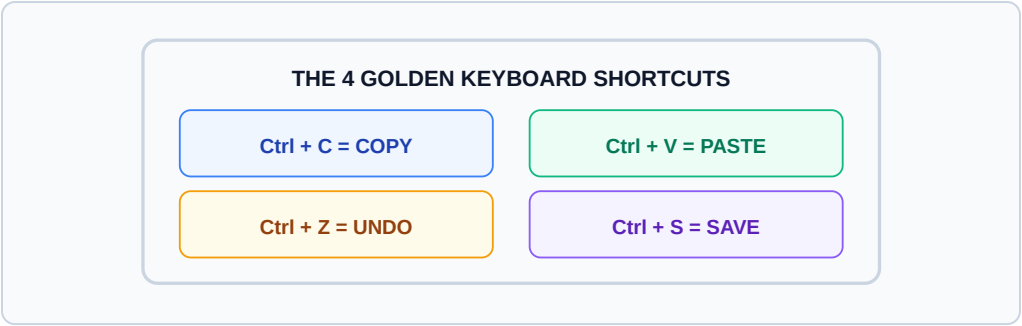

✏️ Learner Scratchpad & Calculations Formula Working Area

✓ STEP-BY-STEP OFFICIAL MODEL ANSWER FULL MARKS

Open Settings → Display / Accessibility → Increase Font Size (or Screen Zoom).

Clear File Names • Ctrl+C (Copy) • Ctrl+V (Paste)

Save files into named folders with clear, descriptive filenames (e.g. 'CV_Alex_Carter.pdf', not 'doc1'). Essential shortcuts: Ctrl+C = Copy, Ctrl+X = Cut, Ctrl+V = Paste, Ctrl+Z = Undo, Ctrl+S = Save.

★ **Golden Rule: Press Ctrl + Z immediately if you make a mistake to undo your action!**

⚠️ **Watch Out: Know file extensions: .docx = Word, .pdf = Print, .png = Image.**

🎯 QUICK EXAM CHALLENGE
DFSQ E3.2

Which keyboard shortcut copies selected text, and which shortcut pastes it into a new place?

✏️ Learner Scratchpad & Calculations
Formula Working Area

✓ STEP-BY-STEP OFFICIAL MODEL ANSWER
FULL MARKS

Ctrl + C copies the selected text; Ctrl + V pastes it.

Bold (B) • Centre Align • Bullet Lists • Spellcheck

In a poster or notice: make the main title Larger (18–24pt), Bold (B), and Centre-aligned. Keep body text Left-aligned (11–12pt) so it is easy to read, and use Bullet Points for lists.

[B] Bold | [I] Italic | [U] Underline | [•] Bullets

STAFF FIRE SAFETY NOTICE (Bold, 18pt, Centred)

- **Leave the building calmly via the nearest green exit sign.**
- **Report to Assembly Point B in the main car park.**

(Body text: Left-aligned, 12pt, clean bullet points)

★ **Golden Rule: Right-click red wavy underlines to correct spellings before saving!**

⚠️ **Watch Out: Keep body text left-aligned — never centre-align long paragraphs.**

🎯 QUICK EXAM CHALLENGE DFSQ E3.6

How should you format the main heading of a workplace safety notice so it stands out clearly?

✏️ Learner Scratchpad & Calculations Formula Working Area

✓ STEP-BY-STEP OFFICIAL MODEL ANSWER FULL MARKS

Make the heading Bold, increase the font size (e.g. 18–22pt), and Centre-align it at the top of the page.

Columns (A, B, C) • Rows (1, 2, 3) • Always Start with =

Each box in a spreadsheet is a cell named by its Column letter and Row number (e.g. B4). Every formula MUST start with an equals sign (=): use =B2+B3 or =SUM(B2:B5) to add numbers.

SPREADSHEET FORMULA SYMBOLS

=SUM(B2:B5) → Adds all cells from B2 down to B5

=B2-C2 → Subtracts C2 from B2

=B2*C2 → Multiplies B2 by C2 (* means ×)

=B2/C2 → Divides B2 by C2 (/ means ÷)

★ **Golden Rule: Always begin spreadsheet formulas with '=' (e.g. =SUM(A1:A5))!**

⚠️ **Watch Out: Use '*' for multiply and '/' for divide — never type the letter 'x'.**

🎯 QUICK EXAM CHALLENGE
DFSQ E3.8

Write the spreadsheet formula to add the costs in cells B2, B3, B4, and B5.

✏️ Learner Scratchpad & Calculations

FULL MARKS

=SUM(B2:B5) (or =B2+B3+B4+B5).

Paperclip = Attach File • Check Recipient Before Sending

Click the Paperclip icon to attach a file (like a PDF or photo) to an email. Use 'Reply' to answer ONLY the sender; use 'Reply All' only when everyone on the thread needs to see your answer.

↩️ REPLY (ONE PERSON)

Sends your message ONLY to the person who emailed

✓ Safe for private info

📎 ATTACHMENTS

Click Paperclip icon (📎) to attach a PDF or photo

✓ Check file name & size

★ **Golden Rule: Always attach the file before sending if writing 'please find attached'!**

⚠️ **Watch Out: Never click 'Reply All' when sending sensitive personal information.**

🎯 QUICK EXAM CHALLENGE DFSQ E3.10

You receive a company-wide email from HR asking you to send your private bank details. Should you click 'Reply' or 'Reply All'?

✏️ Learner Scratchpad & Calculations Formula Working Area

✓ STEP-BY-STEP OFFICIAL MODEL ANSWER FULL MARKS

Click 'Reply' (so only HR receives your private details, NOT the entire company).

3 Random Words + Symbols • Check HTTPS Padlock

Create strong passwords using three random words plus numbers/symbols (e.g. 'Green#kettle42!'). When shopping or banking online, check the browser address bar starts with 'https://' and has a padlock icon.

3 GOLDEN RULES FOR STAYING SAFE ONLINE

1. **Strong Password:** 3 random words + numbers/symbols + 2FA code
2. **Safe Websites:** Check for https:// and the Padlock icon in URL bar
3. **Spot Phishing:** Ignore urgent panic links & fake sender addresses

★ **Golden Rule: Never click links in unexpected security alerts or parcel texts!**

⚠️ **Watch Out: Never use obvious passwords like 'password123' or your date of birth.**

🎯 QUICK EXAM CHALLENGE
DFSQ E3.12

State two signs that a text message claiming 'Your parcel is held—click here to pay £1.99' is a phishing scam.
