Article

Fashion always changes

Last year we spent over £57m on clothes in the UK and this increases each year. The way clothes are made and how we shop for them has changed a lot recently.

In the past

Previously it could take about 6 months for clothes to be designed, made and delivered to the shops. The cost of the materials used was high so they were very expensive to buy.

Factory production

90% of clothes are now made in large factories using newly invented cheaper materials. This means that clothes can be made very quickly so the latest fashions can get to the shops in just a few weeks and be sold at affordable prices. The price of new items has dropped dramatically.

What about the workers?

Where do our clothes come from? Who makes them? Many people are concerned about the working conditions in some factories in developing countries. As these factories are not owned by shops, it's difficult to check if workers are being treated fairly. Factory owners are encouraged to produce clothes as cheaply as possible so they sometimes pay low wages (less than £170 per month). Another issue is that children may be working there.

How do we shop?

People used to buy just a few items during the year but now 70% of young people buy new clothes almost every month. We also no longer think carefully about purchases - if we like something, we have to buy it immediately as next week it might have sold out.

Environmental damage

However, some people criticise this new approach to making and selling clothes because of the harm it causes to the environment. Making so many new items contributes to pollution, both during production and if they are later thrown away because they are no longer in fashion.

Jacket 84

Ben - ★☆☆☆☆

I spend a lot of money on clothes and I bought this jacket from your website last week but what a mistake! It looks really old-fashioned – it's nothing like the picture. The shape is completely different and the stitching is all over the place – there's even a hole where it wasn't stitched at all. I'm returning the jacket and would recommend everyone avoids your products.

RMK Mountain Sports

Hi Ben, please accept our apology. We are happy to exchange this item once we receive it. We try hard to ensure the photos are realistic and the items are well-made. We can also give you a refund and offer you 50% off your next purchase. We'll be contacting the large overseas factory where this jacket was made to investigate.

Frankie - ★★★★★

I absolutely love shopping for new clothes and I buy something from you every month. I don't have to think carefully when I buy from your site – everything in your clothing range is ace. I bought this new jacket as soon as I spotted it in case it sold out. It was delivered quickly – looks exactly like the picture and is well-designed, good quality and affordable thanks to a cheeky discount code I found in a sports magazine. I'll definitely buy from here again – RMK is a great company.
