MASTER FUNCTIONAL SKILLS • REGULATORY GOVERNANCE (MFS-GOV-06)

Equality, Diversity & Inclusion (EDI) Policy

Eliminating discrimination and embedding inclusive neurodiverse design across Functional Skills tuition, digital resources, and assessments.

Document Reference	MFS-GOV-06	**Effective Date**	11 November 2026
Quality & Centre Lead	Abdul (Head of Centre)	**Regulatory Alignment**	Equality Act 2010 & Ofqual Condition D2 (Accessibility)

1. Statutory Protected Characteristics & Equal Opportunity

Master Functional Skills upholds the Equality Act 2010 across every learner touchpoint, ensuring no candidate, learner, or staff member experiences direct or indirect discrimination, harassment, or victimisation on the grounds of age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex, or sexual orientation.

- **Inclusive Curriculum Contexts:** All video masterclasses, practice worksheets, and mock scenarios reflect realistic, culturally diverse modern UK workplaces, community settings, and accessible everyday contexts.
- **Plain British English Standard:** All explanations avoid unnecessary academic jargon so ESOL learners, neurodivergent candidates, and adult returners can focus purely on the core skill being assessed.

2. Built-In Neurodiverse & Accessibility Engineering

Accessibility is engineered directly into the Master Functional Skills platform as standard for every learner without requiring gatekeeping:

- **Dyslexia Readability Toolbar:** Instant toggle for cream/pastel page backgrounds, OpenDyslexic / high-legibility sans-serif typography, expanded line spacing, and zero cramped inline arithmetic.
- **Studio Video Accessibility:** 100% of Maths and English Studio Masterclasses feature high-contrast visual boards, structured colour coding, clear synchronized captions, and broadcast-normalised (-16 LUFS) pop-free audio.
- **Flexible Exam Scheduling:** Evening and weekend remote assessment slots accommodate shift workers, parents, carers, and religious observance calendars.

Accessibility Pillar	MFS Standard Provision	Learner Benefit
Visual & Dyslexia Design	Built-in tinted overlays, tabular large numerals, place-value grids, and step-down visual boards	Reduces visual crowding and working-memory overload

Auditory & Caption Clarity	-16 LUFS broadcast audio, natural British pacing, full WebVTT chapters & onscreen captions	Supports D/deaf, hard-of-hearing, ESOL, and ADHD learners
Inclusive Assessment Access	Proactive pre-exam screening for extra time, rest breaks, and religious/work scheduling needs	Ensures fair parity across every candidate cohort

3. EDI Monitoring, Feedback & Continuous Improvement

The Head of Centre reviews anonymised enrolment, achievement, and Reasonable Adjustment uptake data twice yearly to identify and remove any attainment gaps across learner groups.
