Subject: Volunteering

Dear Emma, [Polite greeting]

I am writing in response to your notice asking for volunteers on the local website. I would really like to offer my help as a volunteer. In particular, I am keen to help care for local parks and green spaces, as well as helping older neighbours with their weekly shopping and simple household jobs. Having lived in this area for over five years, I know how important clean parks and friendly support are to local people, and I want to help neighbours feel included. [Purpose / Offer] [Role Choices]

I believe I would make a good volunteer because I am reliable, hardworking, and friendly. In my job, I work to tight deadlines and speak with all kinds of people every day; as a result, I can be trusted to carry out jobs safely and treat older residents with kindness and patience. In addition, I hold a full clean driving licence and have my own car, so I can easily carry heavy shopping bags and travel around our area whenever help is needed. I also have practical gardening experience, including planting flowers, cutting hedges, and fixing wooden benches. [Personal Strengths] [Semicolon ;] [Driving Licence & Car]

To encourage more people to get involved, I suggest sharing short video clips on social media showing volunteers and local residents talking about their experiences. In addition, running flexible weekend sessions would attract working people and college students who cannot help during normal working hours. Offering volunteer certificates would also encourage young people who want practical experience for their CVs. I would be very happy to meet for a quick chat whenever suits you to discuss how I can help.

Course: Level 2 Professional Skills | Student: Jordan Bennett [Form Details]

Name .....

I am writing to share feedback on the Level 2 Professional Skills course that I recently completed. Overall, my experience on the course was very positive and engaging. The tutors are friendly, supportive, and always give clear feedback that helps students understand what they are doing well and how to improve. In particular, having evening classes allowed me to fit studying around family life and work without getting overwhelmed. The online course website and downloadable resources were also very easy to use. [Course Overview] [Tutor Support]

To make the course even better for future students, I would like to suggest two practical ideas. Firstly, adding more real-life workplace tasks would help link classroom lessons directly to everyday jobs. For example, looking at real workplace problems and working in small groups on shared tasks would give learners practical problem-solving experience, building their confidence for work. [Development 1] [Workplace Tasks]

Secondly, running weekly live question-and-answer sessions would give extra support to learners who find difficult topics tricky. Setting up an online study forum where learners can ask questions and discuss assignments together would also help everyone feel supported. Overall, the course offers great value, and with these small improvements, it will continue to help learners reach their goals.
