MASTER FUNCTIONAL SKILLS

ONLINE LEARNING PLATFORM & ACCREDITED COURSES

Pearson Edexcel & Open Awards Accredited Suite · Entry 3, Level 1 & Level 2

Pass Your Functional Skills Exams With Confidence

100% Pass Guarantee | Dyslexia-Friendly Learning | 1-to-1 Expert Tutor Support

Master Functional Skills provides an adaptive, dyslexia-friendly online learning platform tailored for adult learners, apprentices, and healthcare & vocational staff. Everything you need to revise, practice, and pass is at your fingertips.

1. Smart Diagnostic Initial Assessment

Calculate your exact working level and pinpoint knowledge gaps instantly

- **Exact Grade Calculation:** Adaptive assessments calculate your exact level across all topics.
- **Personalised Study Pathway:** Skip what you know; focus 100% on the topics needed to pass.
- **Real-Time Exam Readiness:** Predictive tracker confirms when you are 100% ready to book.

2. Comprehensive Video Lessons & Worked Solutions

Bite-sized visual explainers covering every single Maths & English curriculum standard

- **Step-by-Step Video Lessons:** Master percentages, algebra, perimeter, ratio, and reverse fractions.
- **Multi-Ink Handwriting Models:** Visual 3-colour methods showing working, carries, and examiner tips.
- **Tutor Shortcuts & Golden Rules:** Proven non-calculator mental arithmetic hacks and BIDMAS tricks.

3. Full Mock Exams & Real-Time Performance Analytics

Practice in exam conditions and watch your scores and confidence climb

- **Authentic Exam Papers:** Timed Section A & Section B papers formatted exactly like Pearson Edexcel.
- **Instant Topic Breakdown:** View percentage scores across Number, Measure/Shape, and Data.
- **Historical Score Tracking:** Monitor past attempts to ensure continuous improvement before exam day.

Ready to Master Your Functional Skills & Pass First Time?

Join thousands of healthcare staff, apprentices, and adult learners across the UK.

Instant 24/7 access on desktop, tablet, and mobile with no software to install.

Caravan

Caravan pitch

Some people have a holiday in a caravan.

They take their caravan to a caravan park.

Caravan

When you take a caravan to a caravan park you pay fees.

The fees are for

renting the pitch for the caravan

using the park's electricity supply.

The table shows the fees at Clover Meadow Caravan Park.

	Fee per night
Pitch fee	£27
Using electricity	£2

Caravanners Society

The Caravanners Society owns Clover Meadow Caravan Park.

You pay £49 per caravan per year for membership of the Caravanners Society.

Members get a discount on the total fees per night.

Loan repayments

When you borrow money you usually pay back more than you borrow.

The extra amount that you pay back is called **interest**.

You can borrow money from a loan company to help buy a caravan.

This table shows the monthly repayments.

	Amount of repayment per month				
Amount of loan	**For 12 months**	**For 24 months**	**For 36 months**	**For 48 months**	**For 60 months**
£5000	£457	£248	£179	£144	£123
£10 000	£913	£497	£358	£288	£247
£15 000	£1370	£745	£537	£433	£370

Example

You borrow £15 000 from the loan company and pay back over 36 months.

Monthly repayment = £537

Total amount repaid = 36 × £537

= £19 332

In total, you pay back £19 332

Amount of interest paid = £19 332 – £15 000

= £4332

You pay £4332 **interest**.

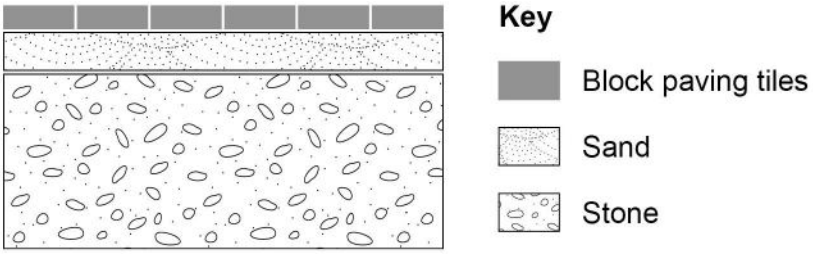

Block paving

Driveways are often covered with block paving.

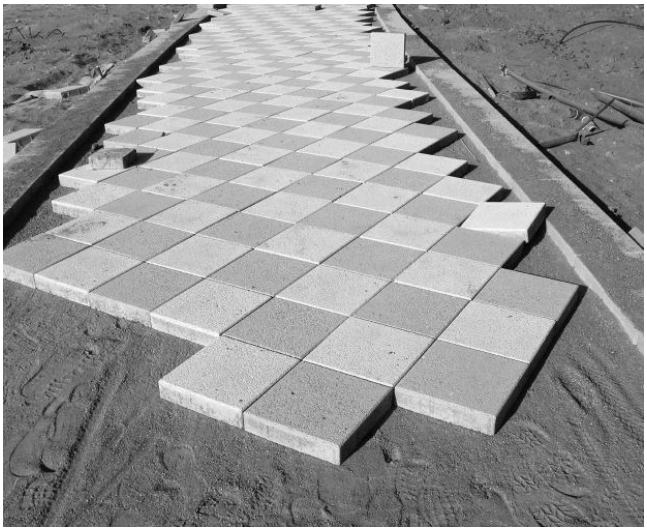

Block paving is built on a foundation.

The foundation usually has a layer of stone and a layer of sand.

To build block paving

- mark the area to be paved
- dig a hole for the foundation
- put a layer of stone into the hole
- put a layer of sand on top of the stone
- cover the sand with block paving tiles.

The foundation

Material has to be removed to make a hole for the foundation.

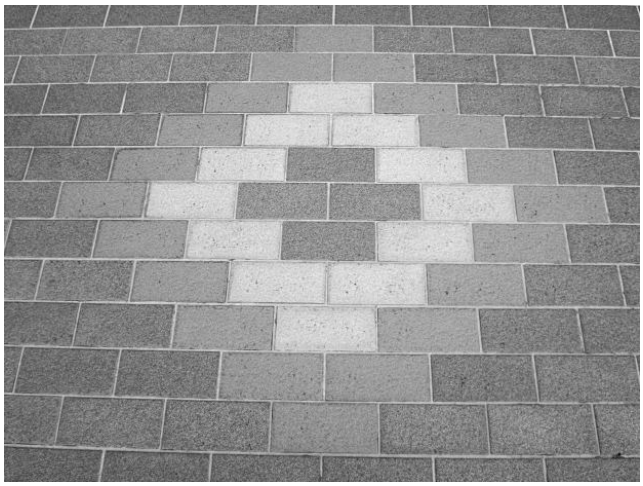

Use these steps to work out the amount of material to remove from a rectangular area.

Step 1	Work out	length in metres × width in metres
Step 2	Work out	answer to **Step 1** × depth of foundation in millimetres
Step 3	Work out	answer to **Step 2** ÷ 1000

The answer to **Step 3** is the amount of material to remove in cubic metres.

Patterns in block paving

Different coloured tiles can be used to make patterns in block paving.

Answer **all** questions in the spaces provided.

Do not write outside the box

1 **Caravan**

There is a **data sheet** for Caravan.

Jane and Paul

Jane and Paul decide to buy this caravan.

Caravan for sale
£16 200

†1 (a) They sell their old caravan for £4500

They will use this £4500 to pay some of the cost of the new caravan.

Work out how much **more** money they need to pay for the new caravan.

[2 marks]

Check your answer.

Show how you have done your check.

[1 mark]

Do not write outside the box

1 (b) Jane and Paul want to borrow money to pay some of the rest of the cost of the caravan.

A loan company offers these loans.

	Amount of repayment per month				
Amount of loan	**For 12 months**	**For 24 months**	**For 36 months**	**For 48 months**	**For 60 months**
£5000	£457	£248	£179	£144	£123
£10 000	£913	£497	£358	£288	£247
£15 000	£1370	£745	£537	£433	£370

They borrow £10 000 to be paid back over 48 months.

Work out the total **interest** they will pay.

[3 marks]

1 (c) Jane and Paul pay £49 to join the Caravanners Society.

They get a discount of £9 per night at any Caravanners Society park.

Work out the smallest number of nights they must stay so that the total discount is **more than** £49

[2 marks]

Do not write outside the box

Jane and Paul book a holiday at Clover Meadow Caravan Park in Wales.

1 (d) Paul is planning their journey.

They will set off at 1.30 pm

The journey is 160 miles.

They will travel 40 miles each hour.

They will stop for a break for 45 minutes during the journey.

Paul says,

"We should be at the caravan park **before** 6 pm"

Is he correct?
You **must** show your working.

[4 marks]

Do not write outside the box

1 (e) Paul makes these notes about the costs of the holiday.

Petrol	Journey to Wales and back	£68
	Using the car in Wales	£35
Caravan park	Stay 7 nights	
	Pitch fee	£27 per night
	Using electricity	£2 per night
	Discount	£9 per night

Paul says,

"The total cost should be **less than** £250"

Is he correct?

You **must** show your working.

[5 marks]

2 **Block paving**

There is a **data sheet** for Block paving.

Tom's company builds driveways.

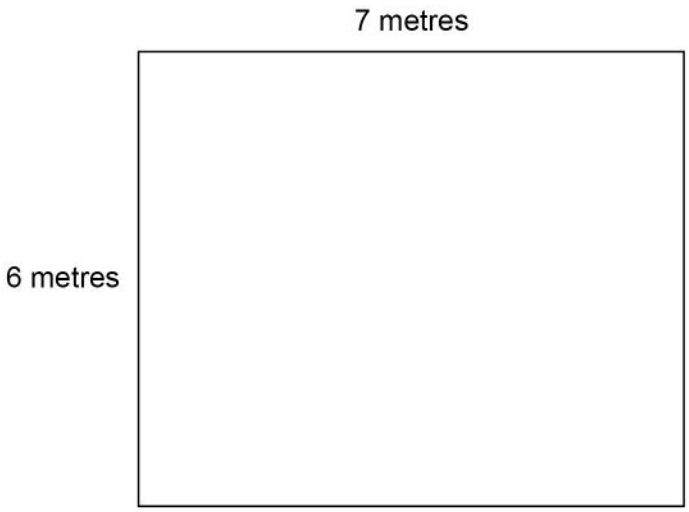

Q2 Worked Solution:
× 7 or 14
+ 35 + their 126 + their 14
– (68 + 35 + their 126 + their 14)
and Yes
[M1] [A1] [A2]

I plan and build block paving.

Tom

Here is a sketch of a rectangular driveway.

Not drawn accurately

Tom is going to build this driveway using block paving.

Do not write outside the box

2 (a) Tom has to remove material to make a hole for the foundation.

The depth of the foundation is 300 millimetres.

Work out the amount of material, in cubic metres, he has to remove.
Use the steps on the data sheet.

[4 marks]

2 (b) The usual cost of stone is £80 per cubic metre.

Tom gets a discount of 10%

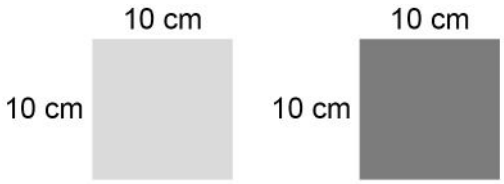

He orders 4 cubic metres of stone.

Work out the total amount of **discount** Tom gets.

[3 marks]

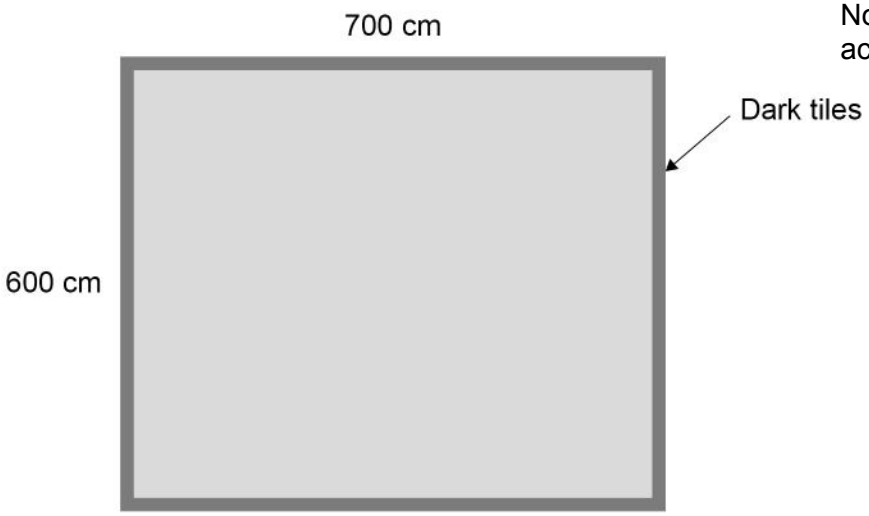

Do not write outside the box

Tom is going to cover the driveway using light tiles and dark tiles.

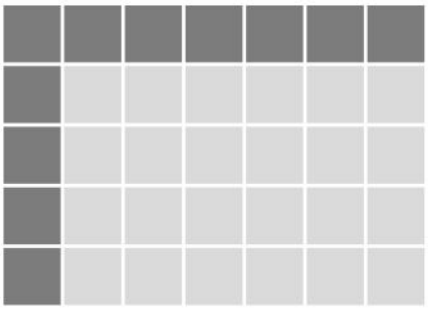

Not drawn accurately

He first puts dark tiles along the edges of the driveway.

Not drawn accurately

This diagram shows how the tiles are arranged at a corner of the driveway.

Not drawn accurately

Do not write outside the box

2 (c) Work out the total number of dark tiles needed for the edges of the driveway.

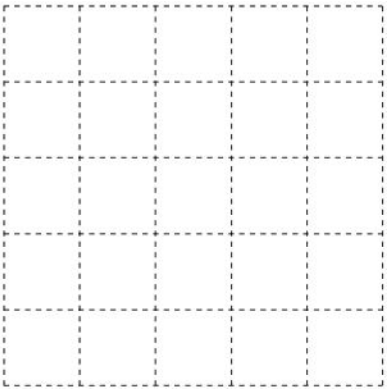

[4 marks]

2 (d) Tom is designing a pattern of square tiles for part of the driveway.
He wants to put 8 dark tiles into this grid.

Shade 8 tiles so that the grid has exactly **two** lines of symmetry.

[2 marks]

Practise on this grid.

Put your answer on this grid.

13

Do not write outside the box

3 Flower shop

Anaya makes and sells bouquets of flowers in her flower shop.

Q3 Worked Solution:
× 35 or 105
and 2.(6)
÷ 50 and 130 ÷ 60
and 2.(1..)
[M1] [M1]

Anaya

Bouquet of flowers

Anaya makes bouquets using roses, lilies and carnations.

The table shows the number of each type of flower in a standard bouquet.

Roses	Lilies	Carnations
4	5	11

3 (a) What percentage of the 20 flowers in a standard bouquet are lilies?
Circle your answer.

[1 mark]

4% 5% 25% 33%

Do not write outside the box

3 (b) Anaya makes some standard bouquets and 3 luxury bouquets.

She uses 24 roses with lilies and carnations to make the standard bouquets.

She sells

the 3 luxury bouquets for £35 each

all of the standard bouquets for £22 each.

Anaya says,

"I have sold these bouquets for a total of **more than** £250"

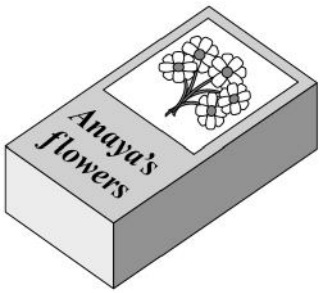

Is she correct?

You **must** show your working.

[6 marks]

Do not write outside the box

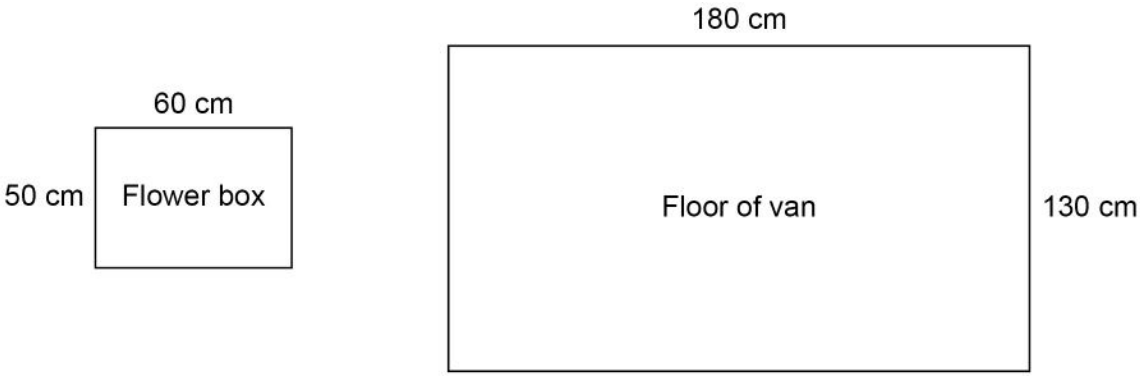

3 (c) Anaya packs the bouquets in boxes for delivery in her van.

The base of each box is a 60 cm by 50 cm rectangle.

The floor of the van is a 180 cm by 130 cm rectangle.

Not drawn accurately

Work out the maximum number of boxes that will fit on the floor of the van.

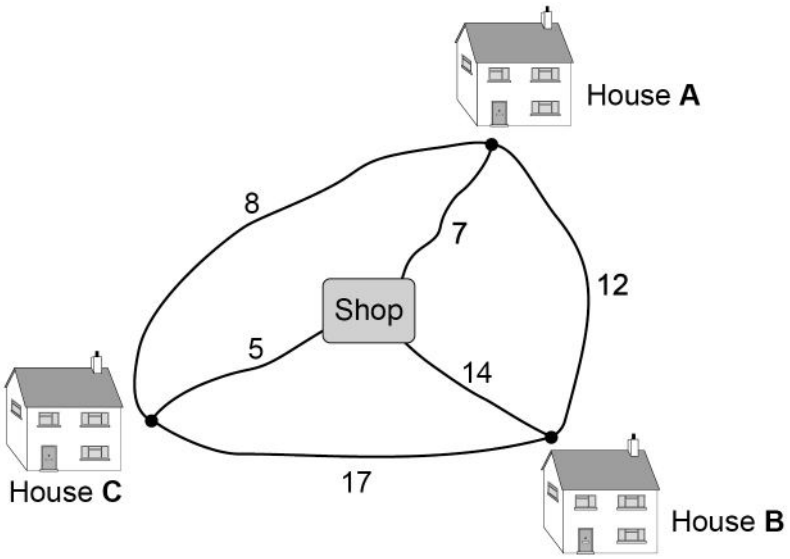

[4 marks]

Do not write outside the box

3 (d) Anaya sets off from her shop to deliver flowers to three houses, A, B and C.

This diagram shows distances in miles.

Not drawn accurately

Anaya wants to

- start and finish at her shop
- visit each house once only
- take the shortest route.

Work out a possible route **and** the total distance she drives.

[5 marks]

4 Telephone operator

Lizzie is a telephone operator.

Q4(a) Worked Solution:
Alternative method 1
(0)8.12
(0)8.20
(0)8.49
(0)8.56 and Yes
or 11 mins (left) to do 7 min walk and Yes
Yes
4 mins and Yes
[M1] [M1] [M1] [A1] [A2] [SC2]

Lizzie lives in Oxford.

She works in Bicester.

Here is part of the bus timetable from Oxford to Bicester.

Oxford	0655	0720	0740	0805	0820	0825	0840
Summertown	0702	0727	0748	0812	0828	0833	0848
Gosford	0711	0736	0757	0821	0837	0842	0857
Park & Ride	0721	0746	0807	0831	0847	0852	0907
Bicester	0723	0748	0809	0833	0849	0854	0909

4 (a) How much time does the 0740 bus take to travel from Oxford to Bicester?
Circle your answer.

[1 mark]

8 minutes 28 minutes 29 minutes 60 minutes

Do not write outside the box

4 (b) To get to work, Lizzie

walks from home to the bus stop in Oxford in 12 minutes

gets the bus from Oxford to Bicester

walks from the bus stop in Bicester to work in 7 minutes.

Lizzie leaves home at 8 o'clock.

She says,

"I should get to work **before** 9 o'clock."

Is she correct?

You **must** show your working.

[5 marks]

Question 4 continues on the next page

Do not write outside the box

4 (d) Lizzie has this target for her calls.

The mean time per call should be less than 8 **minutes**

Here are the times, in **seconds**, for 10 of her calls.

453	399	504	483	411	312	90	843	471	534

Has she met her target with these 10 calls?
You **must** show your working.

[5 marks]
