MASTER FUNCTIONAL SKILLS

ONLINE LEARNING PLATFORM & ACCREDITED COURSES

Pearson Edexcel & Open Awards Accredited Suite · Entry 3, Level 1 & Level 2

Pass Your Functional Skills Exams With Confidence

100% Pass Guarantee | Dyslexia-Friendly Learning | 1-to-1 Expert Tutor Support

Master Functional Skills provides an adaptive, dyslexia-friendly online learning platform tailored for adult learners, apprentices, and healthcare & vocational staff. Everything you need to revise, practice, and pass is at your fingertips.

1. Smart Diagnostic Initial Assessment

Calculate your exact working level and pinpoint knowledge gaps instantly

- **Exact Grade Calculation:** Adaptive assessments calculate your exact level across all topics.
- **Personalised Study Pathway:** Skip what you know; focus 100% on the topics needed to pass.
- **Real-Time Exam Readiness:** Predictive tracker confirms when you are 100% ready to book.

2. Comprehensive Video Lessons & Worked Solutions

Bite-sized visual explainers covering every single Maths & English curriculum standard

- **Step-by-Step Video Lessons:** Master percentages, algebra, perimeter, ratio, and reverse fractions.
- **Multi-Ink Handwriting Models:** Visual 3-colour methods showing working, carries, and examiner tips.
- **Tutor Shortcuts & Golden Rules:** Proven non-calculator mental arithmetic hacks and BIDMAS tricks.

3. Full Mock Exams & Real-Time Performance Analytics

Practice in exam conditions and watch your scores and confidence climb

- **Authentic Exam Papers:** Timed Section A & Section B papers formatted exactly like Pearson Edexcel.
- **Instant Topic Breakdown:** View percentage scores across Number, Measure/Shape, and Data.
- **Historical Score Tracking:** Monitor past attempts to ensure continuous improvement before exam day.

Activity 2: Community nurse

2 (a) Asmita is a community nurse.

Each week she runs a drop-in clinic where people can have a check-up. People arrive at the clinic and wait until it is their turn to be seen.

At one clinic Asmita asks each person to estimate how many minutes they have had to wait.

Q2(a) Worked Solution:

The results are shown below.

3 or more non-overlapping class intervals

2	15	18	32	37	8	25	13
31	32	3	5	6	7	4	12
12	14	11	35	28	11	8	12

(e.g. 0-9,10-19, 20-29, 30-39 – see table below)

Use this template to create a grouped frequency table for this data.

[4 marks]

Frequencies total 24
Frequencies correct
Suitable headings for table
[4 marks]
Tip: Allow intervals of different sizes

Please turn over

Examiner use only

2 (b) At the next clinic, the time that each person arrives is recorded.

Asmita also writes down the times that each person's check-up begins and ends.

She uses this information to draw a graph.

Q2(b) Worked Solution:

1

40

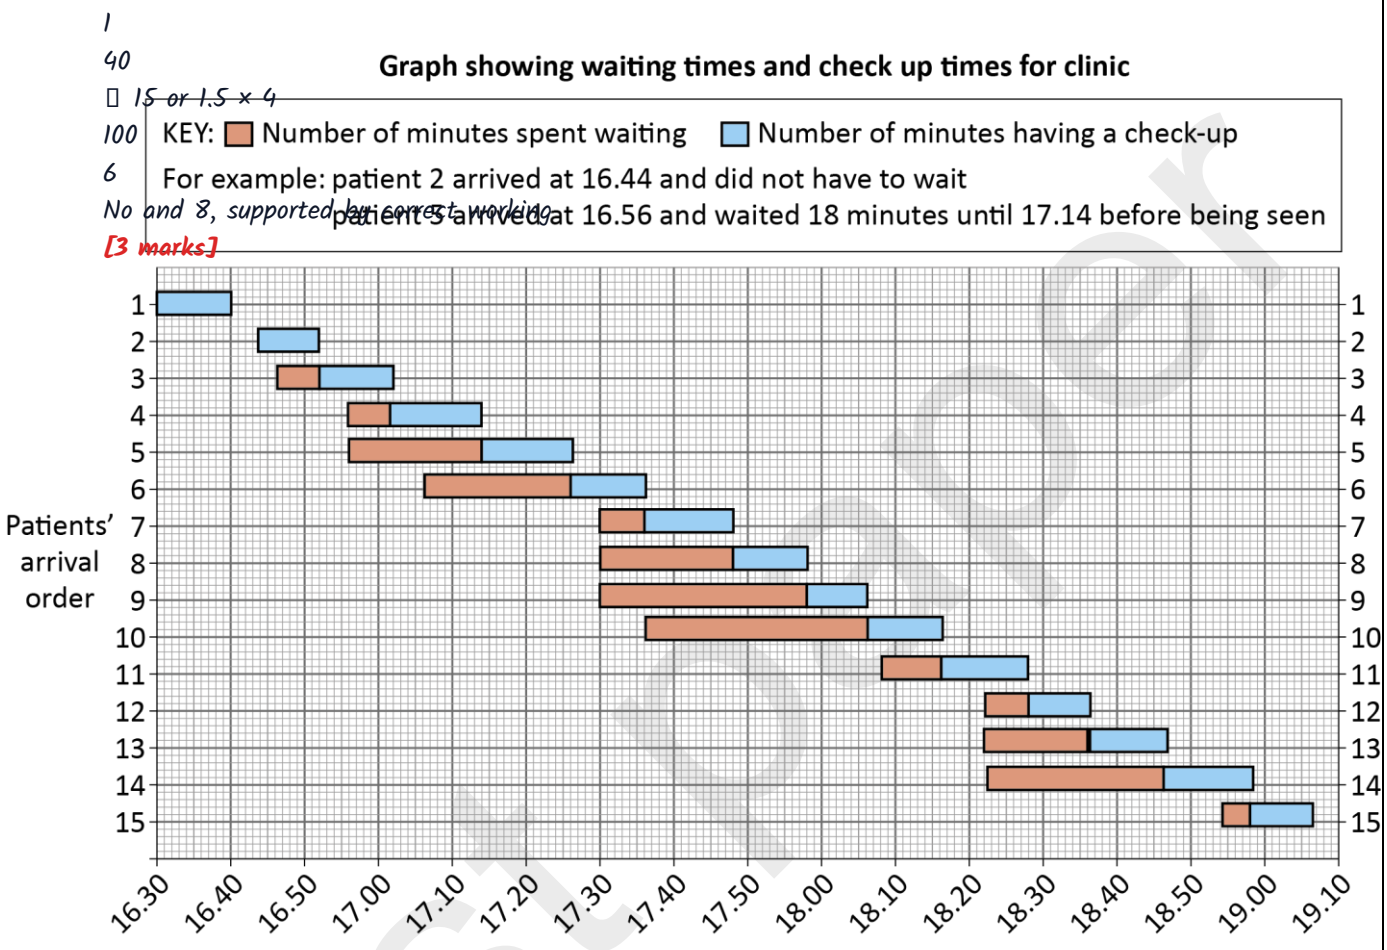

□ 15 or 1.5 × 4

100

6

No and 8, supported by correct working

[3 marks]

past paper

Examiner use only

Asmita says,

"40% of people either waited no time or waited less than 10 minutes before the start of their check-up."

Is Asmita correct?

Show your working.

[3 marks]

Your answer:

2 (c) Asmita does home visits.

She drives from Skegness to Candlesby to visit one of her patients.

Asmita has a map with scale 1 cm : 2 km

Q2(c) Worked Solution:

The distance on the map between Skegness and Candlesby is 6.5 cm

13 and (£)3.64 in table

Asmita can claim 28p per kilometre for fuel.

Complete the travel expense form below for Asmita's **one-way** journey from Skegness to Candlesby.

[3 marks]

13 (km) in table

Your answer:

their 13 × 28 or 364

Journey	Distance (km)	Pence per km	Total (£)
Skegness to Candlesby		28	

or their 13 × 0.28 or 3.64

[3 marks]

Tip: Award 3 marks if correct answer given

2 (d) Asmita parks her car on the road in Candlesby.

The car is facing north west.

When she has finished the visit, Asmita turns her car round ready to drive south east.

Q2(d) Worked Solution:

Through how many degrees has the car turned?

180 (°)

[1 mark]

[1 mark]

Your answer: °

2 (e) Asmita is concerned about how much fuel she is using.

The manufacturer says that the car has:

- a 52-litre fuel tank
- fuel consumption of 17 km per litre.

Q2(e) Worked Solution:

1 Asmita finds that she uses one full tank of fuel to drive 800 km

Is Asmita's fuel consumption as good as the manufacturer claims?

Show how you decide.

800 ÷ 52 or 15.38(...) or 15.4
or 52 × 17 or 884
15 or 15.38(...) or 15.4 or 884
and no
[2 marks]
Tip: Award 2 marks if correct answer given

2 (f) Asmita puts 40.2 litres of fuel in her car.

The fuel costs 130.1 pence per litre.

She is charged £52.70 for the fuel.

Q2(f) Worked Solution:

By rounding **litres of fuel** and **cost per litre** to the nearest whole numbers, show how Asmita could check that she has been charged about the right amount.

[2 marks]

40 × 130 (=5200)
52 or 5270 or (£) 52.70 seen

Activity 3: French flag

3 (a) Tomas is an apprentice gardener.
He is asked to make a flowerbed to look like the French flag.

The flowerbed is a rectangle 225 cm long and 150 cm wide.

Tomas is going to put paving round the perimeter of the flowerbed.

Calculate the perimeter of the flowerbed in metres.

[2 marks]

Q3(a) Worked Solution:

Full method & answer verified against official NCFE mark scheme.

[Method & Accuracy]

Your answer: **m**

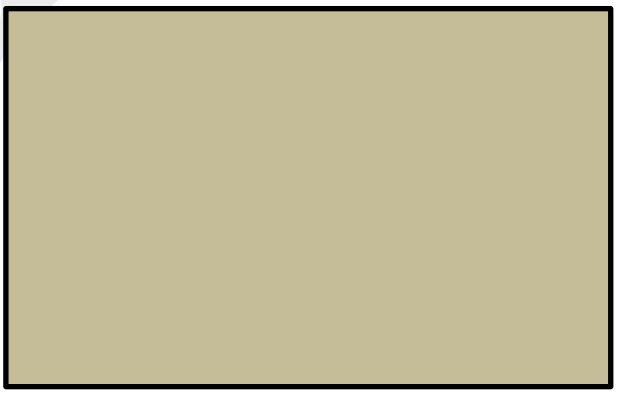

3 (b) Draw in all the lines of symmetry on the flowerbed.

3 (c) Tomas will use red, white and blue flowers to make the flowerbed look like the French flag.

Q3(c) Worked Solution:
Full method & answer verified against official NCFE mark scheme.
[Method & Accuracy]

- The flowerbed is a 225 cm by 150 cm rectangle.
- The 3 stripes need to be of equal width.
- Tomas needs one plant for every 12 cm^2 of flowerbed.

How many red plants will Tomas need?

[4 marks]

Your answer:

past paper

Examiner use only

3 (d) Tomas's manager is ordering plants for a different project.

The table shows the costs per tray for different colours.

Flower colour	Cost per tray
Blue	£42.98
Red	£31.56
White	£33.98
Yellow	£42.99
Pink	£35.75
Purple	£28.50

Q3(d) Worked Solution:

Calculate the mean cost per tray.

Full method & answer verified against official NCFE mark scheme.

[2 marks]

[Method & Accuracy]

Your answer: **£**

past paper

Activity 4: World hunger

4 (a) The world population is about 7726.5 million.

About one in nine people in the world experience extreme hunger.

Use this information to estimate how many millions of people in the world experience extreme hunger.

Give your answer to the nearest million.

[2 marks]

Q4(a) Worked Solution:

1

7726.5 ÷ 9 or 7726 500 000 ÷ 9

859 (million)

[2 marks]

Your answer: **million**

Examiner use only

4 (b) When people are starving, aid organisations have to decide quickly who to help first.

One method they use is to measure, in mm, the distance round each person's mid upper arm.

These are the mid upper arm measurements of 20 people.

Q4(b) Worked Solution:

39

170	172	158	175	156
154	162	151	172	186
158	173	190	174	169
178	175	157	188	189

[1 mark]

What is the range of the measurements?

[1 mark]

Your answer:

4 (c) What is the probability that one of these people chosen at random has a mid upper arm measurement of less than 160 mm?

Give your answer as a decimal.

[2 marks]

Q4(c) Worked Solution:

0.3

6 3

or

20 10

[2 marks]

Tip: Award 2 marks if correct answer given

Your answer:

past paper

Examiner use only

4 (d) Another method aid organisations use is to calculate Body Mass Index (BMI).

To find the BMI:

Step 1: calculate height × height

Step 2: divide weight by your answer to Step 1

Q4(d) Worked Solution:

25 Height must be in metres and weight in kilograms.

Calculate the BMI for a person who has:

- weight 64 kg
- height 1.60 m

1.60 × 1.60 or 2.56

64 ÷ their 2.56

[3 marks]

[3 marks]

Tip: Award 3 marks if correct answer given

[3 marks]

Your answer:

4 (e) An aid charity finds that:

20% of the people in village A are malnourished.
15% of the people in village B are malnourished.

Village A has a population of 300
Village B has a population of 440

Which village has the higher number of people who are malnourished?

Show how you decide.

[2 marks]

Q4(e) Worked Solution:

9
0.2 × 300 or (300 ÷ 10) × 2 or 60
440 440 □□ 1 □
or 0.15 × 440 or or 66
+ □ □
□ □
10 10 2
60 and 66 and Village B
[2 marks]

Your answer:

4 (f) A newspaper reports that the UK wastes one million tons of food each year which could be used to feed hungry people.

Write one million in figures.

[1 mark]

Q4(f) Worked Solution:

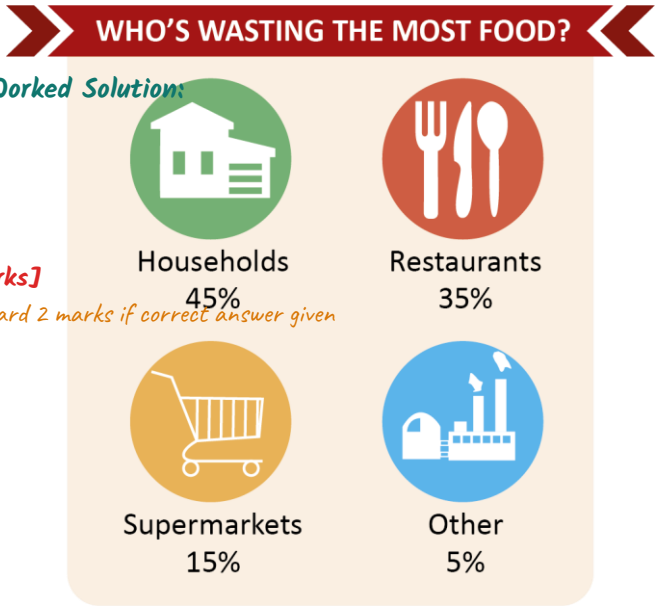

1 000 000
[1 mark]
Tip: Do not allow full stops/decimal points.

Your answer:

past paper
