MASTER FUNCTIONAL SKILLS

ONLINE LEARNING PLATFORM & ACCREDITED COURSES

Pearson Edexcel & Open Awards Accredited Suite · Entry 3, Level 1 & Level 2

Pass Your Functional Skills Exams With Confidence

100% Pass Guarantee | Dyslexia-Friendly Learning | 1-to-1 Expert Tutor Support

Master Functional Skills provides an adaptive, dyslexia-friendly online learning platform tailored for adult learners, apprentices, and healthcare & vocational staff. Everything you need to revise, practice, and pass is at your fingertips.

1. Smart Diagnostic Initial Assessment

Calculate your exact working level and pinpoint knowledge gaps instantly

- **Exact Grade Calculation:** Adaptive assessments calculate your exact level across all topics.
- **Personalised Study Pathway:** Skip what you know; focus 100% on the topics needed to pass.
- **Real-Time Exam Readiness:** Predictive tracker confirms when you are 100% ready to book.

2. Comprehensive Video Lessons & Worked Solutions

Bite-sized visual explainers covering every single Maths & English curriculum standard

- **Step-by-Step Video Lessons:** Master percentages, algebra, perimeter, ratio, and reverse fractions.
- **Multi-Ink Handwriting Models:** Visual 3-colour methods showing working, carries, and examiner tips.
- **Tutor Shortcuts & Golden Rules:** Proven non-calculator mental arithmetic hacks and BIDMAS tricks.

3. Full Mock Exams & Real-Time Performance Analytics

Practice in exam conditions and watch your scores and confidence climb

- **Authentic Exam Papers:** Timed Section A & Section B papers formatted exactly like Pearson Edexcel.
- **Instant Topic Breakdown:** View percentage scores across Number, Measure/Shape, and Data.
- **Historical Score Tracking:** Monitor past attempts to ensure continuous improvement before exam day.

Activity 2: Police workshop

2 (a) Alice lives in Oldcastle.

She is on a Community Policing course.

The ratio of solved to unsolved crimes in Oldcastle is 2 : 9

$\frac{1}{8}$ of crimes are solved in the whole of the UK.

Alice thinks that a greater proportion of crimes are solved in Oldcastle than in the rest of the UK.

Is she correct?

Show how you decide.

[3 marks]

Q2(a) Worked Solution:

3 (e) Some people donate to CHAD by giving a one-off donation.

The table below shows the one-off donations made last year:

Q3(e) Worked Solution:
36 and 50 AND no

Size of one-off donation (£d)	Number of donors
0 < d ≤ 20	48
20 < d ≤ 40	146
40 < d ≤ 60	74
60 < d ≤ 80	32
Total:	**300**

(10 × 48) + (30 × 146) + (50 × 74) + (70 × 32)
or 480 + 4380 + 3700 + 2240

Other people donate by paying regular amounts.

Last year, CHAD had 150 of these regular donors who donated £7500 in total.

Sam works out an estimate for the mean of the one-off donations last year.

He compares this with the mean for regular donors last year.

Sam says,

"The mean amount donated last year was higher for the one-off donors than for the regular donors".

4 (b) Emma also buys cars.

Bill wants to sell his old car.

The car is 3 years old and in good condition.

Emma uses a formula to work out the price that she will pay for Bill's car:

Q4(b) Worked Solution:
(0.75)3

$$P = 12\,000 \times C \times (0.75)^T$$

Where:

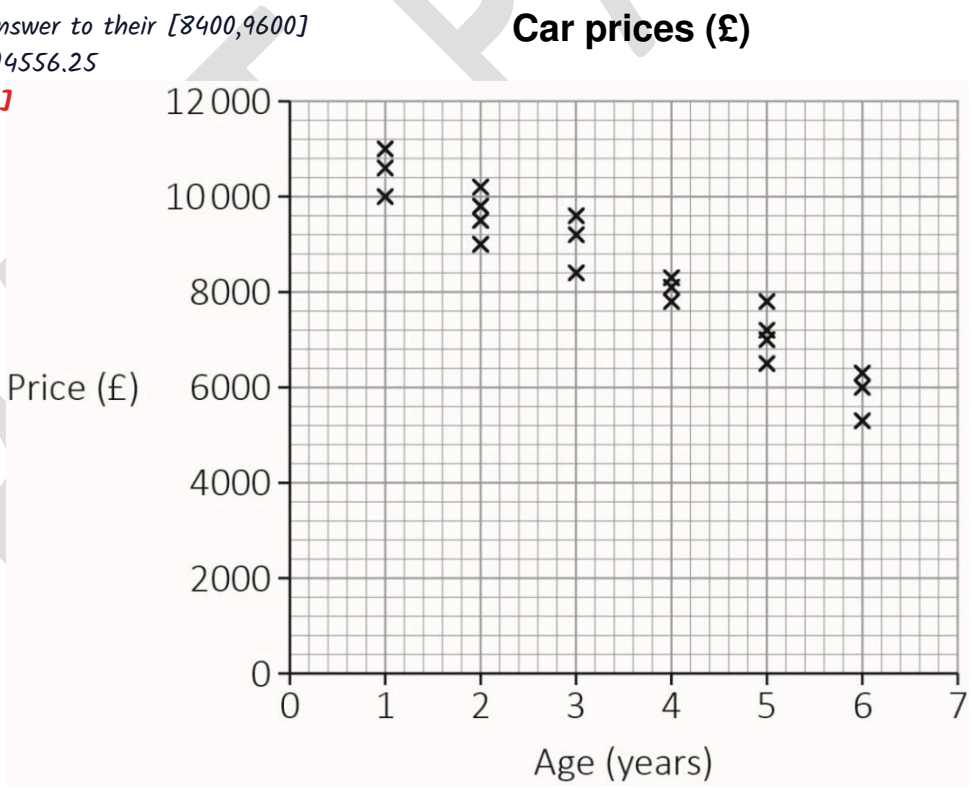

12 000 × 0.9 ×
4556.25
[8400,9600]
–

P is the price the she will pay (in £)
T is the age of the car (in years)
C is the condition of the used car, according to this table:

Condition	C
Good	0.9
Average	0.7
Poor	0.5

The scatter diagram below shows the prices paid online for the same model of car in good condition:

correct answer to their [8400,9600]
their (£)4556.25
[4 marks]

PAPER

Examiner use only

How much more would Bill expect to get if he sells his car online instead of selling to Emma?

[4 marks]

Your answer: **£**

PAST PAPER

4 (c) Bill sees a new car he likes.

The car's fuel consumption is 16 **km** per litre.

Bill drives a total of 45 **miles** each day.

Fuel costs 136.9 pence per litre.

Q4(c) Worked Solution:

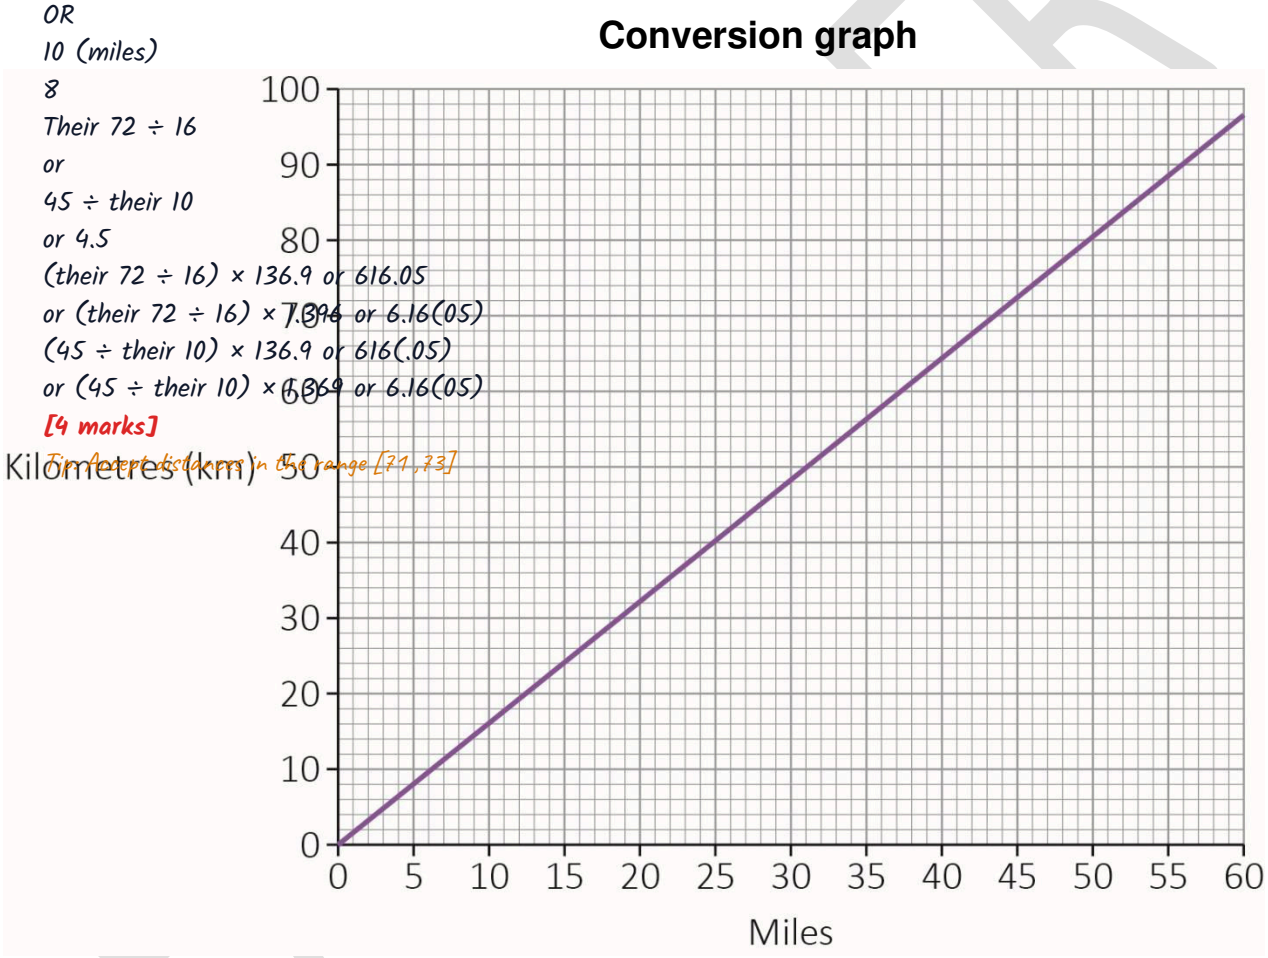

Work out the total cost of fuel Bill would use each day in this car.

Give your answer in pounds and to the nearest penny.

[4 marks]

Use this conversion graph to help you:

72 (km)
OR
10 (miles)
8
Their 72 ÷ 16
or
45 ÷ their 10
or 4.5
(their 72 ÷ 16) × 136.9 or 616.05
or (their 72 ÷ 16) × 7.696 or 6.16(05)
(45 ÷ their 10) × 136.9 or 616(.05)
or (45 ÷ their 10) × 13.69 or 6.16(05)
[4 marks]
Tip: Accept distances in the range [71, 73]
