Functional Skills Level 1 MATHEMATICS

Paper 1 Non-Calculator

Time allowed: 30 minutes

Materials

For this paper you must have:
- mathematical instruments.

You must **not** use a calculator.

Instructions
- Use black ink or black ball-point pen. Draw diagrams in pencil.
- Answer **all** questions.
- You must answer the questions in the spaces provided. Do not write outside the box around each page or on blank pages.
- If you need extra space for your answer(s), use the lined pages at the end of this book. Write the question number against your answer(s).
- Do all rough work in this book. Cross through any work you do not want to be marked.

MASTER FUNCTIONAL SKILLS

ONLINE LEARNING PLATFORM & ACCREDITED COURSES

Pearson Edexcel & Open Awards Accredited Suite · Entry 3, Level 1 & Level 2

Pass Your Functional Skills Exams With Confidence

100% Pass Guarantee | Dyslexia-Friendly Learning | 1-to-1 Expert Tutor Support

Master Functional Skills provides an adaptive, dyslexia-friendly online learning platform tailored for adult learners, apprentices, and NHS healthcare staff. Everything you need to revise, practice, and pass is at your fingertips.

1. Smart Diagnostic Initial Assessment

Calculate your exact working level and pinpoint knowledge gaps instantly

- **Exact Grade Calculation:** Adaptive assessments calculate your exact level across all topics.
- **Personalised Study Pathway:** Skip what you know; focus 100% on the topics needed to pass.
- **Real-Time Exam Readiness:** Predictive tracker confirms when you are 100% ready to book.

2. Comprehensive Video Lessons & Worked Solutions

Bite-sized visual explainers covering every single Maths & English curriculum standard

- **Step-by-Step Video Lessons:** Master percentages, algebra, perimeter, ratio, and reverse fractions.
- **Multi-Ink Handwriting Models:** Visual 3-colour methods showing working, carries, and examiner tips.
- **Tutor Shortcuts & Golden Rules:** Proven non-calculator mental arithmetic hacks and BIDMAS tricks.

3. Full Mock Exams & Real-Time Performance Analytics

Practice in exam conditions and watch your scores and confidence climb

- **Authentic Exam Papers:** Timed Section A & Section B papers formatted exactly like Pearson Edexcel.
- **Instant Topic Breakdown:** View percentage scores across Number, Measure/Shape, and Data.
- **Historical Score Tracking:** Monitor past attempts to ensure continuous improvement before exam day.

Ready to Master Your Functional Skills & Pass First Time?

Join thousands of healthcare staff, apprentices, and adult learners across the UK.

Instant 24/7 access on desktop, tablet, and mobile with no software to install.

Do not write outside the box

Section A

Answer **all** questions in the spaces provided.

1 Circle the value of 8^2

[1 mark]

64 16 10 4

2 A fair, ordinary dice is rolled.

What is the probability of rolling an **even** number?

Circle your answer.

[1 mark]

$\frac{1}{6}$ $\frac{2}{6}$ $\frac{3}{6}$ $\frac{5}{6}$

3 Work out $15 - (6 - 2)$

[1 mark]

$15 - 4 = 11$

Answer 11

Do not write outside the box

4 By rounding 2.97 to the nearest whole number, estimate the answer to

45×2.97

[2 marks]

45 x 3 = 135

Answer 135

5 Complete the table to show equivalent fractions, decimals and percentages.

[3 marks]

Fraction	Decimal	Percentage
$\frac{1}{4}$	0.25	25%
$\frac{2}{5}$	0·4	40%
$\frac{3}{10}$	0.3	30%

8

Turn over for the next question

Do not write outside the box

Section B

Answer **all** questions in the spaces provided.

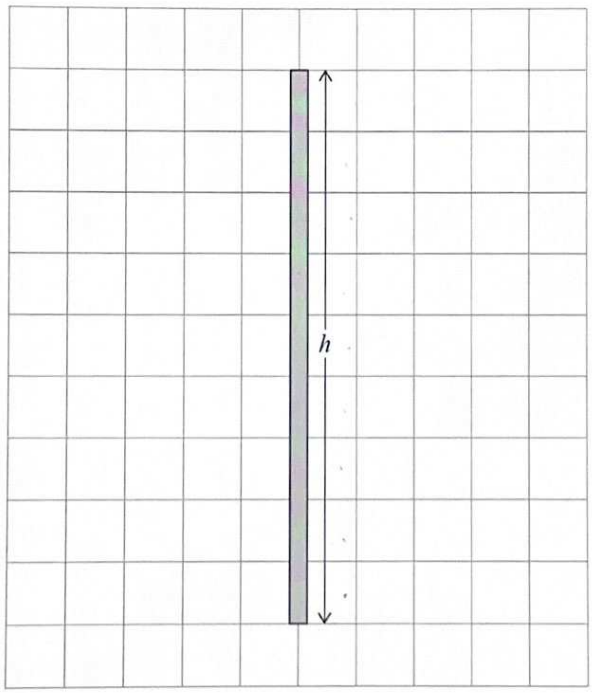

6 **Flags**

Evie collects flags and flies them from her flagpole.

6 (a) Here is a scale drawing, on a centimetre grid, of the side elevation of her flagpole.

Scale: 1 centimetre represents 0.5 metres

Is the height, h, of the flagpole **more than** 4 metres?

You **must** show your working.

[3 marks]

$9 \times 0.5 = 4.5$ metres.

Yes the flagpole is more than 4 metres

Do not write outside the box

6 (b) Evie has drawn a pictogram to show the types of flag in her collection.

Key: ▭ represents 2 flags

Patterned	▭▭▭
Animal	▭▭▭▭▭▭
National	▭▭▭▭▭▭▭▭
Plain	▭▭

Evie says,

"**Less than** one third of my flags are national flags."

Is Evie correct?

You **must** show your working.

[5 marks]

national flags = 7.5 x 2 = 15 flags

Total flags = (3x2) + (5.5x2) + 15 + (2x2)

= 6 + 11 + 15 + 4 = 36

fraction of national flags = $15/36 = 5/12$

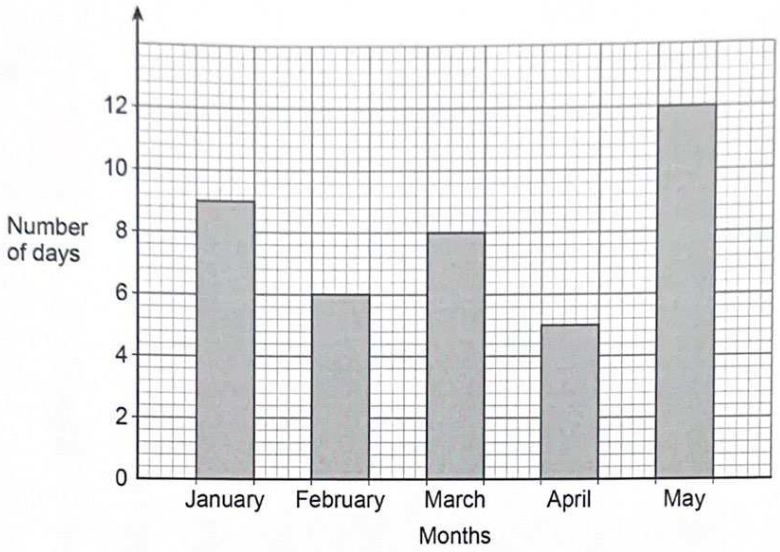

$1/3 = 4/12 < 5/12$

Evie is incorrect $5/12$ of her flags are national flags.

Do not write outside the box

6 (c) Evie flies flags on special days.

The bar chart shows the number of special days in the months January to May.

In the previous 5 months the mean number of special days per month was 7

Show that the mean is **greater** for the 5 months shown on the bar chart.

[4 marks]

9 + 6 + 8 + 5 + 12 = 40

40 ÷ 5 = 8

The mean for the 5 months on the bar chart is 8, which is greater than 7.

12

Do not write outside the box

Section A

Answer **all** questions in the spaces provided.

1

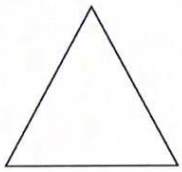

Which angle measures 30° ?

[1 mark]

Answer C

2 How many lines of symmetry does the equilateral triangle have?

[1 mark]

Circle your answer.

1 2 3 6

Do not write outside the box

3 Write in words 91 072

[1 mark]

Ninety-one thousand and Seventy-two

4 One card is chosen at random from these eight number cards.

4	3	1	5	1	0	2	4

Write down the probability that the number on the card is **less than** 2

[1 mark]

Answer $\frac{3}{8}$

5 Put the following decimals in order, starting with the **largest**.

[2 marks]

0.219 0.25 0.2 0.206

Answer 0·25 , 0·219 , 0·206 , 0·2

Do not write outside the box

6 Round 9.3583 to 2 decimal places

[1 mark]

Answer 9.36

7 Increase £126.80 by 15%

[3 marks]

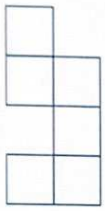

126·80 × 1·15 = £145·82

Answer £ 145·82

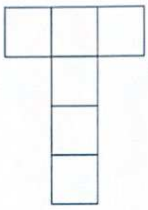

Do not write outside the box

8 Complete the table for the diagrams below. **[2 marks]**

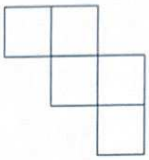

A

B

C

Description	Diagram letter
Net of a cube-shaped box with a lid	B
Net of a cube-shaped box without a lid	C

12

Turn over for the next section

Do not write outside the box

Section B

Answer **all** questions in the spaces provided.

9 **Soup**

Ross makes and sells soup.

9 (a) Ross is making carrot soup.

Here is the recipe.

Carrot soup

makes 2 litres

1.2 kg of carrots

1.4 litres of water

3 onions

Ross wants to make 3 litres of soup.

He already has 500 g of carrots.

Carrots are sold in 750 g packs.

How many packs of carrots does he need to buy?

You **must** show your working.

[5 marks]

$3 \div 2 = 1.5$

$1.2 \times 1.5 = 1.8$ kg of carrots needed

$1.8\text{ kg} - 0.5\text{ kg} = 1.3$ kg

$1.3 \div 0.75 = 1.73\ldots$

So 2 packs of carrots are needed

Answer 2

Do not write outside the box

9 (b) Ross has a container in the shape of a cuboid.

Here are the dimensions of the container.

length	width	height
23 cm	15 cm	11 cm

Ross says,

"The container is large enough to hold the 3 litres of carrot soup."

Is Ross correct?

You **must** show your working.

1 litre = 1000 cm^3

[3 marks]

3 litres = 3000 cm^3

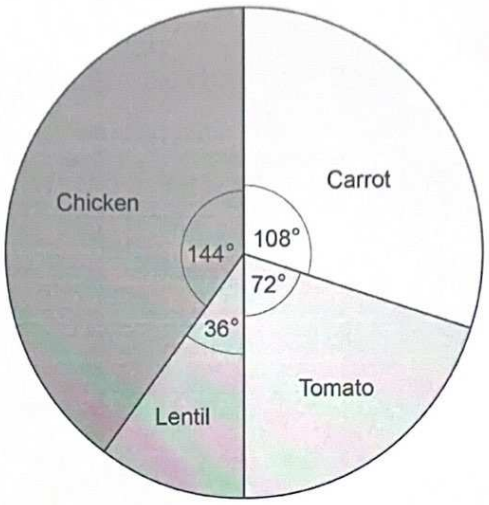

Volume = $23 \times 15 \times 11 = 3795\ cm^3$

Yes Ross is correct.

Question 9 continues on the next page

Do not write outside the box

9 (c) Ross draws a pie chart to represent the soup he sold one week.

Ross sold 8 litres of **lentil** soup that week.

He sold the **chicken** soup for £3.49 per litre.

How much did he receive that week from selling **chicken** soup?

[4 marks]

$36 \div 8 = 4.5°$ (for 1 litre)

$144 \div 4.5 = 32$ lbes of chicken soup

$32 \times £3.49 = £111.68$

Answer £ 111.68

12

Do not write outside the box

10 **Flooring**

Nikki wants to sand and varnish the wooden floors in her house.

10 (a) Nikki wants to hire a sanding tool for 3 days.

She sees adverts for sanding tool hire at two companies.

Tool hire depot	**EZ hire company**
£16 per day	£15 per day
3 days or more, 20% off the total cost	Hire for 3 days, 3rd day half price

Which company has the cheaper hire cost for 3 days?

You **must** show your working.

[6 marks]

Tool hire depot

(16 x 3) x 0·8 = £38·40

EZ hire company

15 x 2 = 30

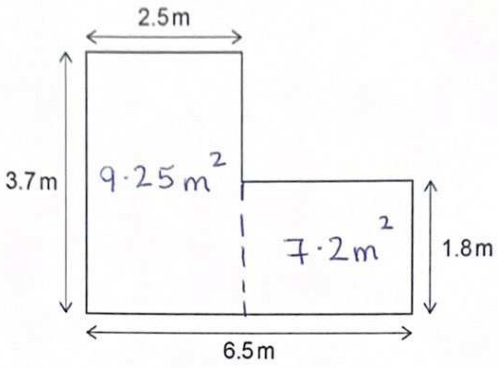

15 x 0·5 = 7·5

Total = £30 + £7·50 = £37·50

EZ hire company is cheaper.

Do not write outside the box

10 (b) The diagram shows a floor Nikki is going to varnish.

Not drawn accurately

Nikki needs 500 ml of varnish for each square metre of floor.

How much varnish does she need for this floor?

[5 marks]

$3.7 \times 2.5 = 9.25\text{m}^2$

$(6.5 - 2.5) \times 1.8 = 7.2\text{m}^2$

Total area $= 9.25 + 7.2 = 16.45\text{m}^2$

Varnish $= 500 \times 16.45 = 8225\text{ml}$

Answer 8225 ml

Do not write outside the box

10 (c) Nikki will take

- 45 minutes to sand the floor
- 20 minutes to clean the floor
- $1\frac{1}{2}$ hours to varnish the floor.

Nikki starts to sand the floor at 10.15 am

Will she have finished the work by 1 pm?

You **must** show your working.

[3 marks]

Total time = 45 + 20 + 90 = 155 minutes

= 2 hours 35 minutes

10:15 am + 2hrs 35 mins = 12:50 am

Yes Nikki will be finished before 1 pm.

14

Turn over for the next question

Do not write outside the box

11 **Garden Centre**

Zola works for a garden centre.

11 (a) Zola asks 20 of the customers how many times they have visited in the past year.

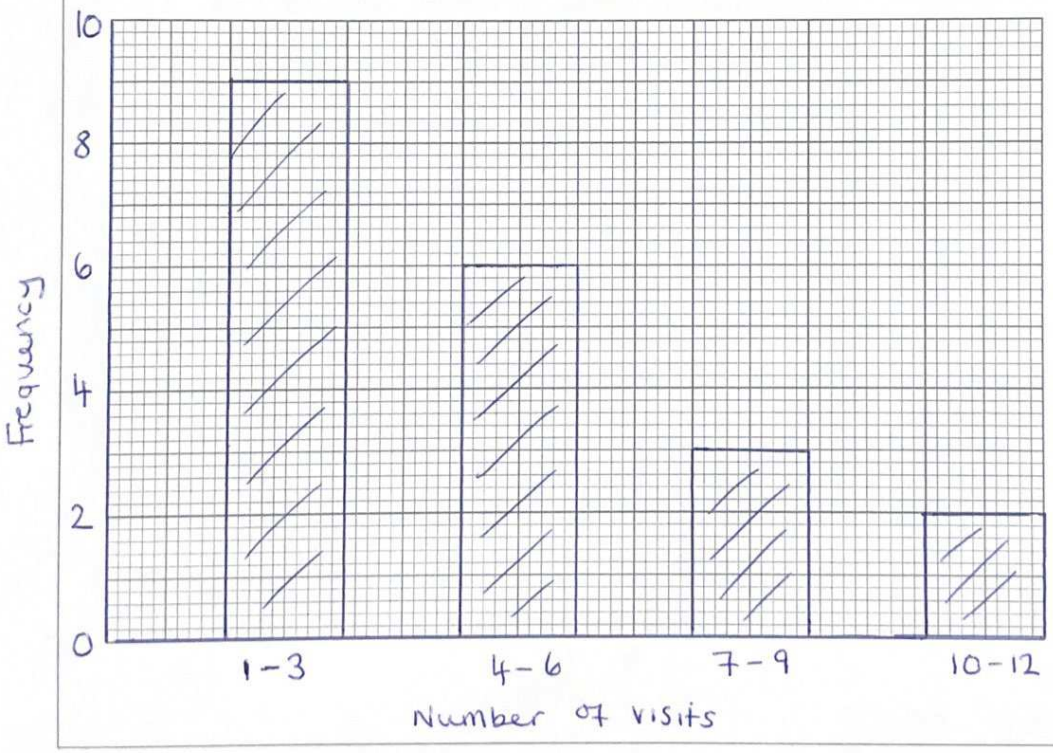

She records the results in a tally chart.

The tally chart is shown, but four of the cells have not been filled in.

Number of visits	Tally	Frequency
1–3	𝍸 ||||	9
4–6	𝍸 |	6
7–9	|||	3
10–12	||	2
		Total = 20

Draw a suitable diagram to represent the number of visits to the garden centre.

[6 marks]

Do not write outside the box

11 (b) Zola buys plants for her own garden.

She pays staff discount prices for the plants.

The table shows information about the plants she buys.

Plants	Normal price	Staff discount price
A rose bush	£19.95	£8.50
A pack of tulip bulbs	£10.50	£6.99
A lavender plant	£4.30	£2.50
A fruit tree	£48	£22.50

Zola says,

"The total cost with the discount prices is **less than** half of the total cost with the normal prices."

Is she correct?

You **must** show your working.

[4 marks]

Total of normal price = 19·95+10·50+4·30+48

= £82·75

Total staff discount = 8·50+6·99+2·50+22·50

= £40·49

$\frac{40·49}{82·75}$ = 0·489... < 0·5

Zola is correct.

10

Do not write outside the box

12 Electric Car

Kofi wants to buy an electric car.

12 (a) Kofi can buy the car using **Option A** or **Option B**.

Option A	**Option B**
One payment of £32549	Pay 10% of £32549 and 48 monthly payments of £638

In total, how much **more** would **Option B** cost than **Option A**?

[5 marks]

option B: 10% of 32549 = 32549 × 0·1

= £3254·90

48 × 638 = £30624

↳ total = 3254·90 + 30624 = £33878·90

difference = 33878·90 − 32549 = £1329·90

Answer £ 1329·90

Do not write outside the box

12 (b) Kofi asks an electrician to install a charging point outside his house for his car.

The electrician works out the cost of installation using this formula.

Cost of installation = Price of parts + £52.50 × Number of hours worked

The price of the parts is £794.85

Here are the hours the electrician worked.

Monday	9 am to 1 pm
Tuesday	3 pm to 5 pm

In total, how much is the cost of the installation?

[3 marks]

hours worked = 4 + 2 = 6

6 × £52·50 = £315

Total cost = 794·85 + 315 = £1109·85

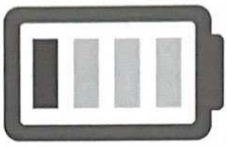

Answer £ 1109·85

Do not write outside the box

12 (c) Kofi buys the car.

The battery in the car can hold 80 kWh of energy.

One morning the battery is $\frac{1}{4}$ full.

The car uses 1 kWh of energy to travel 3.2 miles.

Kofi's work is 28 miles from his home by car.

Is there enough energy left in the battery for Kofi to drive to work **and back**?

You **must** show your working.

[4 marks]

$80 \div 4 = 20$ kwh

$20 \times 3 \cdot 2 = 64$ miles of charge

$28 \times 2 = 56$ miles to work and back.

Yes there is enough energy in the battery.
