MASTER FUNCTIONAL SKILLS

ONLINE LEARNING PLATFORM & ACCREDITED COURSES

Pearson Edexcel & Open Awards Accredited Suite · Entry 3, Level 1 & Level 2

Pass Your Functional Skills Exams With Confidence

100% Pass Guarantee | Dyslexia-Friendly Learning | 1-to-1 Expert Tutor Support

Master Functional Skills provides an adaptive, dyslexia-friendly online learning platform tailored for adult learners, apprentices, and NHS healthcare staff. Everything you need to revise, practice, and pass is at your fingertips.

1. Smart Diagnostic Initial Assessment

Calculate your exact working level and pinpoint knowledge gaps instantly

- **Exact Grade Calculation:** Adaptive assessments calculate your exact level across all topics.
- **Personalised Study Pathway:** Skip what you know; focus 100% on the topics needed to pass.
- **Real-Time Exam Readiness:** Predictive tracker confirms when you are 100% ready to book.

2. Comprehensive Video Lessons & Worked Solutions

Bite-sized visual explainers covering every single Maths & English curriculum standard

- **Step-by-Step Video Lessons:** Master percentages, algebra, perimeter, ratio, and reverse fractions.
- **Multi-Ink Handwriting Models:** Visual 3-colour methods showing working, carries, and examiner tips.
- **Tutor Shortcuts & Golden Rules:** Proven non-calculator mental arithmetic hacks and BIDMAS tricks.

3. Full Mock Exams & Real-Time Performance Analytics

Practice in exam conditions and watch your scores and confidence climb

- **Authentic Exam Papers:** Timed Section A & Section B papers formatted exactly like Pearson Edexcel.
- **Instant Topic Breakdown:** View percentage scores across Number, Measure/Shape, and Data.
- **Historical Score Tracking:** Monitor past attempts to ensure continuous improvement before exam day.

Ready to Master Your Functional Skills & Pass First Time?

Join thousands of healthcare staff, apprentices, and adult learners across the UK.

Instant 24/7 access on desktop, tablet, and mobile with no software to install.

Activity 1: Motorcycle racing

1 (a) Damon is a motorcycle racer.
He takes part in two races over a weekend.

4650 spectators watched the race on Saturday.
This number increased by 2% on Sunday.

Increase 4650 by 2%

[2 marks]

multiplier 1.02

4650 x 1.02 = 4743

```
  4650.00
x    1.02
-------
  93'00
+4650.00
-------
 4743.00
```

Your answer:	4743

Examiner use

1 (b) In the race on Saturday each lap was 2.678 miles long.
1 km = 0.6214 miles

Round **each** of these two figures to 1 decimal place.

Use these values to estimate the length of the lap in km

[3 marks]

$2.678 \approx 2.7$ to 1 decimal place

$0.6214 \approx 0.6$ to 1 decimal place

$\frac{2.7}{0.6} = 4.5\text{km}$

~~0.6 2.7~~

0.6	1
1.2	2
1.8	3
2.4	4
+0.3	½

Your answer: 4.5 **km**

1 (c) Damon and Ralphie each complete 7 laps in the race on Sunday.

The median lap time for Damon is 1 minute and 17.924 seconds.
This is shown as 1:17.924

The range of the lap times for Damon is 4.812 seconds.

The table below shows the lap times for Ralphie.

Lap	1	2	3	4	5	6	7
Time (minutes: seconds)	1:21.467	1:19.148	1:17.986	1:16.008	1:16.810	1:17.841	1:18.462

Calculate the median **and** the range of times for Ralphie.
Use these values to make **two** comparisons between the two racers.

[4 marks]

1:16.008, 1:16.810, 1:17.841, 1:17.986, 1:18.462,
1:19.148, 1:21.467

median

Range = biggest - smallest
= 21.467 - 16.008
= 5.459

$$\begin{array}{r} {}^{1}\not{2}\,{}^{5}\not{1}.4\not{6}{}^{1}7 \\ -\,16.008 \\ \hline 05.459 \end{array}$$

Your answer:

Median = 1:17.986

Range = 5.459

Damon's lap times were more consistent as his range was smaller.

The median lap of Damon's race was faster than that of Ralphie's.

Please turn over

Examiner

1 (d) Damon drives along a straight part of the track at an average speed of 126 miles per **hour**.
He completes this in 47.5 **seconds**.

Work out the length of the straight part of the track in miles.

[3 marks]

$126 \div (60 \times 60) = 0.035$ miles per second.

3600 seconds in an hour

$$3600 \overline{)\,126.000} = 0.035$$

distance = speed x time

$= 0.035 \times 47.5$

$= 1.6625$ miles

Your answer: 1.6625 **miles**

1 (e) Damon is paid by 3 companies to advertise their brands on his race suit.

$\frac{2}{3}$ of the adverts are for Company A.

$\frac{1}{7}$ of the adverts are for Company B.

The rest of the adverts are for Company C.

What fraction of the adverts are for Company C?

[2 marks]

$\frac{2}{3} + \frac{1}{7} = \frac{14}{21} + \frac{3}{21}$

$= \frac{17}{21}$

$1 - \frac{17}{21} = \frac{4}{21}$

Your answer:	$\frac{4}{21}$

For use only

Examiner us

1 (f) 1 540 806 people followed Damon on social media last year.

This number increased by 674 957 people this year.

Work out 1 540 806 + 674 957

[1 mark]

$$\begin{array}{r} 1\,540\,806 \\ +\quad 674\,957 \\ \hline 2'2'1\,5'7\,6'3 \end{array}$$

Your answer: 2215763

[Total marks: 15]

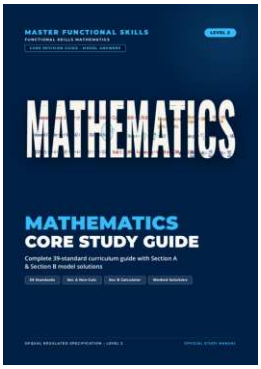

This is the end of Section A.

MASTER FUNCTIONAL SKILLS STORE

OFFICIAL REVISION GUIDES, WORKBOOKS & FLASHCARDS

Written by accredited specialist tutors to match the exact 2026 Pearson Edexcel standards

Everything You Need To Revise, Practice & Pass Your Maths Level 2 Exam
