MASTER FUNCTIONAL SKILLS

FUNCTIONAL SKILLS MATHEMATICS

CORE REVISION GUIDE • MODEL ANSWERS

LEVEL 2

MATHEMATICS
CORE STUDY GUIDE

Complete 39-standard curriculum guide with Section A & Section B model solutions

39 Standards | Sec A Non-Calc | Sec B Calculator | Worked Solutions

OFQUAL REGULATED SPECIFICATION • LEVEL 2

OFFICIAL STUDY MANUAL

MATHS LEVEL 2

Maths Level 2 Core Study Guide

All 39 Level 2 standards • Big diagrams • Real-life problems • Full worked answers.

This book belongs to:	Exam date:	Target level:
_____	_____	_____

What is inside

1	Number: percentages, fractions, ratio	3
2	Measure, shape & space	28
3	Handling data: charts, averages, probability	52
M	Mock exam (Section A & B)	76
✓	Answers & mark scheme	82

How to use this book

📖 Read
Read the rule. Study the picture.

✎ Try
Write your answers on the lines.

✓ Check
Mark it with the answers at the back.

★ Remember
Learn the Golden Rule by heart.

4

NUMBER • STANDARD N7

Percentages of Amounts

A 30% off sale: how much do you really save?

£24	£24	£24	£24	£24	£24	£24	£24	£24	£24

£240 in 10 equal parts → each part (10%) = £24

30% = 3 parts = 3 × £24 = £72

★ The 10% method

- **10%**: divide by 10
- **5%**: halve the 10%
- **1%**: divide by 100
- Add the parts you need

✎ Worked Example

A £240 coat is 30% off. Find the sale price.

1. 10% of £240 = £24
2. 30% = 3 × £24 = £72
3. £240 − £72 = **£168**

✓ Golden Rule

Always find **10%** first. Build everything else from it.

! Watch Out!

Is the question asking for the **saving** or the **new price**?

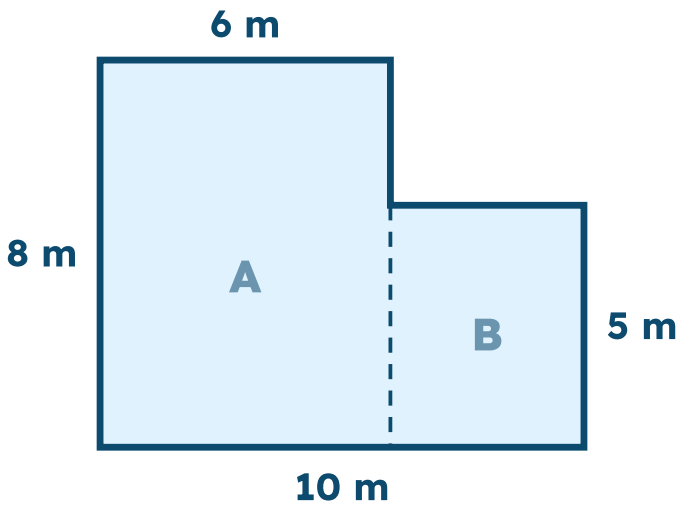

15

MEASURE & SHAPE • STANDARD M12

Area of Compound Shapes

Flooring is sold by the m².

An L-shaped room

Split it into rectangles

Area of a rectangle = length × width. Split the shape into rectangles **A** and **B**. Find each area, then **add**.

Worked Example

Find the area of the L-shaped room.

1. Missing sides: 10 − 4 = 6 m and 8 − 3 = 5 m
2. A: 6 × 8 = 48 m² B: 4 × 5 = 20 m²
3. Total: 48 + 20 = **68 m²**

Golden Rule

Area is always in **square** units: m², cm².

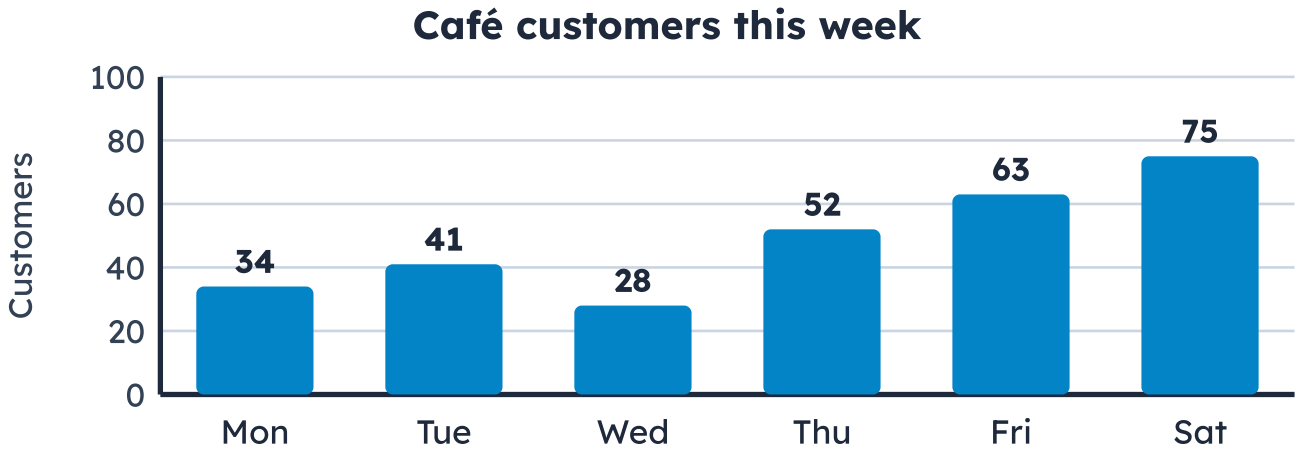

Watch Out!

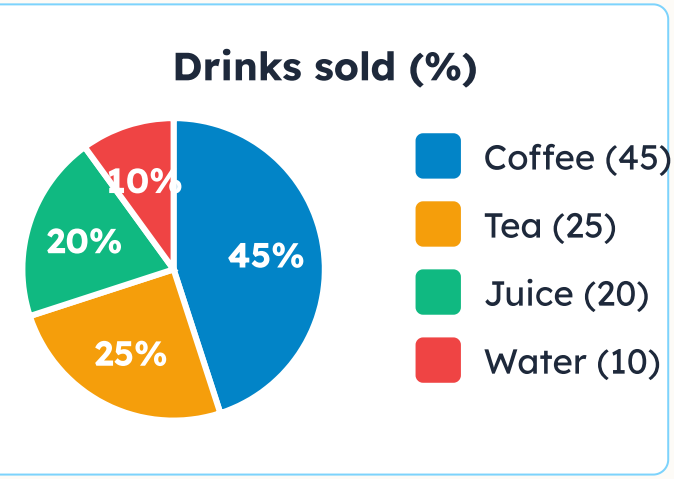

Don't add the side lengths – that gives the **perimeter**, not the area.

28

HANDLING DATA • STANDARD D3

Bar Charts & Pie Charts

Worked Example

How many more customers came on Saturday than Wednesday?

1. Sat = 75, Wed = 28
2. 75 − 28 = **47**

A café owner uses charts to decide how many staff to book.

Golden Rule

Check the **scale** first: what is one gridline worth?

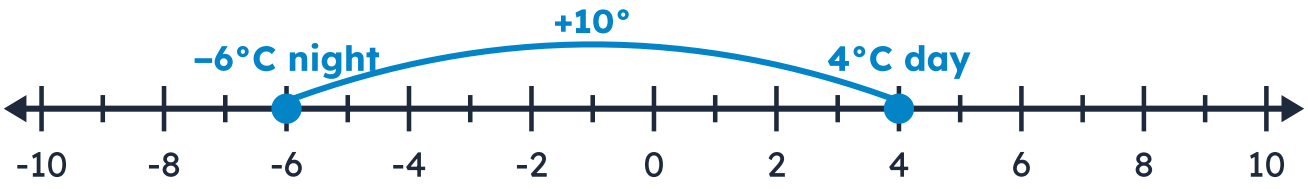

Watch Out!

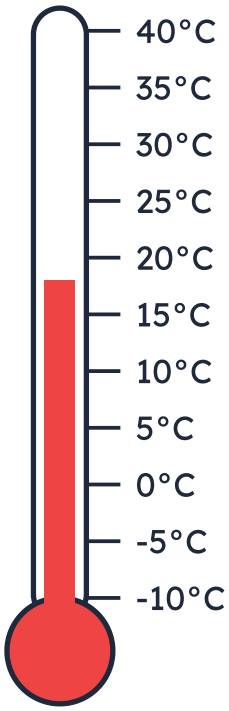

A pie chart shows **shares**, not totals.

18

MEASURE • STANDARDS M3–M5

Scales, Time & Temperature

Reads 18°C

2:45 – quarter to three

★ Read any scale

- Find two labelled marks
- Count the gaps
- Work out what **one gap** is worth

✎ Worked Example

At night it was –6°C. At midday it was 4°C. How much did it rise?

1. –6 up to 0 = 6 degrees, then 0 up to 4 = 4 degrees
2. 6 + 4 = **10°C**

P

PRACTICE PAGE • SECTION A (NO CALCULATOR)

Practice: Mixed Problems

1 A sofa costs **£650**. In a sale it is **20% off**. Find the sale price. **(2 marks)**

Show your working

Answer: _____

2 A garden is a rectangle **12 m** long and **7.5 m** wide. Turf costs **£4.20 per m²**. How much will it cost to turf the whole garden? **(3 marks)**

Show your working

Answer: _____

3 The temperature at 6 am was **−4°C**. At 3 pm it was **9°C**. How much did it rise? **(1 mark)**

Show your working

Answer: _____

4 Sam earns **£1,850** a month. He spends **35%** on rent. How much is left after rent? **(2 marks)**

Show your working

Answer: _____

5 A recipe for 4 people uses **300 g** of rice. How much rice is needed for **10** people? **(2 marks)**

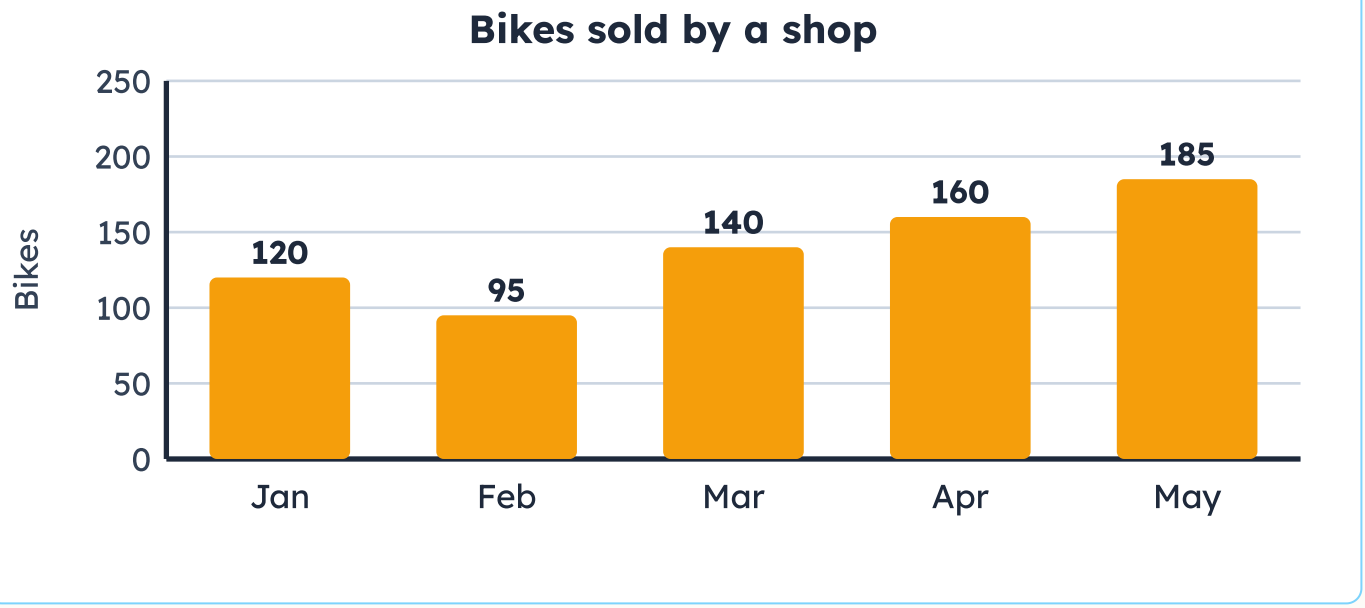

Show your working

Answer: _____

P

PRACTICE PAGE • SECTION B (CALCULATOR)

Practice: Charts & Data

1 How many bikes were sold altogether from January to May? **(2 marks)**

Show your working

Answer: _____

2 What is the **mean** number of bikes sold per month? **(2 marks)**

Show your working

Answer: _____

3 Sales in June were **15% more** than in May. How many bikes were sold in June? **(3 marks)**

Show your working

Answer: _____

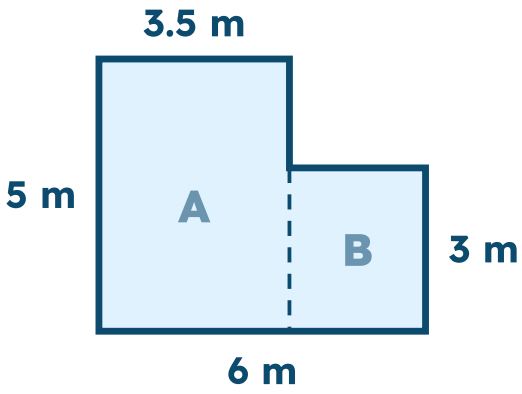

M

SECTION B • CALCULATOR ALLOWED • 6 MARKS

Mock Exam • Question 1

Aisha is fitting a new floor in her L-shaped kitchen (diagram). Flooring comes in **packs that cover 2.5 m²** and cost **£32.99** each. She needs **10% extra** for cutting.

(a) How many packs must she buy? **(b)** What is the total cost?

✎ **Show all your working. Check your answer.**

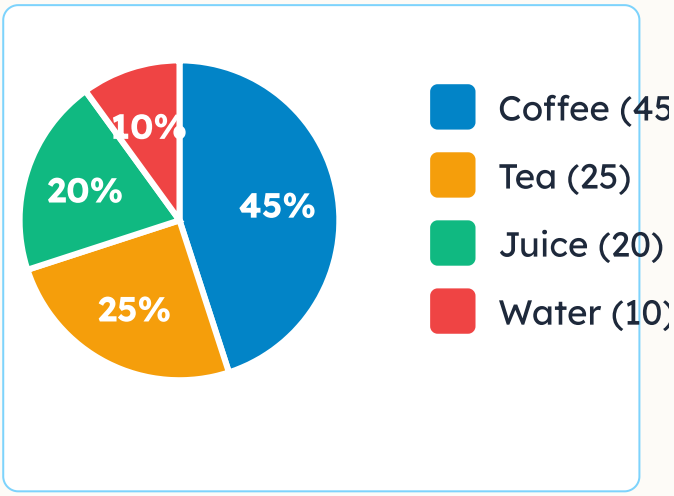

M

SECTION B • CALCULATOR ALLOWED • 5 MARKS

Mock Exam • Question 2

A café sold **480** drinks on Saturday. The pie chart shows the types of drink sold.

(a) How many coffees were sold?
(b) The owner says 'We sold more than 100 juices.' Is she right? Show how you decide.

✎ **Show all your working.**

CHECK YOUR WORK

Answers & Mark Scheme

Percentages (p3)

15% of £60: 10% = £6, 5% = £3 → **£9**

Practice 1

1. £650 − £130 = **£520**
2. 12 × 7.5 = 90 m²; 90 × £4.20 = **£378**
3. −4 to 9 = **13°C**
4. 35% of £1,850 = £647.50; left = **£1,202.50**
5. 300 ÷ 4 = 75 g per person; 75 × 10 = **750 g**

Practice 2

1. 120+95+140+160+185 = **700 bikes**
2. 700 ÷ 5 = **140**
3. 185 × 1.15 = 212.75 → **213 bikes**

Mock Q1

Area = (3.5 × 5) + (2.5 × 3) = 17.5 + 7.5 = 25 m². Add 10%: 27.5 m². 27.5 ÷ 2.5 = 11 packs. Cost = 11 × £32.99 = **£362.89**.

Mock Q2

(a) 45% of 480 = **216** coffees. (b) 20% of 480 = 96 juices. 96 < 100, so **she is wrong**.

Mark scheme codes

M1 method • **A1** accurate answer • **C1** clear conclusion. Always show working – method marks are given even if the final answer is wrong.

✎ My corrections – what will I do differently next time?

Everything you need to pass Functional Skills Maths Level 2

The definitive preparation manual for candidates aiming for a pass at Level 2 (GCSE 4/C Equivalent). Master non-calculator mental arithmetic, multi-step compound calculations, fractions, decimals, percentages, perimeter, area, volume, scatter graphs, and probability.

INSIDE THIS PUBLICATION

- ✓ **All 39 Curriculum Standards:** Exhaustive coverage of Number, Measure & Shape, and Handling Data mapped to Pearson Edexcel and City & Guilds.
- ✓ **Section A Non-Calculator Strategy:** Fast-track mental arithmetic, grid multiplication, long division, and fraction manipulations.
- ✓ **Section B Multi-Step Problems:** Stepped breakdowns of 4-to-6 mark complex workplace scenarios showing exact method mark allocation.
- ✓ **Official Examiner Trap Alerts:** Highlighting frequent calculation blunders, unit omission errors, and rounding pitfalls.
- ✓ **Complete Worked Model Answers:** Every question includes full intermediate workings so you know exactly how marks are earned.

Pair with the Companion Practice Workbook:

For extensive hands-on calculation practice, pair this Core Study Guide with the *Functional Skills Maths Level 2 Companion Practice Workbook* containing 120+ stepped drills and blank method workspaces.
