General Marking Guidance

- This mark scheme gives you:

  1. An idea of the type of response expected / acceptable / not acceptable
  2. How individual marks are to be awarded
  3. Specific codes styles used in this mark scheme
  4. Information on how to apply this mark scheme

- All learners must receive the same treatment. Examiners must mark the first learner in exactly the same way as they mark the last.
- Mark schemes should be applied positively. Learners must be rewarded for what they have shown they can do rather than penalised for omissions.
- Examiners should mark according to the mark scheme not according to their perception of where the grade boundaries may lie.
- There is no ceiling on achievement. All marks on the mark scheme should be used appropriately.
- All the marks on the mark scheme are designed to be awarded. Examiners should always award full marks if deserved, i.e., if the answer matches the mark scheme.
- Examiners should also be prepared to award zero marks if the learner's response is not worthy of credit according to the mark scheme.
- Where some judgement is required, mark schemes will provide the principles by which marks will be awarded and exemplification may be limited.
- When examiners are in doubt regarding the application of the mark scheme to a learner's response, the team leader must be consulted.

Section A

Question	Answer	Mark(s)
1	It limits the digital footprint of a user	1
2	Upload the files	1
3	The user may feel neck pain	1
4	A unit of data storage	1
5	It scans files as they are opened	1
6	Search for the complete file name	1
7	Leave the group chat	1
8	Correct the data	1
9	The website has a valid business address	1
10	A 100 KB file	1
	Total marks for Section A	10

Section B

Task A	Evidence	Mark(s)
